THE CONSTITUTION

A new Constitutional Decree was published in Lagos on March 17th, 1967, to replace all earlier Decrees. The following are its principal provisions:

1. Legislative and executive power is vested in the Supreme Military Council. The Chairman of the Council is the head of the Military Government. The Supreme Military Council is composed of the Regional Military Governors and the Military Administrator of the Federal Territory; the Heads of the Nigerian Army, Navy and Air Force, the Chief of Staff of the Armed Forces and the Inspector-General of Police or his Deputy.

2. The Supreme Military Council can delegate powers to a Federal Executive Council, which is predominantly composed of civilian Commissioners drawn from all the States of the Federation, with Gen. Gowon, Rear-Admiral Wey and Alhaji Kam Selem representing the armed forces. The Federal Attorney-General and the Secretaries to Federal and State Governors, as well as other appropriate officials, may attend the meetings of either Council in an advisory capacity.

3. On certain matters of legislation, the concurrence of all the Military Governors is required. These matters in-

NIGERIA—(THE CONSTITUTION, FEDERAL GOVERNMENT, STATE GOVERNMENTS)

clude any decrees affecting or relating to the territorial integrity of a State, or altering entrenched clauses of the 1963 Constitution, or affecting the Federation in respect of trade, commerce, transport, industry, communications, labour, the public service or public finance (including approval of new capital projects in Federal estimates), or affecting external or security affairs, or affecting the professions and higher education.

4. Special powers are given to the Supreme Military Council to override State legislation, with the concurrence of a majority of Military Governors, if that legislation impedes the exercise of Federal authority or constitutes a danger to the continuance of Federal Government in Nigeria.

5. The creation of new States will be treated as an entrenched clause of the Constitution.

6. Certain additional matters covered by the new Decree include: the revived power to appoint local authority police; one Federal Supreme Court judge will be appointed by each State; decrees made since January 1966 may be repealed or amended by individual Military Governors; the new Decree cannot be challenged in a court of law; power of appointment to higher Civil Service posts is in the hands of the Supreme Military Council, acting on the advice of the Public Service Commission.

On May 27th, 1967 the Supreme Military Council issued a decree creating 12 states out of the four existing Regions.

Northern Region was divided into six States and Eastern Region into three. Lagos State was created by the merger of the Colony Province of Western Region with the Federal Territory of Lagos. The rest of Western Region became Western State. The Mid-Western Region retained the same boundaries as Mid-Western State.

JUDICIAL SYSTEM

The High Courts of Justice are superior Courts of Record and have unlimited jurisdiction in the first instance except in certain cases which are reserved to the Federal Supreme Court, for example, disputes between any of the component parts of the Federation involving any question as to the existence or extent of any legal right, and matters arising under any Treaty or affecting Consular Officers or any international organization outside Nigeria. The High Courts also have jurisdiction to hear appeals from Magistrates' and Native Courts.

The Magistrates' Courts have original jurisdiction in a large variety of civil and criminal cases, some also have jurisdiction to hear appeals from Native Courts. The offices of Chief Magistrate have been retained in all areas.

Customary Courts have been retained throughout the Federation. The law administered in those Courts is, generally speaking, the Native Law and Custom prevailing in the area of their jurisdiction.

The Federal Supreme Court is the final Court of Appeal in Nigeria, consisting of the Chief Justice and eight Justices of the Supreme Court.

The Judges of the Federal Supreme Court and of the High Courts of Justice are appointed by the President. Judges of the High Courts of the States are appointed by the Governor of each State.

OMAN

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Sultanate of Oman lies at the extreme south-east of the Arabian peninsula and is flanked by the United Arab Emirates on the extreme north, by Saudi Arabia on the north and west, and by the People's Democratic Republic of the Yemen on the extreme west. The frontier with Saudi Arabia is very ill-defined. The climate is exceptionally hot and humid in the summer (maximum temperature $108^{\circ}\text{F}/42^{\circ}\text{C}$) and mild in the winter. The official language is Arabic, though English is spoken in business circles. The majority of the population are Ibadhi Muslims; about a quarter are Sunni Muslims. The flag is red, with a white and a green rectangle superimposed and a crest in the top left-hand corner. The capital is Muscat.

Recent History

Officially known as Muscat and Oman until 1970, the Sultanate has had a special relationship with Britain since the nineteenth century. The small army and police force still have British officers and the defence post in the cabinet is held by a Briton. Sultan Said bin Taimur succeeded his father in 1932, and maintained a strictly conservative and isolationist rule until July 1970, when he was overthrown by his son in a bloodless palace coup. The new Sultan, Qabus bin Said, then began a cautious liberalization of the regime, following the example of the sheikhdoms to the north. The Sultan's government has recently been challenged by Chinese-backed rebel forces based in Aden; these forces claim to be in control of most of the adjacent Dhofar province, where extensive fighting continues. Sixty per cent of the Omani budget is spent on defence. At the beginning of 1972 the two main rebel organizations united to form the Popular Front for the Liberation of Oman and the Arabian Gulf. Since 1954 another rival claim to rule Oman has come from the exiled Imam Ghaleb and his brother, Taleb. With Arab League mediation and the less intransigent attitude of the new sultan, this dispute is nearing solution. In September 1971

thousands of workers went on strike in Muscat and Matrah. Troops restored order and a committee was set up to examine the workers' grievances.

Government

The Sultan rules with the advice of a cabinet of ministers.

Defence

The small Omani defence forces are led by British officers, and British soldiers experienced in desert warfare also assist.

Economic Affairs

Cereal crops are grown for local consumption, while dates, limes and pomegranates are the chief export crops. Cattle breeding is extensive in Dhofar, and the Oman camel is highly valued throughout Arabia. The most urgent problem is the shortage of water. Production of oil began in 1967 and is monopolized by the Petroleum Development Company, which is 85 per cent owned by Shell, 10 per cent by the Compagnie Française des Pétroles and five per cent by the Gulbenkian Foundation. In March 1971 Wendell Phillips Oil was awarded a 450-mile long offshore concession, possibly the largest anywhere in the Middle East.

Public Holidays

1972: April 26 (Mouloud), November 8-10 (Id ul Fitr).

1973: January 17 (Id ul Adha), February 6 (New Year), February 15 (Ashoura).

Weights and Measures

The imperial, metric and local systems are all used.

Currency and Exchange Rates

The Rial Saidi is divided into 1,000 baiza.

Coins: 2, 5, 10, 20, 25 and 100 baizas.

Currency: RS100 = £100 sterling = U.S. \$260.

Budget: Revenues depend almost entirely on oil royalties and other payments by oil companies; in 1969 these were estimated at over £30 million.

External Trade: Exports are virtually confined to oil shipments; no total import statistics are available, but imports from Britain, the principal supplier, amounted to £2,313,000 in 1967, £2,718,000 in 1968, and £5,280,000 in 1969.

ROADS

On the coastal plain there is a graded motor road from Muscat north-west to Sohar and thence inland through the mountains to Sharjah (260 miles). The Oil Company and the Development Department also maintain several graded motor roads in the interior linking Muscat with the Sharqiyah to the south-east, with Nizwa to the west, and with Ibri and Buraimi to the north-west, covering approximately 500 miles. The coast road has been improved as far north as Sohar.

SHIPPING

Muscat is the largest port with a good natural harbour. It is the port of call on the Basra-Bombay mail route; about 200 ships call each year. The British India Steam Navigation Co. runs a fortnightly cargo mail service from Basra to Bombay, calling at all main ports in the Gulf, including Muscat, which is also served by cargo steamers of the Holland Persian Gulf Lines.

Other ports, for small craft only, are Matrah, Murbat, Sohar, Kaburah and Sur.

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Islamic Republic of Pakistan is bordered by India to the east and Afghanistan and Iran to the west. It has a short frontier with China in the far north-east. The climate is hot and dry with an average temperature of 80°F (27°C) except in the mountains where the winters are cold. The national language is Urdu; English is extensively used. The state religion is Islam, embracing nearly 85 per cent of the population, the remainder being mainly Hindu, Christian and Buddhist. The flag is dark green with a vertical white bar in the hoist, charged with a crescent moon and five-pointed star. The capital is Islamabad (created July 1965).

Recent History

Pakistan was created as a sovereign, independent Muslim State under its founder-leader Mahomed Ali Jinnah by the partition in 1947 of the former British India into the states of India and Pakistan. The partition started a period of frontier and religious battles and movements of population in which hundreds of thousands of Muslims and Hindus lost their lives. In 1955, the former Provinces of Punjab, Sind, Baluchistan and North-West Frontier were united to form West Pakistan, while the eastern part of Bengal was renamed East Pakistan. In March 1970, the four provinces of West Pakistan (*see above*) were re-constituted. For some years Pakistan operated a parliamentary form of government through political parties but this system ceased in 1958 when the Constitution was abrogated and martial law imposed. Field Marshal Mohammad Ayub Khan was appointed Martial Law Administrator and in February 1960 was elected President for five years. In 1959 the concept of Basic Democracies was introduced as the foundation of a new form of democratic local and national government. In 1962 a new Constitution embodying this principle was proclaimed and a measure of party freedom restored. In January 1965 President Ayub Khan was re-elected for a further five years. Dissatisfaction with the political system, economic and social grievances, and demands for greater autonomy for the constituent regions of the country combined to create widespread agitation and disorder late in 1968. In the face of continued deterioration in law and order to the point of paralyzing the administration and the economy, particularly in East Pakistan, Field Marshal Ayub Khan resigned the presidency on 25 March 1969 and martial law was declared. General Yahya Khan became Chief Martial Law Administrator and, later, President, pending the convening of a directly elected parliament which was to draw up a new constitution.

In December 1970 general elections were held which resulted in outright victory for the Awami League led by Sheikh Mujibur Rahman in East Pakistan. After Sheikh Mujib demanded complete autonomy for East Pakistan, martial law was proclaimed in March 1971, and the convening of the National Assembly was indefinitely postponed. Civil war then broke out between the followers of Sheikh Mujibur Rahman (the *Mukhti Bahini*) and the

martial law authorities which continued throughout the summer and early autumn of 1971. Sheikh Mujib himself was imprisoned in West Pakistan.

Following frequent border clashes between Indian and Pakistani troops in October and early November 1971, especially in East Pakistan, President Yahya Khan declared a state of emergency on November 23rd. On December 4th the Pakistani air force struck at Indian airfields including Amritsar, Srinagar and Avantipur. India was placed on a war footing and full-scale hostilities commenced on both the eastern and western borders of Pakistan. By mid-December Indian forces had penetrated deep into East Pakistan, which had been recognized by India as the Peoples Republic of Bangladesh on December 6th, thus causing Pakistan to break off diplomatic relations with India.

On December 14th, Dr. A. M. Malik, the Governor of East Pakistan, resigned. Two days later 35,000 Pakistani troops in the East under General A. K. Niazi surrendered unconditionally in Dacca. An Indian offer of a cease-fire to take effect next day in the West was accepted by President Yahya Khan, who resigned on December 19th. The first civilian administration in Pakistan for 13 years was sworn in on December 23rd under the new President, Zulfikar Ali Bhutto. The army and navy were purged; six naval officers including a vice-admiral, and three generals were dismissed. Three new civilian governors were appointed to replace military governors in Sind, Baluchistan and Punjab. Martial Law was lifted on April 21st with the introduction of a new interim Constitution (*see also under Government*).

Sheikh Mujibur Rahman was released from prison and returned to Bangladesh, where he became Prime Minister. Upon the announcement of intended British recognition of Bangladesh in January 1972, Pakistan left the Commonwealth. Peace talks between India and Pakistan are expected to take place in mid-May 1972.

A number of the problems arising from the partition of the sub-continent in 1947 have now been settled. The dispute over the distribution of the six rivers of the Indus Basin was resolved with the signing of the Indus Waters Treaty by India and Pakistan in 1960. The international borders in the Rann of Kutch were delimited by an international tribunal in 1968. However, questions relating to minorities and refugees' property, and the status of the mountain territory of Kashmir, remain in dispute, and these outstanding issues led to a full-scale war between the two countries in 1965. In January 1966 a peace meeting at Tashkent, U.S.S.R., arranged through Soviet mediation, led to the signing of a Declaration by both parties providing for the withdrawal of troops to pre-hostilities positions and renouncing the use of force in settling disputes. Pakistan's former alignment with the Western bloc, seen in membership of CENTO and SEATO, has to some extent given place to improved relations with China, the Soviet Union and the Muslim countries of the Middle East, especially Iran and Turkey.

PAKISTAN—(INTRODUCTORY SURVEY)

Government

The new interim Constitution which became effective on April 21st, 1972, includes provision for parliamentary government; election of a President by secret ballot for an initial period of five years; full civil rights. A permanent Constitution is to be introduced in August.

Defence

Prior to the war with India in December 1971, the armed forces totalled 392,000 men including 10,000 in the navy and 17,000 in the air force. About 34 per cent of the Budget was devoted to defence. Pakistan is a member of the Central Treaty Organization (CENTO) and of the South-East Asia Treaty Organization (SEATO).

Economic

Agriculture is the backbone of Pakistan's economy. Wheat, sugar cane and cotton are all important crops. Rice is also important, but the loss of East Pakistan, where the rice cultivation was concentrated, will considerably lower total production figures. During the 1960s agricultural production increased, aided by the sinking of tubewells for water supply, the introduction of new seed varieties, and the success of the Rural Works Programme in improving transport and irrigation facilities.

Pakistan is poorly endowed with natural resources. Water is a valuable resource and extensive irrigation works have been undertaken. The Indus Basin water harnessing scheme is expected to improve the supply and use of water.

Pakistan has experienced a rapid growth in industrial output, with the former emphasis on consumer goods giving place to the development of export and capital industries. The ten major industries have been nationalized.

Transport and Communications

Pakistan's rail and road systems, which were developed before Partition, have had to be adjusted to the new frontiers although some rail transit facilities have been negotiated with India. There are 5,300 miles of railways in Pakistan. The principal port of Pakistan is Karachi. International air transport is provided by Pakistan International Airways Corporation (PIA) and twenty foreign lines.

Social Welfare

Social welfare services are run mainly through the Development Schemes and Urban Community Projects. The National Council of Social Welfare provides care for

children, women, delinquents and the handicapped. Government support is given to voluntary bodies providing social relief.

Education

Universal free primary education is a constitutional right but less than half Pakistan's children in fact receive it, and only about 10 per cent reach secondary education. Some 15 per cent of the population is literate. There are 7 universities.

Tourism

The Himalayan hill stations of Pakistan provide magnificent scenery, a fine climate and excellent opportunities for field sports, mountaineering and winter sports.

Visas are not required to visit Pakistan by nationals of Austria, Belgium, Denmark, France, German Federal Republic, Greece, Iran, Japan, Luxembourg, Netherlands, Norway, Sweden, Tunisia and Turkey. The period of exemption is three months.

Sport

Pakistan's principal sports are hockey, cricket, football, wrestling and squash rackets. Polo originated in Chitral; athletics and swimming are also popular.

Public Holidays

1972: August 14 (Independence Day), September 6 (Defence of Pakistan Day), September 11 (Anniversary of Death of Quaid-i-Azam), November 3 (Jumatul Wida), November 8-9 (Eid-ul-Fitr), December 25 (Birthday of Quaid-i-Azam and Christmas).

1973: January 24 (Eid ul-Azha), March 23 (Pakistan Day), February 21 (Muharram Ashura).

Weights and Measures

The Imperial System of measures is in force.

1 maund = 82.27 lb.

1 seer = 2.057 lb.

1 tola = 180 grains

The unit of currency is the rupee, which is divided into 100 paise.

THE CONSTITUTION*

Promulgated February 1962; Abrogated 25 March 1969 and replaced by Martial Law Regulations 1962; Constitution revived provisionally 4 April 1969, with certain provisions remaining abrogated and with Martial Law Regulations remaining operative. In the event of conflict between Constitution and Martial Law, the latter to prevail.

PREAMBLE

Pakistan shall be a democratic State, based on Islamic principles of social justice and upholding the free rights of the people. The territories included in Pakistan shall be in the form of a Federation with the Provinces enjoying such autonomy as is consistent with the unity and interests of Pakistan as a whole. The "Islamabad Capital Area", in West Pakistan, shall be the principal seat of the Central Government and the "Dacca Capital Area", in East Pakistan, shall be the principal seat of the Central Legislature. The national languages shall be Bengali and Urdu, English may continue to be used until 1972.

HEAD OF STATE

The President shall be elected for a five-year term of office, by Basic Democracies consisting of the Electors representing each basic electoral unit. He is not normally eligible for re-election after eight years in office. He may only be removed from his post by vote of not less than three-quarters of the members of the National Assembly; if the motion fails to secure the necessary votes the original signatories of the motion shall lose their seats in the Assembly. In case of incapacity the Speaker of the National Assembly shall act as President.

PRESIDENTIAL ELECTION

Only three candidates, after approval by a joint session of the Provincial and Central Legislatures, will be allowed to contest the Presidency.

CENTRAL GOVERNMENT

All executive authority is vested in the President and he has power to issue ordinances when the National Assembly is not in session. No bill may become law without his assent and he may submit any disputed matter to a referendum of the members of the Presidential Electoral College. The President may appoint a Council of Ministers, whose members may participate in the proceedings of the National Assembly, although they cannot vote. The President may also appoint Parliamentary Secretaries from among the members of the National Assembly.

The Central Legislature shall consist of the President and a single House, the National Assembly of Pakistan. The National Assembly shall have 156 seats; 150 elected seats whose members are drawn equally from each province and six especially reserved for women, three from each province. The life of the Assembly shall be five years and it shall meet in two ordinary sessions a year. The Speaker and two Deputy Speakers shall be chosen from the members.

PROVINCIAL GOVERNMENT

Each province shall have a Governor, appointed by the President. The Governor may appoint Provincial Ministers and Parliamentary Secretaries under the same conditions as those applying to the Central Government. The Ministers may only be dismissed with the concurrence of the President. The Provincial Assemblies shall have 155 members, of which 5 seats shall be exclusively reserved for women. The Assemblies are elected for five years and the

Speaker and two Deputy Speakers elected from among the members.

ELECTORS

The 80,000 members of the Basic Democracy Councils, elected by the people, form the electoral college for Presidential and provincial elections. They are termed "electors"; the minimum age for electors and Members of Parliament and Assemblies is 25 years. The Constitution lays down that each Province will have not less than 60,000 territorial electoral units. These electoral units will be grouped into 150 Provincial constituencies and 75 central constituencies in each province.

The Constitution can be amended by a two-thirds majority in Parliament, unless the President disagrees. A three-quarters majority of the total vote will override the President in which case he may refer the matter to a national referendum. The President has the power to dissolve Parliament, but must then seek re-election within 120 days.

ELECTORAL SYSTEM

The Electoral system is indirect and is based on the territorial Electoral Unit. Each Province shall be divided into an equal number of Units, not less than 60,000, who shall each elect an Elector by universal adult suffrage. These Electors form the Basic Democracies, who elect the members of the Provincial Assembly and National Assembly, following election of the President.

The arranging of the Electoral Units and subsequent units rests with an Electoral Commission consisting of a Chief Commissioner and two High Court Judges, one from each province, who are appointed by the President.

JUDICIARY

The Judiciary shall consist of the Supreme Court and the Provincial High Courts. The Supreme Court shall have three functions: original jurisdiction in any dispute between the Central Government and a Provincial Government or between the two provincial governments; appellate as the final Court of Appeal; and advisory in matters of law. The Chief Justice shall be appointed by the President and the Judges by the President after consultation with the Chief Justice.

The Provincial High Courts shall consist of a Chief Justice and as many Judges as may be determined by law.

The Fundamental Rights Bill (formerly the Constitution Amendment Bill) approved by the National Assembly in December 1963, has the following provisions:

- 1 The country shall be known as the Islamic Republic of Pakistan and all legislation repugnant to the Koran or the Sunnah shall be barred.
- 2 All fundamental rights enshrined in the Constitution shall become "justiciable" or enforceable in the courts, with the exception of 31 laws promulgated under the martial law regime.
- 3 The jurisdiction of the High Court and the Supreme Court apply to the tribal areas.

"PROVISIONAL LEGAL FRAMEWORK" FOR NATIONAL ASSEMBLY ELECTIONS, DECEMBER 1970

Elections for a National Assembly to consist of 313 seats, including 13 reserved for women, were held on 7 December 1970, and 17 December for the Provincial Assemblies, on the basis of a "provisional legal framework" evolved by the martial law administration. The Assembly will be charged with framing a constitution which would transfer power from the military administration to a civilian government within 120 days of its first sitting. If it fails it will be dissolved and new elections held.

The 'provisional legal framework' incorporates two

principles: (1) the dissolution of the One Unit of West Pakistan and the reconstitution of the four provinces of Sind, Baluchistan, Punjab and North-West Frontier Province; (2) the principle of One Man-One Vote to apply in the election of the National Assembly. The elections are to be held on the basis of direct adult franchise and the future form of government will be federal parliamentary. The President has constituted an Election Commission whose Chairman is the Chief Justice of the Supreme Court.

* President Yahya Khan announced on October 12th, 1971, that a new constitution would be published on December 20th, that the National Assembly would meet on December 27th and a new central government be formed "soon after the inaugural session of the National Assembly". Constitutional amendments would be proposed within 80 days of the formation of the government. These intended arrangements were cancelled following the resignation of President Yahya Khan on December 19th, 1971.

THE PRESS

Pakistan's press today is largely a remnant of the Muslim press that became prominent during the struggle for the national State (1940-47). The first Urdu-language newspaper, the daily *Urdu Akhbar*, was founded in 1836. After 1945, with the introduction of modern equipment, the more influential English newspapers, such as *Dawn* and *Pakistan Times*, were firmly established, while several new Urdu newspapers, for example *Shahbaz*, *Naww-i-Waqt* and *Imroz*, became very popular.

In Pakistan there are 12 English dailies, 62 Urdu dailies and 10 in regional languages. In addition there are 230 weeklies and 16 bi-weeklies. These together with other publications number in all 1,222.

The Urdu press comprises 550 newspapers, with *Afaq*, *Nawa-i-Waqt* and *Zamindar* being the most influential. The largest daily is *Jang* (300,000 circulation). Though the English-language press reaches only 1 per cent of the population and totals 150 publications, it is influential in political, academic and professional circles.

Although the Constitution grants freedom of expression, there are a number of press laws which govern entry into newspaper publishing and, since the press in Pakistan is politically oriented, a rather strict press censorship operates. Thus, for example, the Penal Code may declare certain activities by the press to be "offences against the State" or "against public tranquillity".

PANAMA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Republic of Panama is a narrow strip of territory at the southern end of the isthmus separating North and South America. It is bounded to the west by Costa Rica and to the east by Colombia in South America. The Caribbean Sea is to the north and the Pacific to the south. The climate is tropical and the Caribbean coast receives up to 150 inches of rainfall per year. The tropical rain forest of the north coast gives way to savannah grassland on the south coast. Spanish is the official language and Roman Catholicism the religion of most of the people. The flag carries four quarters: white with a blue star, blue, white with a red star and red. The capital is Panama City.

Recent History

The terms of the treaty by which the Panama Canal Zone was ceded to the United States two weeks after Panama's emergence as a separate nation in 1903, have bedeviled relations between the two countries for many years. The treaty was modified in 1936 and 1955 but the Panama Canal Zone Government and the Panama Canal Zone Company, both headed by the same man, retain complete jurisdiction in the Canal Zone. Violence broke out on the Zone border in 1964 and twenty-one Panamanian demonstrators lost their lives as a result. In the same year Presidents Johnson and Robles pledged their governments to find a peaceful solution to the dispute. Negotiations on the present canal, the possibility of making a sea-level canal and the defence of the area, continued till 1967 but the draft treaties were shelved by both governments, which now faced elections.

In 1968 after eleven days in office President Arias was deposed and after four months of uncertainty, General Omar Torrijos, the commander of the National Guard, emerged as the country's leader. Negotiations with the United States on the future of the Canal Zone and the possibility of making a second canal were reopened in June 1971 but have not led to agreement. Since 1969 the government has carried out agrarian reforms favouring landless peasants. Political parties remain banned but in November 1971 General Torrijos announced that a constituent assembly of five hundred *corregidores* would be elected in August 1972. This assembly would later elect a new president. Panama is a member of the Organization of American States.

Government

The President and the Chamber of Deputies are elected for a four-year term by universal adult suffrage. The President is assisted by a Cabinet of Ministers.

Defence

There is a National Guard of some 5,000 men commanded by General Omar Torrijos, but a military force is assembled only in emergencies.

Economic Affairs

About a quarter of the national revenue is derived from the Canal Zone by way of lease fees and labour services. The economy is based on the land with rice, sugar and

bananas as principal crops. Cocoa, hemp, coconuts and maize are grown. Industry is mainly concerned with the manufacture of sugar and alcoholic beverages. Shrimp fishing is important. There are timber resources notably mahogany. Chief exports are refined petroleum, bananas and shrimps, with the United States as virtually the sole customer. Much revenue comes from shipping registration fees (see next paragraph).

Transport and Communications

There is a government-owned railway and two others which are United States-owned. Roads extend for some 6,000 kilometres of which about 4,000 are unpaved. The Pan-American Highway is to be extended from Panama City to Colombia by 1976, thus making the highway complete. The merchant marine is one of the world's largest with over six million gross tons (1970). Most of the vessels are foreign-owned but registered in Panama.

Social Welfare

Social welfare is being developed with insurance benefits for unemployment, sickness and retirement. Employees contribute to the scheme, which is Government operated.

Education

There is compulsory education for children between seven and fifteen years. There are two universities.

Tourism

There is some tourism though most travellers are in transit through the Panama Canal. Panama City on the Pacific coast is the main resort.

Visas are not required to visit Panama by nationals of Costa Rica, El Salvador, Germany, Honduras, Italy, Spain and Switzerland, for a stay of less than 3 months, and of the United Kingdom for a stay less than 30 days.

Sport

Baseball and basketball are the most popular games.

Public Holidays

1972: May 1 (Labour Day), October 11 (Independence from Colombia), November 3 (Day of the National Flag), November 28 (Independence from Spain), December 8 (Immaculate Conception), December 25 (Christmas).

1973: January 1 (New Year's Day), January 9 (National Martyrs' Day), March 6 (Carnival), March 1 (Constitution Day), April 20 (Good Friday).

Weights and Measures

Both the Metric and the Imperial Systems of weights and measures are in use.

Currency and Exchange Rates

The monetary unit is the Balboa of 100 Cents (at par with the U.S. Dollar).

Coins: 5, 10, 25, 50 Cents; 1 Balboa.

Notes: U.S.A. notes are in circulation.

Exchange rate: 2.60 Balboa = £1 sterling.

PARAGUAY

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Paraguay is a landlocked state in central South America. Bolivia lies to the north, Brazil to the east and Argentina to the south and west. The climate is sub-tropical with a temperature range from an average maximum of 34.3°C (93.7°F) in January to an average minimum in June of 14°C (51°F). The official language is Spanish. Guaraní is also spoken. Roman Catholicism is the established religion and embraces 89 per cent of the population. There is a small Protestant minority. The flag consists of horizontal stripes of red, white and blue, the white stripes being charged with the national arms and a lion. The capital is Asunción.

Recent History

Paraguay suffered heavy losses in the Chaco War with Bolivia in the 1930s. The country has a long history of political revolt and only since the election of General Alfredo Stroessner as President in 1954 has there been comparative stability. In 1955 the President assumed extensive powers and many opposition leaders went into exile, but some have since returned. General Stroessner was re-elected by large majorities in 1963 and 1968. 1969 and 1970 were marked by mounting tension between the Church and the Government.

Government

Paraguay is a Republic and executive power is exercised by the President, assisted by a Council of State. The Legislature is the bi-cameral Chamber of Senators and Deputies elected for a five-year term. The President has power to dissolve the Chamber of Deputies and to remove the Councillors of State, but in the first case an election must be called within two months. He may also call a state of siege, renewable every 90 days, if the working of the Constitution is endangered.

Defence

There is an Army and Air Force consisting of about 8,000 men, and inland waters are patrolled by naval units.

Economic Affairs

The economy is agricultural. The main agricultural crops are fruit and vegetables, some of which are exported, oil-producing seeds, cotton, tobacco, coffee, sugar-cane and maize. The forests yield valuable timber, mainly hardwoods. Considerable American financial and technical assistance has been granted towards a number of rural development projects. The principal industries are meat canning and the treatment of hides and skins. Trade is mostly with Argentina and the U.S.A. Dependence on imported goods during the 1960's led to a high trade deficit. In 1969 external changes in world meat market prices resulted in a substantial increase in meat exports. This growth was sustained throughout 1970. The trade deficit figure of U.S. \$31 million in 1969 dropped to U.S. \$14 million in 1970. In November 1970 the 1971-75 Development Plan was announced. It aims at improving export facilities, developing agriculture, especially in

regional areas, and in modernizing the techniques of timber production. Road construction schemes are intended to improve the transportation of exports and to encourage tourism. Paraguay is a member of LAFTA, in which she has certain preferential treatment as a relatively less developed country. In September 1971 a free-trade zone was established at Puerto Presidente Stroessner.

Transport and Communications

There are 488 km. of railways and 1,555 km. of roads. A direct bus service links Asunción with Buenos Aires, Argentina and with Curitiba and São Paulo, Brazil. There are some 704 km. of Pan-American Highway and the Trans-Chaco Highway extends from Asunción to Bolivia. A new road is planned to link it with Salta. The river Paraguay is navigable from Asunción to Concepción and beyond for small vessels, and there is much traffic along the river Paraná through Argentina to the Atlantic at Buenos Aires and Montevideo. In 1967 Paraguay and Argentina agreed to grant free navigation to merchant vessels of the two countries on the Rivers Plate, Paraguay and Paraná; in addition Paraguay enjoys free transit facilities at Buenos Aires and free port facilities at Paranaguá, Brazil, and Nueva Palmira, Uruguay. There is a modern airport at Asunción for internal and international air transport.

Social Welfare

A bilateral co-operative health service is in force with the U.S.A. and there are a number of large health centres. A five-year malaria eradication programme has been launched.

Education

Primary education is free and where possible compulsory but there are insufficient schools, particularly in the remote parts of the country. In 1969 there were about 3,403 schools, one State university and one Catholic university.

Tourism

Tourism is undeveloped but with the growth of air transport and the construction of new international highways efforts are being made to promote it. A tourist development plan was announced in September 1969, to be financed by an I.D.B. loan of U.S. \$800,000.

Visas are not required to visit Paraguay by nationals of Argentina, Belgium, Brazil, Chile, Denmark, Ecuador, Finland, France, German Federal Republic, Italy, Liechtenstein, Luxembourg, Mexico, Netherlands, Norway, Spain, Sweden, Switzerland, United Kingdom, United States and Uruguay.

Sport

Football is the most popular sport.

PERU

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Peru is an Andean country situated on the Pacific coast of South America. It is bordered by Ecuador and Colombia to the north, Brazil and Bolivia to the east and Chile to the south. The climate varies with altitude, average temperatures being some 20°F (7°C) lower in the mountains than in the coastal region. The official language is Spanish but Quechua is the only language of a large proportion of the Indian population. Most of the population is Roman Catholic and there is a Protestant minority. The flag consists of vertical stripes of red, white and red. The capital is Lima.

Recent History

A military coup took place in 1948, establishing General Manuel Odría as President. After a period of stability and economic growth Dr. Manuel Prado won the presidential elections of 1956. President Prado was deposed in 1962 by a triumvirate of military leaders. In 1963 President Fernando Belaúnde Terry was elected after a year of military government. His term of office was marked by frequent changes of government and increasing guerrilla warfare in the hinterland. In October 1968 a military coup established General Juan Velasco Alvarado as President, Congress was suspended and a military cabinet was appointed. In the agricultural sector President Velasco's government has enacted reforms expropriating the estates of large landowners and foreign companies in favour of the peasants. Many of the estates are managed by the government as co-operative farms. In commercial, industrial and mining enterprises the government has aimed to increase Peruvian participation and to lessen the country's economic dependence on the United States. In 1968 the government expropriated the ESSO subsidiary, International Petroleum Company but since 1970 there has been an increase in foreign investment. Peru claims territorial waters of 200 miles. Peru is a member of LAFTA and the Andean group. In May 1970, more than 50,000 people were killed in an earthquake north of Lima.

Government

Executive power is vested in the President, assisted by a Cabinet. Congress was suspended in 1968; government is by decree, pending a new constitution and subsequent elections. The country is divided into 24 Departments administered by Prefects.

Defence

Armed forces consist of an Army, Navy and Air Force. The Army numbers about 30,000 men. All male citizens from eighteen to twenty-four years of age are liable to compulsory military training and some, chosen by ballot, have to do regular service for two years.

Economic Affairs

Peru has a diversified agricultural economy, the chief crops being potatoes, sugar, barley, maize and cotton. Livestock is raised particularly in the mountains. Fishing has become very important and Peru has become the world's greatest producer of fishmeal. Large scale irrigation

and power schemes are being undertaken, including Tinajones, Olmos (involving diversion of a river from the Atlantic to the Pacific by building a 20km. tunnel thus providing irrigation for 120,000 acres and a power potential of 350,000 kW), Majes and Mantaro; these will greatly extend cultivable land and provide an important source of energy. Minerals include silver, of which Peru is one of the world's main producers, petroleum, iron ore, and copper and large deposits of phosphates and potash are being developed. During the next five years the government envisages that semi-finished steel products should rise to 2.5 million tons. Five petro-chemical plants, to be run by Petroperú, are to be built at a cost of U.S. \$200 million. Petroperú is to invest U.S. \$30 million in oil-exploration off the coast of Trujillo and in the Amazonian jungle.

Transport and Communications

Transport is made difficult by the terrain, internal air services being an important means of transport. There are 2,000 miles of railways. The road system is centred on the 2,121-mile long Peruvian section of the Pan American Highway which is crossed by the Trans-Andean Highway running from Lima. A new 300 mile road, part of the Trans-Andean Highway, connecting Lima and Callao with the headwaters of the Amazon, is due for completion in 1980. European shipping lines call regularly at Peruvian ports, the chief of which is Callao. Internal air transport is provided by four local airlines and international services are provided by several major airlines.

Social Welfare

Social insurance is compulsory and benefits cover sickness, disability and old age. Labour legislation guarantees conditions of employment. Special schemes are in force for women and children.

Education

Primary education is free and where possible compulsory between the ages of six and fourteen. There are a number of fee-paying schools. Secondary education is both public and private. There are twenty-seven universities.

Tourism

Peru is famous for the relics of Inca and pre-Inca civilisations. There is spectacular mountain scenery including Lake Titicaca, situated at an altitude of 12,500 feet, and forest and jungle areas. Many of the towns have interesting examples of Spanish Colonial architecture and culture.

Visas are not required to visit Peru by nationals of the following countries: Argentina, Austria, Belgium, Brazil, Canada, Denmark, France, German Federal Republic, Italy, Liechtenstein, Luxembourg, Netherlands, Norway, Philippines, Portugal, Spain, Switzerland, United Kingdom and United States.

Sport

Football is the most popular sport and basketball, baseball, horse-racing and bull- and cock-fighting are widely followed. There are opportunities for hunting and deep-sea fishing.

THE CONSTITUTION

THE Republic of Peru, formerly the chief Spanish viceroyalty in South America, declared its independence on July 28th, 1821, but it was not until 1824, when all Spanish forces were obliged to leave, that the country gained its freedom from Spanish rule.

The existing Constitution was promulgated on April 9th, 1933. It has been amended from time to time.

Under the general guarantees some of the functions of the modern State are defined. Mines, lands, forests, waters, and, generally, all natural sources of wealth belong to the State. Conditions of their exploitation, either by the State or by means of concessions to private persons, will be fixed by law. In industry, the State will support profit-sharing schemes, and will legislate concerning the organization of industry, safety measures for workers, accident compensation, minimum wages, maximum hours and general conditions of work. In agriculture, the State will favour the preservation of the small rural property and may expropriate, with compensation, and subdivide land which is not being exploited economically.

Article 53 provides that the legal existence of political parties with international connections is not recognized, and those belonging to such parties may not hold political office.

Liberty of conscience and of beliefs is inviolable, and no one may be persecuted for his ideals. Freedom of the press is guaranteed, but compensation may be sought through legal channels by an injured party against the editor and author of a publication. Article 65 provides for the censorship of public spectacles. The principle of *habeas corpus* is recognized.

When the security of the State demands, the Executive may suspend wholly or in part, in the whole or in a part of the national territory, certain constitutional guarantees of the individual. If such suspension is decreed while Congress is in session, the Executive must inform Congress immediately. The suspension will be only for thirty days, and another decree will be needed for any further extension. The powers of the Executive during the suspension of guarantees will be fixed by law.

Voting for men and women between the ages of 21 and 60 is compulsory; after 60, voting is optional.

The Legislative Power. The Constitution provides for a bi-cameral legislature. Both the Senate of 45 members, and the Chamber of Deputies, consisting of 140 members, are elected for six years. Congress begins its sessions on July 28th, and continues in ordinary session for 120 days. The President, with the agreement of his Cabinet, may convolve extraordinary sessions. Congress legislates, interprets, modifies and repeals laws, examines alleged infringements of the Constitution; imposes and repeals taxes; and approves or rejects the national and departmental budgets. However, any Congressional action to impose or repeal taxes or vote expenditure must be taken on the initiative of the Executive Power. Congress authorizes the Executive to negotiate State loans and provide funds for amortization. It approves or rejects the President's recommendations for the advancement of higher officers of the armed forces,

and establishes the strength of those forces, and approves or withholds approvals of treaties negotiated by the Executive.

The Executive Power. The President is elected for a six-year term, which begins on July 28th of the year of election. First and Second Vice-Presidents are elected simultaneously with the President. The last-named is not eligible for re-election until after the lapse of at least one presidential term. This provision of the Constitution may not be reformed or repealed, and any person attempting to do so must retire from office, and will be permanently incapacitated from holding any public office. The President may not command the armed forces without the permission of Congress. On taking up such a command, he becomes subject to military laws and regulations. His tasks include the drafting of laws and the making of resolutions and decrees promulgating laws, the maintenance of internal order and external security, the convoking of presidential and congressional elections, and of extraordinary sessions of Congress. It is his duty to see that the resolutions of the Judicial Power are carried out. He organizes and distributes the armed forces, administers the finances of the State, negotiates treaties, appoints and removes the members of his Cabinet and, with the approval of his Cabinet, appoints members of the diplomatic corps, and selects candidates of Peruvian birth for archbishoprics and bishoprics, whose names are submitted to the Vatican.

The Judiciary. The Supreme Court, with its seat in Lima, consists of the President and 10 members, whose appointments have to be approved by Congress. Higher Courts function in certain departments determined by law, and Courts of First Instance in provincial capitals. There are justices of peace in all towns. Members of the Higher Courts are nominated by the President from a list submitted by the Supreme Court. Appointments to the lower courts must be ratified by the Supreme Court.

The Constitution provides that in each ministry there shall be one or more Consultative Commissions consisting of specialists in the various branches of activity of the ministry; and also provides for a Council of National Economy whose members shall represent the interests of consumers, capital, labour and the liberal professions.

Regional Administration. The country is divided into 24 Departments administered by Prefects. The Departments are divided into provinces, which in turn are divided into districts.

Municipal Councillors are nominally elected by direct vote, and foreigners are eligible, but for some years municipal bodies have been appointed without election. The Municipal Elections Law provides for elections every 3 years.

Indigenous Communities. The Constitution recognizes the legal existence and juridical personality of the indigenous communities, whose property may not be alienated except in the public interest, when compensation must be given. The State is responsible for the civil, penal, economic and administrative laws regulating these communities.

This constitution has only partially remained in force during the several periods of military government since it was promulgated, including the present one.

THE PHILIPPINES

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Republic of the Philippines lies in the Pacific Ocean east of South-East Asia. The principal islands of the Philippine archipelago are Luzon in the north and Mindanao in the south. The island chain stretches 1,150 miles from north to south and is 690 miles wide. Borneo is to the south-west and New Guinea to the south-east. The climate is maritime and tropical with high humidity. Rainfall is abundant and typhoons frequently inflict damage. There are numerous language groups. Pilipino (Tagalog), based on Malayan, is the native national language. English is widely spoken and some Spanish. Ninety per cent of the population is Christian (80 per cent Roman Catholic) and 5 per cent Muslim. The flag consists of two equal horizontal bands of blue and red with a gold sun and three stars on a white triangle next to the staff. Since the early 1960s Quezon City has been the official capital, but Manila continues to remain the administrative capital. Both cities are on Luzon island.

Recent History

Japanese forces occupied the islands during the second World War. In 1946 independence was granted and a republic set up thus ending four centuries of rule by Spain, the United States and Japan. Guerrilla bands challenged the central government and not until 1954 was peace fully established. The Philippines has aligned itself with the United States and is a member of the South-East Asia Treaty Organization (SEATO). In August, 1967, the Philippines joined with Indonesia, Malaysia, Singapore and Thailand in forming the Association of South East Asian Nations (ASEAN); there is, however, a long-standing dispute with Malaysia regarding sovereignty over the North Borneo territory of Sabah. General Elections were held in November 1965, and Ferdinand Marcos (Nacionalista) was elected President and re-elected in November 1969. Following a bomb explosion at the Liberal Party Convention in August 1971 a State of Emergency was declared which lasted until February 1972.

Government

The Government system is similar to that of the United States. The President is elected by all literate voters of twenty-one years and over for a four-year term. Legislative power is vested in Congress comprising the Senate and the House of Representatives. The 24 members of the Senate are elected for a six-year term, one-third of the membership being renewable every two years. The House of Representatives has 104 members and holds office for four years. In June 1971, a Constitutional Convention was inaugurated which aims to draft a new revised constitution to be submitted to a plebiscite in November 1972.

Defence

The National Defence Force comprise an Army of 17,600 men, a Navy of 8,000 men and an Air Force totalling 9,000 with 57 combat aircraft. There is a 12,000-strong Constabulary to maintain internal order.

Economic Affairs

Agriculture, forestry and fisheries contribute about 35 per cent of domestic product and employ roughly 60 per cent of the labour force. The major food-producing area is the central plain of Luzon. Rice forms the most important single item in the agricultural system but its predominance is less marked than in other South-East Asian countries, and in some of the islands maize is the leading food crop. Production of rice has, however, increased at a fast rate, mainly due to the introduction of high-yield strains, and the Philippines has attained self-sufficiency in that commodity and now exports a small surplus. The major export crops comprise coconuts, sugar, abaca (Manila hemp) and tobacco. Timber is an important natural resource, and a wide range of metallic minerals is found, including copper, gold, silver, chromite, manganese and iron ore. Mining, food processing, building materials (particularly timber and cement) and the processing of imported raw materials are developing industries, and the country's first integrated steel mill was inaugurated in 1968. High priority is given to the development of power resources, with major projects at Angat, Iligan and on the Bataan peninsula.

A floating rate for the Peso was adopted early in 1970 which led to a stabilized rate of Peso 6.435 to U.S. \$1 throughout 1971. Trade is conducted mainly with the U.S.A. but other countries are becoming important trading partners. President Marcos announced in March 1972 that trade relations would be opened with communist and socialist countries including the U.S.S.R. and China. A continuing trade deficit has created an unfavourable balance-of-payments situation.

Transport and Communications

In the period 1965 to 1971, 38,000 kilometres of new roads were built including 18,000 kilometres in 1971. There are railways on several of the larger islands but these carry mainly freight. The most widely used inland transport are the bus services. Shipping plays a considerable part in carrying passengers and cargo between the islands. There are 77 national and 282 municipal ports. PAL, Filipinas Orient and Air Manila, and foreign airlines, maintain domestic and international services and there is an international airport at Manila.

Social Welfare

Government social insurance provides cover for retirement and life. Employed persons contribute to the scheme from their wages. Public health services such as inoculation and vaccination are provided free in the State Dispensaries.

Education

There is free education in all primary schools of which there were 37,000 with over 6m. pupils (1968). Over 2 million students were enrolled in the 3,000 secondary schools, universities and colleges. Instruction is in English. There are 34 universities and 374 private colleges.

THE CONSTITUTION*

(Promulgated February 8th, 1935; amended April 11th, 1940, and September 18th, 1946.)

The present Constitution states that the Philippines is a republic in which sovereignty is vested in the people. It contains provisions guaranteeing to all freedom of speech, of the press and of religion, the right of people to assemble peaceably and petition the Government for the redress of grievances, the right of *habeas corpus* which shall not be suspended except in cases of invasion, insurrection or rebellion; it states that no person shall be held to answer for a criminal offence without due process of law. All citizens over 21 years of age, able to read and write, may vote, subject to certain residential qualifications.

CONGRESS

Legislative power is vested in a Congress consisting of a Senate and a House of Representatives. The Senate is composed of 24 members who hold office for six years, one-third of whom is elected every two years; and the Lower House of not more than 120 members, who hold office for four years. Regular sessions of Congress may not last for more than 100 days, but special sessions, of not more than 30 days' duration, may be called at any time by the President to consider general legislation or matters specified by him.

The Congress provides for a Commission on Appointments consisting of 12 senators and 12 members of the House of Representatives chosen from the political parties represented in Congress. The Commission assists the President in appointing heads of executive departments and bureaux, superior officers of the army, diplomatic and consular representatives, and members of the Supreme and Lower Courts.

* A Constitutional Convention was called in June 1971 to draw up a revised constitution which is expected to be approved late in 1972.

THE EXECUTIVE

The President, who is elected by direct vote, holds office for four years and may not serve for more than eight consecutive years. In the event of his death or incapacity, his duties devolve on the Vice-President. He has control of all executive departments, supervises local governments, and sees that the laws are carried out. He is commander-in-chief of the armed forces, is responsible for maintaining order, and may in the event of civil disturbance or invasion suspend the writ of *habeas corpus* and place the whole or a part of the country under martial law. Congress alone has the power to declare war.

The President must submit within 15 days of the opening of each regular session of Congress a budget of receipts and expenditures. He has a limited veto, which may be over-ruled by a two-thirds vote in each House. He may, with the concurrence of two-thirds of the members of the Senate, make treaties with foreign powers.

THE JUDICIARY

The Supreme Court is composed of a Chief Justice and 10 associate justices, and may sit in plenary session, or in two divisions. Its members and the judges of interior courts hold office up to the age of 70, subject to their good conduct.

AMENDMENT OF THE CONSTITUTION

Congress assembled in joint session may, by the vote of three-quarters of all members of the Senate and the House of Representatives, voting separately, propose amendments to the Constitution, or call a convention for that purpose.

PORTUGUESE OVERSEAS PROVINCES

ANGOLA (Portuguese West Africa)

MOZAMBIQUE (Portuguese East Africa)

THE CAPE VERDE ISLANDS, PORTUGUESE GUINEA,

S. TOMÉ AND PRÍNCIPE, MACAO, PORTUGUESE TIMOR

INTRODUCTION

The Overseas Provinces are all administered under Statutes provided for in the Organic Law for Overseas Provinces of 1963. Each province is under the control of the Metropolis, but it is financially and administratively autonomous. The Budgets are organized and voted annually by the Legislative Councils of the Provinces, and no public loan may be contracted in a foreign country. A governor is appointed to each province by the President of Portugal. According to the 1963 Political and Administrative Statutes, the Legislative Council is formed by eleven elected members, with three nominated members (the Secretary-General, the Public Attorney and the Director of the Treasury and Financial Departments).

Courts of First Instance administer the Legal Code of Metropolitan Portugal. Cases may be finally referred to the Court of Second Instance and the Supreme Court in Lisbon.

In December 1970 the Portuguese Prime Minister, Dr. Caetano, announced changes in the status of Angola and Mozambique. They will have their own elected govern-

ment with legislative powers, the right to negotiate their own contracts and raise taxes, and the right to refuse admission into their territories of Portuguese nationals and foreigners.

In September 1971 the Portuguese Government postponed legislative elections in the Overseas Provinces because of the impending changes in their constitutions. In January 1972 a proposed Organic Law was published, renaming Angola and Mozambique "States" and giving each Overseas Province a legislative assembly, as well as an advisory council which will have more autonomy in administering internal Provincial affairs. Legislative assemblies will meet twice a year, but not for more than four months at a time. The Governor-General of each Province will be equivalent in status to a Minister of State anywhere in the Metropole or Overseas Provinces, and can be present at Cabinet meetings. The Portuguese National Assembly approved the Law on May 1st, 1972.

Minister for the Overseas Provinces: Prof. Dr. JOAQUIM MOREIRA DA SILVA CUNHA.

ANGOLA (PORTUGUESE WEST AFRICA)

Angola lies on the west coast of Africa between Zaire and South West Africa (Namibia), and is bordered by Zambia on the east. Since 1961, Portuguese forces have been fighting nationalist guerrillas on a large scale on several fronts (*see* Political Parties, p. 1232), and some 70,000 Portuguese troops are stationed in Angola.

THE CONSTITUTION

(See also Introduction, p. 1226.)

The province is under the control of the Metropole, though it has financial and administrative autonomy. The budget has to be approved by the Minister for the Overseas Provinces, and no public loan may be contracted in any foreign country. The Governor-General is appointed by the President of Portugal. There is a Legislative Council and an Economic and Social Council. The functions of the Legislative Council include the approval of the Provincial Budget, the supervision of the Province's economic development programme, and legislation, which may be initiated both by the Governor-General and by members of the Legislative Council. The Economic and Social Council advises the Governor-General in the exercise of his functions, and pronounces on all bills before they are debated in the Legislative Council.

By special decrees of February 1955 and April and October 1961, the Province was divided into 15 districts as follows: Cabinda, Uige, Zaire, Luanda, Cuanza Norte, Cuanza Sul, Malange, Lunda, Benguela, Huambo, Bié, Cuando Cubango, Moxico, Moçâmedes and Huila. Each district is again divided into regions supervised by an administrator who acts as the resident magistrate.

THE GOVERNMENT

Governor-General: Lt.-Col. CAMILO AUGUSTO DE MIRANDA REBOCHO VAZ.

Commander-in-Chief of Portuguese Armed Forces in Angola: Gen. COSTA GOMES.

Commander of Portuguese Army in Angola: Gen. ERNESTO MACHADO DE OLIVEIRA DE SOUSA.

Legislative Council. Composed of 34 elected members (15 elected by direct popular vote) and two ex-officio members (the Procurator of the Republic and the Director of the Provincial Finance and Accounts Services).

Economic and Social Council. Composed of eight elected members, four government appointments and six permanent members (the Commanders-in-Chief of the Armed Forces, the Principal of the University and the Directors of the services of Civil Administration, Economy and Education).

POLITICAL PARTIES

Ação Nacional Popular: Luanda; Portuguese government party, formerly União Nacional.

The following organizations have all been declared illegal by the Portuguese Government:

Conferência das Organizações Nacionais das Colónias Portuguesas (CONCP): 18 rue Dirah, Hydra, Algiers, Algeria; f. 1961; central organization for MPLA, Angola, FRELIMO, Mozambique, PAIGC, Guinea, CLSTP, São Tomé.

Frente Nacional de Libertação de Angola (FNLA) (Angolan National Liberation Front): Kinshasa, Zaire; f. 1962 by union of the *União das Populações de Angola* and the *Partido Democrático Angolano*; have set up a Government-in-exile (GRAE); Leader HOLDEN ROBERTO.

Movimento Popular de Libertação de Angola (MPLA) (Angola Popular Liberation Movement): P.O.B. 1959, Lusaka, Zambia; f. 1956; Pres. AGOSTINHO NETO.

Under its leader, Agostinho Neto, a doctor and poet, the MPLA is easily the most effective of the three guerrilla organizations operating in Angola. It was the first to begin an armed campaign against the Portuguese when it attacked police and government buildings in Luanda in February 1961 (the "cotton revolt" in Baixa de Cassange broke out at about the same time). Until 1963 the MPLA was hindered in its struggle by the UPA (see below), which also had its external base in Kinshasa but which, unlike the MPLA, had the backing of the Congo Government. In 1963 the MPLA moved its base to Brazzaville, where the government was more sympathetic, and began to prepare for a switch in its main area of guerrilla activity to the east of the country, away from the UPA- and Kongo-dominated areas. UPA actions against MPLA groups increased as the initiative passed to the latter organization from 1966 onwards, but were to little avail, although ambushes by the UPA on the MPLA continue to the present day.

The MPLA's campaign in eastern Angola opened in 1967. Part of its staff in Brazzaville was moved to Lusaka, and in 1968 into Angola itself, with Lusaka becoming the main external base. The movement has expanded since then, helped by the proximity of Zambia to the east, and by the absence of settlers in the east of Angola. Political and guerrilla training centres have been set up in this area and schools, clinics and a semblance of administration established. The centre of activity is Moxico, but significant inroads have also been made into Cuando-Cubango, Bié, Lunda, Malanje and parts of Cuanza Norte. The weakest foothold is in the enclave of Cabinda, where apart from UPA activity, there have always been strong separatist tendencies. The main strength of the MPLA is its appeal to Angolan nationalism, and not simply to an ethnically based nationalism. This was one of the reasons why the OAU in 1968 withdrew recognition of the GRAE/UPA and recognized the MPLA as the sole representative of the Angolan people. The major source of the MPLA's external aid is Eastern Europe and left-wing organizations in the West.

An MPLA spokesman in January 1971 claimed that the organization controlled 100,000 sq. km. of territory and 500,000 people.

União Nacional para e Independência Total de Angola (UNITA) (National Union for the Complete Independence of Angola): Headquarters in Bié province; f. 1966; Leader Dr. JONAS SAVIMBI.

UNITA was formed in 1966 in Moxico. Its leader, Jonas Savimbi, was once Minister of Foreign Affairs in the GRAE, and also had connections with the MPLA. UNITA's main appeal is to the Ovimbundu, and its major guerrilla actions have been against the Benguela railway. Following delays in transporting Zambia's copper exports, caused by UNITA sabotage to the railway, the Zambian Government expelled the organization from Lusaka in 1967. China has trained some of UNITA's fighters.

União das Populações de Angola (UPA): Kinshasa, Zaire; f. 1954 as *União das Populações do Norte de Angola*, present name taken 1958; formed *Frente Nacional de Libertação de Angola (FNLA)* with *Partido Democrático Angolano* in 1962, and set up government-in-exile (GRAE) later in year; Leader HOLDEN ROBERTO.

The UPA was the most active of the guerrilla movements until about 1965. It was responsible for the great Kongo uprising of March 1961, following which massacres by the government and settlers brought the total African dead to perhaps 50,000, as against probably less than 500 Portuguese fatalities. The movement's natural external base was Kinshasa, where many Baxikongo lived and where Holden Roberto, the UPA's leader was brought up. Following the suppression of the revolt later in 1961, dissensions began to appear in the movement, and an attempt was made to cover this up by forming with the very small *Partido Democrático Angolano* the *Frente Nacional de Libertação de Angola*. The establishment of this "National Front" in March 1962 enabled Roberto to proceed with the formation in the following month of a "government-in-exile" (*Governo Revolucionário de Angola no Exílio—GRAE*), which by 1963 had won the recognition not only of its host, the Congo (Kinshasa) Government, but also of the majority of African governments and the OAU. However, the GRAE, which has been aided by the U.S.A., has concentrated on diplomatic activity in Kinshasa and other capitals to the detriment of the war effort inside Angola, and the MPLA has replaced the UPA as the main guerrilla movement. OAU recognition was withdrawn in 1968; and more recently Mobutu's government in Kinshasa has been seeking a better relationship with Portugal. The GRAE/UPA is now more or less quiescent, with only occasional actions in the north of the country and attacks on MPLA and UNITA groups in Lunda and Moxico.

THE CONSTITUTION

(See also Introduction, p. 1237.)

The administration of Mozambique was established by Law 2066 of June 27th, 1953. Under this Law, the Governor-General, the highest authority, appointed by the Minister of the Overseas Provinces, is assisted by a Legislative Council and a Government Council (replaced in 1964 by an Economic and Social Council). In the Legislative

Council there are elected and nominated representatives of the industrial, commercial and agricultural interests of the country, religious and cultural associations, and municipalities. There are also representatives of the native population.

THE GOVERNMENT

Governor-General: Ing. MANUEL PIMENTEL DOS SANTOS.
Commander-in-Chief of Portuguese Armed Forces in Mozambique: Gen. KAULZA DE ARRIAGA.

Legislative Council. Composed of 27 elected members and two ex-officio members (The Procurator of the Republic and The Director of the Provincial Finance and Accounts Services).

Economic and Social Council. Set up in 1964 in place of the Government Council to assist the Governor-General in his executive and legislative functions.

POLITICAL PARTIES

Ação Nacional Popular: Lourenço Marques; Portuguese government party, formerly União Nacional.

The following organizations are illegal:

Frente de Libertação de Moçambique (FRELIMO) (*Mozambique Liberation Front*): P.O.B. 15274, Dar es Salaam, Tanzania; Pres. SAMORA MACHEL; Vice-Pres. MARCELINO DOS SANTOS.

FRELIMO was formed in 1962 by the merger of three existing nationalist parties. One was the earliest party to be formed among Mozambicans, the *União Democrática Nacional de Moçambique* (UDENAMO), founded in 1960. Another was the Mozambique African Nationalist Union (MANU), formed in 1961. Both these groups, like the third, the *União Africana de Moçambique Independente* (UNAMI), arose among migrant Mozambican workers in the neighbouring British colonies. The first President and Vice-President of FRELIMO were Dr. Eduardo Mondlane and Uria Simango. Dr. Mondlane had previously been on the UN Secretariat and a professor at Syracuse University.

FRELIMO launched its military campaign in September 1964, when small groups of guerrillas infiltrated into Mozambique from the north. Activity was confined at first mainly to Cabo Delgado and Niassa provinces, where it later claimed control of two-thirds of the territory. FRELIMO's second party congress was held in Niassa province in September 1968 and was attended by foreign observers. During 1969 FRELIMO devoted more attention to Tete province, where preparations for the building of the Cabora Bassa dam had begun. By 1971 the situation in the province had deteriorated so far that the Portuguese had imposed strict military rule and ordered all travellers to move only with military convoys.

During 1969 FRELIMO suffered internal troubles. In February Dr. Mondlane was killed by a parcel bomb in his office. In April a former leader of the movement and chief of the Makonde, Lazaro Kavan-dame, defected to the Portuguese, and other guerrillas followed. Then in November Uria Simango, one of the new three-man Presidential Council along with Marcelino dos Santos and Samora Machel, was expelled from the party. The Portuguese predicted a big breakthrough in their struggle against the freedom fighters. But, if anything, guerrilla activity increased in the summer and autumn of that year, and by the end of it even the Portuguese admitted to twice as many fatalities (134) as in the previous year and a drop in the number of guerrillas killed from 657 to 524.

The Portuguese now have at least 60,000 troops in Mozambique, with possibly another 40,000 trained and armed Africans. FRELIMO claims control of a fifth of the territory, where it has set up clinics, primary schools and agricultural production units.

Comissão Revolucionária de Moçambique (COREMO) (*Mozambique Revolutionary Commission*): Lusaka, Zambia; f. 1965 as fusion of three nationalist parties; Pres. Sec. PAULO GUMANE.

Mozambique Liberation Movement (MOLIMO): Dar es Salaam; f. 1970; splinter group of FRELIMO; Sec. Gen. HENRIQUES NYANKALE.

JUDICIAL SYSTEM

THE GOVERNMENT

Governor: Gen. ANTONIO SPINOLA.

POLITICAL PARTIES

Ação Nacional Popular: The Portuguese Government party, formerly União Nacional.

Partido Africano da Independência da Guiné e Cabo Verde (PAIGC) (*African Party for Independence in Guinea and Cape Verde*): B.P. 298, Conakry, Guinea (*illegal in Guinea Bissau*); Sec.-Gen. AMILCAR CABRAL.

The PAIGC is the most successful of the liberation movements in Portuguese-controlled Africa. It was formed in 1956 by Amilcar Cabral and Raphael Barbosa (who was arrested by the Portuguese in 1962 and later forced to disown the PAIGC). After Portuguese police had killed about 50 striking dockers at Pidgiguiti in August 1959, the PAIGC decided to engage in all-out struggle to achieve their aim of winning freedom for Guinea and Cape Verde as a single independent state.

In 1960 Cabral established himself in Conakry and the party started training in the Republic. The party machinery was slowly built up until in mid-1962 a campaign of sabotage against the Portuguese could begin. In 1963 full-scale attacks began on Portuguese army installations and on towns. By 1971, despite the presence of up to 50,000 Portuguese troops, the PAIGC controlled some two-thirds of the territory, with the Portuguese and their supporters confined mainly to fortified garrisons and villages. The PAIGC have placed great emphasis on improving the quality of life of the people, and schools and hospitals have been set up in the liberated areas, as well as citizens' committees.

In November 1970 a force directed by Portuguese invaded Conakry in the neighbouring Republic of Guinea and destroyed the PAIGC offices there.

Frente para a Libertação e Independência da Guiné (FLING) (*National Independence Front*): Consists of *Mouvement de libération de la Guinée dite portugaise (MLG)* led by FRANÇOISE MENDY, and *Union des populations de Guinée dite portugaise (UPG)*, leader BENJAMIN PINTO-BULL; based on Dakar, Senegal (*illegal in Guinea Bissau*).

TRADE AND INDUSTRY

Fishing has always been one of the most important occupations of the Chinese community. In spite of reduced activity in recent years, fisheries (fresh, salted and shell fish) still contribute some 15 per cent of Macao's exports, as well as satisfying local demand. Other industries include textile manufacture, firecrackers, incense sticks, Chinese wines, cigarettes, footwear, matches, plastic wares, camphor and teakwood chests and porcelain, and almost all these commodities are exported. Firecrackers go almost entirely to the U.S.A. There are ten large firecracker factories in operation. The making of matches, another old-established industry, employs 1,400 workers in five factories. Angola and Mozambique import quantities of Macao manufactured goods and other markets are being actively developed.

PUERTO RICO

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The island of Puerto Rico lies 50 miles east of Hispaniola (Haiti and the Dominican Republic) in the outer Caribbean. The climate is maritime-tropical with temperatures ranging from 63°F (17°C) to 96°F (36°C). The official language is Spanish and English is widely spoken. Eighty-five per cent of the population is Roman Catholic, the remainder belonging to Protestant denominations. The flag consists of five alternating red and white horizontal stripes, with a blue triangle containing a white star next to the staff. The capital is San Juan.

Recent History

Puerto Rico was a Spanish colony for 400 years until 1898 when, by the Treaty of Paris ending the Spanish-American War, it was ceded to the U.S.A. American citizenship was granted in 1917 and in 1947 Puerto Rico was given the right to elect its own Governor. In 1952 a Constitution was promulgated by which the island attained the status of a self-governing "Commonwealth" associated with the United States. In a plebiscite on July 23, 1967, 60.5 per cent of voters ratified a continuation of Commonwealth status in preference to independence (0.6 per cent) or incorporation as a State of the United States (39 per cent). Emigration to the United States, once at a high rate in the 1940's and 1950's, has now almost ceased. In the general elections of November 1968 the Popular Democratic Party, which had been in power since 1941 without interruption, lost the governorship and control of the House of Representatives to the New Progressive Party, but retained control of the Senate and 48 of the 76 municipalities. The Constitution was amended by a referendum in 1970 to reduce the minimum voting age to 18 years.

Government

Executive power is vested in a Governor, elected for a four-year term, and a Cabinet of ten Secretaries. The Legislature is the bi-cameral Legislative Assembly consisting of the Senate of 27 members and the House of Representatives of 51 members elected for four-year terms. A Resident Commissioner, elected for a four-year term, represents Puerto Rico in the U.S. House of Representatives. Puerto Ricans are citizens of the United States with civil but not political rights. The United States Government is responsible for the island's foreign policy.

Defence

Defence is the responsibility of the United States and Puerto Ricans are liable for U.S. military service.

Economic Affairs

An intensive government-sponsored programme of industrialization has changed the country's economy from an agricultural to a mixed one. The main crops are sugar, tobacco and coffee. Industry now provides a greater income than agriculture and includes cigars, alcohol, chemicals, food-processing and household appliances. The United States provides the principal market for Puerto Rican

imports and exports. In 1969-70, the net income amounted to \$3,820.6 million and per capita income was \$1,427; the net income has been increasing consistently at a rate of about 10 per cent during the last decade. Tourism is an important source of revenue.

Transport and Communications

There are no railways on Puerto Rico. Roads total over 6,000 miles. There are ten ports, the chief ones being San Juan, Ponce and Mayagüez. Internal and international air services are provided by over thirty local American and foreign lines.

Social Welfare

Puerto Rico is included in the U.S. social security programme and also has a system of its own covering health, accident, disability and unemployment. About thirty per cent of the budget is devoted to social welfare and public health.

Education

The public education system is centrally administered by the Department of Education. Education is compulsory from the age of six to sixteen. In academic year 1969-70 there were 2,220 public day schools with a total enrollment of 680,500 pupils and 254 private schools with 91,858 pupils. The 12-year curriculum is subdivided into six grades of elementary school, three years junior high school and three years senior high school. Vocational schools at the high school level and kindergartens also form part of the public education system. Instruction is conducted in Spanish but English is a required subject at all levels. The Department of Education operates an island-wide radio and television educational network. About thirty-three per cent of the annual budget is devoted to education.

Public higher education policy is formulated by the Council on Higher Education which appoints the President of the University of Puerto Rico and Chancellors for the principal campuses. The State University system consists of four principal campuses and four regional colleges with a combined enrolment of 43,609 students. There are two principal private universities—the Catholic University in Ponce and the Inter-American University in San German—and two colleges, with a combined enrolment of 26,848 students.

Tourism

There has been a sharp increase in tourism in recent years and it now forms a major source of income (\$235.4 million in 1970). Attractions include the mountain scenery in the interior and fine beaches and game fishing in coastal waters. In 1970 there were 43 tourist hotels with a total of 7,219 rooms, and 41 tourist guest houses with 478 rooms.

United States laws and regulations apply to foreign visitors to Puerto Rico.

Sport

Baseball, basketball, boxing and cockfighting are the most popular sports.

THE CONSTITUTION

On July 3rd, 1950, the United States Congress adopted an Act (Public Law No. 600) which was to allow "the people of Puerto Rico to organise a government pursuant to a constitution of their own adoption". This Act was submitted to the voters of Puerto Rico in a referendum and was accepted in the summer of 1951. A new Constitution was drafted in which Puerto Rico was styled as a commonwealth, or *estado libre asociado*, "a state which is free of superior authority in the management of its own local affairs", though it remained in association with the United States. This Constitution, with its amendments and resolutions, was ratified by the people of Puerto Rico on March 3rd, 1952, and by the Congress of the United States on July 3rd, 1952; and the Commonwealth of Puerto Rico was established on July 25th, 1952.

Under the terms of the political and economic union between the United States and Puerto Rico, United States citizens in Puerto Rico enjoy the same privileges and immunities as if Puerto Rico were a member state of the Union. Puerto Rican citizens are citizens of the United States and may freely enter and leave that country.

The Congress of the United States has no control of, and may not intervene in, the internal affairs of Puerto Rico. The United States Government is, however, responsible for the defence and the foreign policy of the island.

Puerto Rico is exempted from the tax laws of the United States. While it has no representation in the United States Congress, the Puerto Rican Resident Commissioner to the United States, elected for a four-year term, enjoys the privileges of membership, without voting, of the House of Representatives of the United States Congress.

There are no customs duties between the United States and Puerto Rico. Foreign products entering Puerto Rico—with the single exception of coffee, which is subject to customs duty in Puerto Rico, but not in the United States—pay the same customs duties as would be paid on their entry into the United States.

The United States social security system is extended to Puerto Rico except for unemployment insurance provisions. Laws providing for economic co-operation between the Federal Government and the States of the Union for the construction of roads, schools, public health services and similar purposes are extended to Puerto Rico. Such joint programmes are administered by the Commonwealth Government.

Amendments to the Constitution are not subject to approval by the U.S. Congress, provided that they are consistent with the U.S. Federal Constitution, the Federal Relations Act defining federal relations with Puerto Rico, and Public Law No. 600. Subject to these limitations, the Constitution may be amended by a two-thirds vote of the Puerto Rican Legislature and by the subsequent majority approval of the electorate.

The Constitution starts with a definition of democracy and continues with a Bill of Rights.

BILL OF RIGHTS

No discrimination shall be made on account of race, colour, sex, birth, social origin or condition, or political

or religious ideas. Suffrage shall be direct, equal and universal for all over the age of 18. Public property and funds shall not be used to support schools other than State schools. The death penalty shall not exist. The rights of the individual, of the family and of property are guaranteed. The Constitution establishes trial by jury in all cases of felony, as well as the right of *habeas corpus*. Every person is to receive free elementary and secondary education. Social protection is to be afforded to the old, the disabled, the sick and the unemployed.

THE LEGISLATIVE POWER

The Legislative Assembly consists of two houses, whose members are elected by direct vote for a four-year term. The Senate is composed of 27 members, the House of Representatives of 51 members. Senators must be over 30 years of age, and representatives over 25 years of age. The Constitution guarantees the minority parties a representation in the Legislature, which may fluctuate from a quarter to a third of the seats in each house.

The Senate elects a President and the House of Representatives a Speaker from their respective members. The sessions of each house are public. A majority of the total number of members of each house constitutes a quorum. Either house can initiate legislation, though Bills for raising revenue must originate in the House of Representatives. Once passed by both Houses, a Bill is submitted to the Governor, who can either sign it into law or return it, with his reasons for refusal, within ten days. If it is returned, the Houses may pass it again by a two-thirds majority, in which case the Governor must accept it.

The House of Representatives, or the Senate, can impeach one of its members for treason, bribery, other felonies and "misdemeanours involving moral turpitude". A two-thirds majority is necessary before an indictment may be brought. The cases are tried by the Senate. If a representative or senator is declared guilty, he is deprived of his office and becomes punishable by law.

THE EXECUTIVE

The Governor, who must be at least 35 years of age, is elected by direct suffrage and serves for four years. He is responsible for the execution of laws, is commander-in-chief of the militia, and has the power to proclaim martial law. At the beginning of every regular session of the assembly, in January, he presents a report on the state of the treasury, and on proposed expenditure. To assist him, the Governor chooses his Secretaries of Departments, subject to the approval of the Legislative Assembly. These are led by the Secretary of State, who replaces the Governor at need.

LOCAL GOVERNMENT

The island is divided into 78 municipal districts for the purposes of local administration. The municipalities comprise not only urban areas but also the surrounding neighbourhood. They are governed by a mayor and a municipal assembly, both elected for a four-year term.

However, radio and television are well organized, maintaining mainland U.S. standards, and offer a popular alternative. Like the broadcasting media, Puerto Rican newspapers utilize the Audit Bureau of Circulation, New York advertising agencies, and the U.S. postal service. Several newspapers have large additional readerships in New York, amongst the immigrant communities.

TRANSPORT AND TOURISM

TRANSPORT

RAILWAYS

There are no railways in Puerto Rico.

ROADS

Paved roads totalled about 6,357 miles in 1970. A modern highway system links all cities and towns along the coast and cross-country. In response to the demand for road expansion due to industrial growth, the Highways Authority was created in 1965 to design and build roads, highways and bridges. The annual investment in 1971-72 was \$130m.

SHIPPING

There are ten ports in the island, the principal ones being San Juan, Ponce and Mayagüez. San Juan, one of the finest and longest all-weather natural harbours in the Caribbean, is the principal port of entry for foodstuffs and raw materials and for shipping finished industrial

products. Sugar is shipped in bulk mostly through special piers located near production sites. Ocean passenger traffic is limited to tourist cruises since most travel to and from Puerto Rico is made by air.

The Puerto Rico Ports Authority regulates maintenance and use of port facilities, both governmental and private.

QATAR

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Capital

The Sheikdom of Qatar occupies a peninsula on the west coast of the Arabian Gulf. The climate is exceptionally hot and humid in the summer and mild in the winter. Rainfall is negligible. The official language is Arabic, though English is spoken in business circles. All the inhabitants are Wahabi Muslims. The capital is Doha.

Recent History

Qatar became an independent, sovereign state on September 1st, 1971 after being protected since 1916 by treaties and agreements with Britain. In February 1972 the Prime Minister, Sheikh Khalifa bin Hamad al Thani, deposed his cousin the Amir, Sheikh Ahmad, in a bloodless *coup d'état*, and carried out immediate social and economic reforms.

Government

A new provisional constitution came into effect in July 1970. Executive power resides in the Cabinet, which also appoints three members of the Consultative Assembly, the remaining members being elected.

Economic Affairs

There is a small amount of market gardening near Doha

on the coast, but otherwise Qatar's only economic activity is the oil industry. The Qatar Petroleum Company, the original and still the largest producer, produced 10,385,000 long tons in 1971. Oil revenues are expected to reach some £70 million in the current year, though less than a third of this amount is to be utilized for revenue in the published state budget for 1972.

Public Holidays

1972: April 26 (Mouloud), November 8 (Id ul Fitr).

1973: January 17th (Id ul Adha), February 6 (Muslim New Year), February 15 (Ashoura).

Weights and Measures

The imperial, metric and local systems are all in use.

Currency and Exchange Rates

The unit of currency is the Qatar/Dubai ryal, divided into 100 dirhams.

Coins: 1, 5, 10, 25 and 50 dirhams.

Notes: 1, 5, 10, 25, 50 and 100 ryals.

Exchange rate: 11.45 Q/D ryals=£1 sterling

4.41 Q/D ryals=U.S. \$1.

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Rhodesia lies in south-central Africa with Mozambique to the east, Zambia to the north-west, Botswana to the south-west and South Africa to the south. Climate is tropical, modified considerably by altitude. The official language is English; the African peoples speak Bantu languages. About 20 per cent of the population are Christian. Of the European and Coloured population, 33 per cent are Anglican, 11 per cent Presbyterian, 15 per cent Roman Catholic, 9 per cent Dutch Reform and 9 per cent Methodist. Most of the Africans follow traditional beliefs, while the Asians are almost equally Muslim or Hindu. The official flag is an ensign with a sky blue background, with the Union Jack in the top left corner and the Rhodesia badge, consisting of a green shield with a gold pick and a red lion between two thistles. In November 1968 the Smith régime adopted a green and white striped flag with the Rhodesian coat of arms on the central white stripe. The capital is Salisbury.

Recent History

The Shona and Ndebele peoples of Southern Rhodesia resisted the incursions of white settlers from the British South Africa Company until 1897 but were unable to prevent the steady growth in power of the European minority which culminated in the British government's concession of self-government in 1923. African nationalism was stimulated by the Rhodesian Bantu Voters' Association, the Industrial and Commercial Workers' Union, the Congress and other movements, and a mass nationalist movement emerged with the formation of the National Democratic Party in 1960. Its successor, the Zimbabwe African Peoples' Union, later split and the Zimbabwe African National Union was formed under Ndabagingi Sithole (now in prison) in opposition to Z.A.P.U., which continued under the leadership of Joshua Nkomo (also in prison).

The British government and the white settlers grouped Southern and Northern Rhodesia and Nyasaland into the Central African Federation in 1953, but the Federation broke up in 1963 in the face of successful nationalist movements in Northern Rhodesia and Nyasaland, which achieved independence as Zambia and Malawi in 1964. The 1961 Constitution, drawn up for Southern Rhodesia by the British and white settler governments, provided for ultimate majority rule. In order to prevent such an eventuality the government of Prime Minister Ian Smith, on November 11th, 1965, unilaterally declared Rhodesia independent of the British Crown. Britain terminated all trading and other relations with Rhodesia, while the UN applied economic sanctions against the régime. However, through the evasion of sanctions by certain countries, the assistance of South Africa and Portugal and the diversification of the economy, the Smith régime was able to maintain itself in power. Z.A.P.U., in alliance with the African National Congress of South Africa, and Z.A.N.U. separately took up arms against the régime, but the only major engagement

of the ensuing guerrilla warfare was fought in August 1967 near the Wankie Reserve. South African troops were called in to assist Rhodesian forces, and Rhodesia is still governed under a permanent state of emergency.

In June 1969 the Rhodesian electorate gave their approval to the Smith régime's constitutional proposals and to the declaration of a republic; the necessary constitutional legislation was enacted in November 1969. A republic was declared on March 2nd, 1970, and the first elections under the new constitution were held in April 1970, when the Rhodesian Front won all 50 seats on the European roll.

All attempts at settlement between the British government and the Smith régime failed until November 1971, when the British Foreign Secretary, Sir Alec Douglas-Home, and Lord Goodman met Ian Smith in Salisbury and agreed on a plan for settlement. The constitutional proposals embodied in the plan are based on an amended form of the Smith régime's 1969 republican constitution, and their implementation is dependent on acceptance by the Rhodesian people as a whole. The opinions of Rhodesians on the proposals was tested between January and March 1972 by a commission, appointed by the British government and chaired by Lord Pearce. The results of this test were not known at the time of going to press, but most observers predicted that they would show rejection of the settlement terms.

It had been agreed between the British government and the Smith régime that normal political activity should be permitted in Rhodesia while the Pearce commission was at work there. However, both the African opposition and the white régime claimed intimidation by the other side and during that time over 1,000 people were arrested according to Smith's estimate. Notable opponents of the settlement proposals, like former premier, Garfield Todd, and his daughter, and Josiah Chinamano and his wife, were all detained in solitary confinement without charge. Several strikes by African workers and riots also occurred, during which some 30 Africans were shot dead by the police. African opposition to the Home-Smith terms was channelled into an effective political movement by an *ad hoc* organization, the African National Council (ANC), headed by Bishop Abel Muzorewa and other churchmen. In March 1972 the ANC constituted itself as a proper political party.

Government

According to the 1961 Constitution of Southern Rhodesia, Rhodesia is constitutionally self-governing within the British Commonwealth, with a Governor as representative of H.M. Queen Elizabeth, the Head of State. Following the unilateral declaration of independence (U.D.I.) by the Smith Government in Rhodesia on November 11th, 1965, the British Parliament passed the Southern Rhodesia Act reasserting the previous relationship between the U.K. and Rhodesia; declaring void any constitution promulgated by the régime in Salisbury; prohibiting the Legislative Assem-

bly from functioning; and empowering the Governor and a Secretary of State to exercise the executive authority of Rhodesia on the Queen's behalf. However, the Governor, Sir Humphrey Gibbs, resigned in June 1969. At the time of U.D.I. the Legislative Assembly comprised 65 members, 50 elected on a predominantly white roll of voters and 15 on a predominantly black roll.

Since November 1965 the Smith régime has made a number of constitutional changes culminating in the republican constitution which is now in force. Under this there is a President, a 23-man Senate and an Assembly of 66 members. Fifty of these are Europeans elected on a European roll, eight are Africans elected on an African roll and another eight Africans are chosen by electoral colleges of chiefs, headmen and other government-paid officials.

Under the settlement terms agreed between the British government and Smith régime in November 1971, the essentials of the 1969 constitution would be retained, but the number of African seats would increase as more Africans attain voting qualifications. Eventually Africans could obtain a majority of seats in the Assembly.

A state of emergency has existed since November 1965 and powerful security legislation remains in force.

Defence

The strength of the army is estimated at 3,400, of the air force 1,200, and of the reserves 4,000. The paramilitary British South African Police number over 6,000 with a further 28,000 in reserve. The Rhodesian forces have high standards of equipment, mobility and training.

Economic Affairs

Rhodesia's minerals include notably gold, asbestos, coal and chrome, but copper and other minerals are mined. Wankie colliery is the largest coal-mine in the world. Manufactures now surpass mining in importance, particularly food processing, metals, engineering and textiles. Tea, maize, potatoes and sugar are the main crops apart from tobacco, which has been severely affected by UN sanctions, and there is much stock-raising. Maize, groundnuts, cotton and Oriental tobacco are the chief crops grown by African farmers, who have exclusive rights to half the land area of Rhodesia. The dam on Lake Kariba provides most of the country's electricity. Trade between Britain and Rhodesia has ceased since the declaration of independence, and trade with many other countries has been restricted. This has led to considerable diversification of the Rhodesian economy and an energetic search for new outlets.

Transport and Communications

Good rail services link Salisbury with South African and Portuguese ports, particularly Beira and Lourenço Marques in Mozambique, and with Lusaka and other towns to the north and west. Major trunk roads are likewise of high standard. International and domestic air services connect

most of the larger towns. There are also numerous charter and private aircraft used by mining companies, farmers and others.

Social Welfare

There is no statutory provision for social security, though government and industrial schemes exist. The Social Welfare Department deals with child welfare and delinquency for all races. For Europeans, the Department also deals with marriage guidance, alcoholics, care of the aged, and relief of distress.

Education

Estimated expenditure for 1969-70 for African education was R\$17.6m., for non-African R\$15.3m. There were 710,145 African students in 1969 and 64,478 non-Africans. The University College of Rhodesia at Salisbury provides multi-racial higher education.

Tourism

The principal tourist attractions are the Victoria Falls, the Kariba Dam and the Wankie Game Reserve and National Park. Zimbabwe Ruins near Fort Victoria and World's View in the Matopos Hills are of special interest. In the Eastern Districts around Umtali there is trout fishing and climbing. Safaris and game-watching holidays can be arranged.

Sport

The climate is suitable for almost every form of sport. Football, cricket, tennis, golf, baseball, swimming, athletics and horse-racing are catered for, and gliding, yachting, camping and game hunting are also popular.

Public Holidays

1972: May 22 (Whit Monday), July 13-14 (Rhodes' and Founders' Day), September 12 (Pioneers' Day), November 11 (Independence Day), December 25 and 26 (Christmas).

1973: January 1 (New Year's Day), April 20-23 (Easter).

Weights and Measures

The Imperial system is in use.

Currency and Exchange Rates

The unit of currency is the Rhodesian dollar (R\$), which is divided into 100 cents.

In July 1967 the Rhodesian Reserve Bank began issuing its own locally-printed notes, which Britain does not recognize as legal tender. Rhodesia did not devalue with sterling in November 1967.

Notes: \$1, \$2, \$10.

Coins: Bronze $\frac{1}{2}$ c., 1c.; cupronickel $2\frac{1}{2}$ c., 5c., 10c., 20c., 25c.

Unofficial Exchange Rate: R\$1 = £0.58 Sterling
R\$1 = U.S. \$1.40.

THE CONSTITUTION

CONSTITUTIONAL DEVELOPMENT

THE Shona and Ndebele peoples of the area which is now Rhodesia first had to contend with European encroachment on their land in the late 1880s. The British South Africa Company was granted a Royal Charter in 1889 for the purpose of promoting trade, commerce, civilization and good government in the region occupied by the Shona and Ndebele. However, following the founding of Salisbury in 1890 by a group of white settlers organized by Cecil Rhodes, resentment at the intrusion of Europeans increased among Africans and open resistance began in 1893. Only after the great uprisings of 1896-97 was this resistance finally broken. The British South Africa Company continued to administer the colony until 1923, when the colony became self-governing under the United Kingdom after the settlers had decided against entering the Union of South Africa.

The 1923 Constitution

The 1923 Constitution granted the Colony full self-government, except that legislation affecting African interests, the Rhodesia railways and certain other matters were reserved to the British Secretary of State. These reservations fell away in time so far as internal affairs were concerned, excepting those which concerned differential legislation affecting the African population. Formal international relations were conducted for Southern Rhodesia by the British government. Other external relations were the responsibility of the colonial government.

Federation

In September 1953 the Federation of Rhodesia and Nyasaland, linking Northern and Southern Rhodesia with Nyasaland, came into existence. Under the Federal Constitution, approved by the minority electorate in Southern Rhodesia and by the Legislative Councils in the other two territories, responsibility for defence, the regulation of commerce and industry, immigration, health, European education and European agriculture was transferred from the Government of Southern Rhodesia to the Federal Government. African affairs, internal security, industrial relations and certain other matters remained in the hands of the Southern Rhodesian Government.

The 1961 Constitution

In 1959 the Southern Rhodesian Government proposed that the Constitution of Southern Rhodesia should be revised, with a view to transferring to Southern Rhodesia the exercise of the powers vested in the British Government. Following consultations between the two Governments an Order in Council embodying a new constitution was made on December 6th, 1961. This eliminated all the reserved powers save for certain matters of a somewhat formal nature, to which reference is made under the next heading. It also conferred on Southern Rhodesia wide powers for the amendment of her own Constitution and contained a number of important additional features such as a Declaration of Rights and the creation of a Constitutional Council designed to give confidence to all the peoples of Southern Rhodesia that their legitimate interest would be safeguarded.

Dissolution of the Federation

Following the dissolution of the Federation of Rhodesia and Nyasaland in December 1963 the Southern Rhodesian Government resumed the powers which had been transferred to the Federal Government in 1953.

In 1964, it was agreed between the British and Southern Rhodesian Governments that the term "Colony" should be dropped and that henceforward the country should be referred to as "Southern Rhodesia". In October 1964, following the independence of Zambia (Northern Rhodesia), the Southern Rhodesia Government dropped the prefix "Southern". Rhodesia is fully self-governing in respect of its internal affairs, but because it does not yet enjoy sole responsibility for its international relations it cannot be regarded as an independent sovereign state.

Unilateral Declaration of Independence (U.D.I.)

On November 11th, 1965, the Smith Government, elected by the almost exclusively white electorate, unilaterally declared Rhodesia independent of the British Crown. The Queen, acting through her representative the Governor, dismissed the Government of Rhodesia, and the British Parliament passed the Southern Rhodesia Act, which declares that Southern Rhodesia (the legal name of the country now, although "Rhodesia" remains in common usage) continues to be part of Her Majesty's dominions and that the Government and Parliament of the United Kingdom continue to have responsibility and jurisdiction for and in respect of it. The Southern Rhodesia Constitution Order 1965 which was made under this Act declares that any constitution which the regime in Rhodesia may purport to promulgate is void and of no effect. The Order also prohibits the Legislative Assembly from making laws or transacting any other business and declares any proceedings in defiance of this prohibition void and of no effect. It also suspends the ministerial system, empowers the Governor to exercise his functions without seeking ministerial advice and empowers a Secretary of State as well as the Governor to exercise the executive authority of Rhodesia on Her Majesty's behalf.

The Five (Six) Principles

Successive British Tory Governments have been guided in their approach towards the problem of granting Rhodesia independence by five principles (the 1964-70 Labour Government also recognized a sixth):

1. The principle and intention of unimpeded progress to majority rule, already enshrined in the 1961 Constitution, would have to be maintained and guaranteed.
2. There would also have to be guarantees against retrogressive amendment of the Constitution.
3. There would have to be immediate improvement in the political status of the African population.
4. There would have to be progress towards ending racial discrimination.
5. The British Government would need to be satisfied that any basis proposed for independence was acceptable to the people of Rhodesia as a whole.
6. It would be necessary to ensure that, regardless of race, there was no oppression of majority by minority or of minority by majority.

PROVISIONS OF 1961 CONSTITUTION

The Cabinet and Legislative Assembly

The Cabinet consists of twelve ministers including the Prime Minister. In addition there are a number of parliamentary secretaries.

The Legislature consists of 65 members, 15 of whom are elected on a lower roll, from 15 electoral districts. Fifty are elected on an upper roll from constituencies. Members are all elected for a period of five years.

There will be no power of disallowance by the Sovereign of an Act passed by the Legislative Assembly except in the case of an Act which:

- (a) is inconsistent with any international obligations imposed on the Sovereign in relation to Southern Rhodesia; or
- (b) alters to the injury of the stockholders or departs from the original contract in respect of any stock issued under the Colonial Stock Acts by the Southern Rhodesia Government on the London market.

Such laws may be disallowed within six months of their being passed.

Constitutional Safeguards

With the introduction of the new constitution in November, 1962, the right of the British Government to veto changes in the constitution has been replaced by safeguards entrenched in the new constitution. The British Government will retain power for amendments affecting the position of the Sovereign and the Governor, international obligations and undertakings by the Southern Rhodesia Government affecting loans. The Legislature has power to alter the constitution by two thirds majority of the total members of Parliament. The specially entrenched sections of the constitution can only be amended by a two thirds majority of the legislature's total membership in addition to a majority vote cast in a referendum of each of the four principal racial groups (namely European, African, Asian and Coloured), or after the Queen has assented to the amendment.

The specially entrenched sections are those relating to the Declaration of Rights, Appeals to the Privy Council, the Constitutional Council, the Judiciary, increasing franchise qualifications, securing Civil Service pensions and the Boards of Trustees of Tribal Trust Land, their powers and terms of trust. In addition, if any racial limitation on the ownership or occupation of land is more restrictive than that existing on the day prior to the introduction of the new constitution, it will be treated as an entrenched section.

The Constitutional Council

Composition

The Constitutional Council consists of a Chairman and eleven members, which must include two Europeans, two Africans, one Asian, one Coloured, and two persons who are either advocates or attorneys of not less than 10 years' standing. The chairman is appointed by the Governor on the advice of the Chief Justice. The members are appointed by an electoral college which includes the Chief Justice and puisne judges of the High Court and the President of the Council of Chiefs.

Qualifications

Members must be, *inter alia*, over thirty-five years of age, Southern Rhodesian citizens and resident in the country for ten of the previous fifteen years.

Functions

The Constitutional Council reports to the Governor and the Speaker of the Legislature on all Bills (except money Bills) passed by the Legislature and informs them whether the Bill conflicts with the provisions of the Declaration of Rights. This is done within 30 days after the passing of the Bill, unless an extension of time is granted. In the event of there being a conflict with the Declaration of Rights the Bill may only be presented to the Governor for assent after a two thirds majority vote in the legislature, or after a simple majority vote together with a delay of six months.

The Declaration of Rights

An entrenched section of the Constitution, this sets out the fundamental rights and freedoms to be enjoyed by the

people of Southern Rhodesia. Such rights apply without distinction to race, colour or creed. They afford protection from infringement by the Legislature, Executive, corporate bodies or private persons. The courts will enforce the rights and there is an ultimate appeal to the Judicial Committee of the Privy Council.

The Franchise

Voters must be citizens of Southern Rhodesia, over twenty-one years of age, with two years continuous residence in the country and three months residence in the constituency or electoral district immediately preceding application for enrolment. Voters must be able to complete the application for a voter's form, unassisted and in English. Additional qualifications are:

"A" Roll

(a) Income of £792 during each of two years preceding date of claim for enrolment or ownership of immovable property of value £1,650 or (b) (i) Income of £528 during each of two years preceding date of claim for enrolment, or ownership of immovable property of value of £1,100; and (ii) completion of a course of primary education of prescribed standard or (c) (i) Income of £330 during each of two years preceding date of claim for enrolment, or ownership of immovable property of value of £550; and (ii) four years secondary education of prescribed standard or (d) Appointment to the office of Chief or Headman.

"B" Roll

(a) Income at the rate of £264 per annum during the six months preceding date of claim for enrolment or ownership of immovable property of value £495 or (b) (i) Income at the rate of £132 per annum during the six months preceding date of claim for enrolment, or ownership of immovable property of value of £275; and (ii) two years secondary education, or (c) Persons over thirty years of age with: (i) Income at the rate of £132 per annum during the six months preceding date of claim for enrolment or ownership of immovable property of value of £275; and (ii) completion of a course of primary education of a prescribed standard or (d) Persons over thirty years of age with income at the rate of £198 per annum during the six months preceding the date of claim for enrolment; or ownership of immovable property of value £385 or (e) All kraal heads with a following of 20 or more heads of families or (f) Ministers of Religion.

There is no limit to the number of persons who can register but in elections in constituencies "B" Roll votes will not count for more than 25 per cent of the "A" Roll votes cast, and vice versa in electoral districts.

Where there are three or more candidates standing for election in any constituency or electoral district, a voter may use a preference vote for the candidate of his second choice. In the event of the candidate polling the most number of votes but not getting an overall majority, the bottom candidate drops out and the preference votes on his ballot papers are added to the remaining candidates.

Tribal Trust Land

The Native Reserves and the Special Native Area, which existed prior to the bringing into operation of the new Constitution have now been placed in one category described as "Tribal Trust Land". This land, which is reserved in the Constitution for occupation by tribes on a basis of communal tenure, comprises some 40 million acres out of a total land area of 96 million acres. The land is vested in a Board of Trustees, which is a corporate body with perpetual succession and power to sue and to be sued. The Board cannot be abolished nor can its powers be diminished, nor can the terms of its Trust be varied unless the Bill designed to accomplish any of these objectives obtains a two thirds majority in Parliament, and is agreed to by each of the four principal racial communities.

REPUBLICAN CONSTITUTION

(November 1969)

In a referendum held on June 20th, 1969, the constitutional proposals of the Rhodesian Front were approved by 54,724 votes to 20,776. At the same time the predominantly white electorate also approved the proposal to declare Rhodesia a republic by 61,130 to 14,327 votes. The relevant constitutional legislation giving effect to these proposals received the necessary two-thirds majority in the Legislative Assembly in November 1969: this legislation consisted of the Constitution of Rhodesia Bill, the Electoral Bill, the Land Tenure Bill and the High Courts (Amendments) Bill. The Constitutional Bill was signed by the Officer Administering the Government on November 29th, 1969, but did not come into operation until after the first general election under the new constitutional and electoral arrangements in April 1970.

PROVISIONS OF THE
REPUBLICAN CONSTITUTION

There is a President in and over Rhodesia, who is Commander-in-Chief of the Armed Forces of Rhodesia. The term of office is five years, and a second term is permissible but not a third.

Legislative power is vested in a legislature consisting of the President and Parliament, and Parliament consists of a Senate and a House of Assembly.

The Senate comprises 23 members, ten Europeans elected by the European members of the House of Assembly, and ten African chiefs, elected by an electoral college consisting of members of the Council of Chiefs. Five of these African Senators shall be chiefs in Matabeleland and five chiefs in Mashonaland.

The remaining three Senators are appointed by the President.

The House of Assembly initially consists of 66 members, 50 Europeans, elected by voters on the European roll, and 16 African members. Half of these, four from Mashonaland and four from Matabeleland, are elected by Africans on an African voters roll, the other half, again drawn equally from Matabeleland and Mashonaland are elected by electoral colleges made up from African chiefs, headmen and councillors from African councils.

When the aggregate of income tax assessed on the income of Africans exceeds sixteen sixty-sixths of that assessed on the income of Europeans and Africans then the number of African members in the House of Assembly will increase in proportion but only until the number of African members equals that of the European members.

To advise the President there is an Executive Council, consisting of the Prime Minister and other such persons, being Ministers as the President, on the advice of the Prime Minister may appoint.

The President appoints as Prime Minister the person, who, in his opinion, is best able to command the support of a majority of the members of the House of Assembly

and acting on the advice of the Prime Minister, he appoints other Ministers.

OTHER PROVISIONS

Under the terms of the Constitutional Amendment Act of 1966, whose main provisions still remain in force, the Rhodesian Government is given power to detain or restrict individuals in the interests of defence, public safety or public order, without recourse to proclamation of a state of emergency. These powers are held not to contravene the human rights explicitly protected under the 1961 Constitution. Persons detained in special centres may be obliged to perform tasks of forced labour. Other powers granted under the Act include the enablement to control and regulate publication of information about restricted persons and detention camps, the ability to detain individuals without a special order, pending consideration of the issue of such an order, and the ability to acquire property in satisfaction of any tax, rate or due. The widening of the powers of the tribal courts is a further feature of the new Act. Customary law is made applicable to all Africans in Rhodesia, whether or not indigenous to the country, while the tribal courts are held to be non-discriminatory even when members of the court are interested parties.

LAND TENURE ACT

The Land Tenure Bill was passed by the Legislative Assembly in November 1969, and received the signature of the Officer Administering the Government on November 29th.

The Act, which repeals the Land Apportionment Act, regulates the ownership, leasing and occupation of land in all areas on racial grounds and preserves the special status of the Tribal Trust Land within the African area.

The total extent of Rhodesia is approximately 96.5 million acres which was divided by the Land Apportionment Act as follows: European Area 35.6 million acres, Tribal Trust Land 40.1 million acres, Native Purchase Area 4.3 million acres, National Land 105 million acres, Unreserved Land 6.0 million acres.

Previously only Tribal Trust Lands were specially protected under the Constitution. The Native Purchase Area and European Area enjoyed no such protection.

Under the new Act all areas are similarly protected, but there are now only three areas which are: European Area 44.95 million acres, African Area 44.95 million acres, National Area—reserved for the purpose of Wild Life Conservation and National Parks—6.6 million acres.

Exchange of land between one area and the other are controlled by two Boards of Trustees, one of which watches over the interests of Europeans and the other the interests of Africans.

ANGLO-RHODESIAN CONSTITUTIONAL PROPOSALS

(November 1971)

In November 1971 the British Foreign Secretary (Sir Alec Douglas Home) and Lord Goodman met Mr. Ian Smith and agreed on a settlement. The settlement is subject to it being acceptable to Rhodesians as a whole in the opinion of the Pearce commission, which tested opinion in Rhodesia between January and March 1972.

The settlement proposes that the number of African seats (now 16) will increase as more Africans meet voting qualifications, until they equal the Europeans' present 50 seats. The creation of new African seats will depend on the growth of a new higher African electoral roll, the qualifications being the same as those for Europeans. Two seats will be added for each 6 per cent rise in the higher African roll, but half the new seats will be filled by indirect election by the College of Chiefs. When the 50-50 parity has been

achieved, an independent commission will recommend whether or not 10 Common Roll seats should be added, to be voted for by all on the European and higher African rolls. By this time both rolls should have about the same numbers. As more Africans qualified, they could out-vote the Europeans and produce an African majority in the Assembly. An agreed blocking mechanism will prevent retrogressive legislation. An independent commission will examine racial discrimination. Britain and Rhodesia will join in a £100 million development and educational programme and Africans will get more land. Once the British Government is satisfied by Rhodesian action on the franchise, discrimination and detainees, Parliament will be asked to grant Rhodesia independence and to end sanctions.

RWANDA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Rwanda is a small, landlocked state in Central Africa just south of the equator, bounded by Zaire to the west, Uganda to the north, Tanzania to the east and Burundi to the south. The climate is tropical with an average temperature of 64°F (18°C). French and Kinyarwanda, the native language, are both in official use. About half the population follow animist beliefs, most of the remainder being Roman Catholic. There are Protestant and Muslim minorities. The flag consists of vertical stripes of red, green and yellow, the yellow band bearing a black letter R. The capital is Kigali.

Recent History

Rwanda was formerly part of the Belgian-administered Trust Territory of Ruanda-Urundi. Tribal dissensions have long been rife and in 1959 led to serious disturbances and the establishment of a state of emergency. In 1961 it was decided by referendum to abolish the monarchy and set up a Republic. Internal autonomy was granted in 1961 and full independence followed in 1962. Tribal strife broke out again in December 1963 and large-scale killings (estimated at 20,000) were carried out by the Hutu against their former overlords the Tutsi. During 1964-65 large numbers of displaced Rwandese were resettled in neighbouring countries. President Kayibanda was re-elected in 1969 for a third four-year term. Rwanda has been discussing at Presidential and Ministerial level the subject of closer co-operation with Zaire and Burundi.

Government

Rwanda is a Republic, executive power being exercised by the President assisted by a Cabinet of 13 Ministers. Legislation is carried out by the Legislative Assembly of 47 members elected by universal adult suffrage. General elections were held in October 1969 when President Kayibanda was re-elected by 1,426,519 votes out of 1,578,704 votes registered, and all 47 seats in the Assembly were retained by the governing party, the M.D.R. Parmehutu. Opposition parties have ceased to play any part in the political life of Rwanda. The country is divided into ten Prefectures.

Defence

Until independence in 1962 defence was the responsibility of Belgium. Since the withdrawal of Belgian troops a small national force has been built up and now consists of a national guard of 2,750, a gendarmerie of 400 and a civil police of 800.

Economic Affairs

The economy is agricultural, mainly at subsistence level. Coffee, cotton and pyrethrum are the principal crops. Livestock is widely raised and hides and skins are exported. Minerals include cassiterite (tin ore) and some gold, tantalite, wolfram and beryl. Industry is on a small scale,

mainly the processing of food. Financial aid from Belgium and the United Nations has been necessary to balance the budget. Trade is chiefly with neighbouring states and with Belgium. Rwanda severed economic ties with Burundi after the failure of their economic union in January 1964. An economic stabilization plan, including devaluation of the Rwanda franc, was implemented in April 1966 and is expected to improve export returns and has doubled budgetary income.

Transport and Communications

There are no railways. The main roads are asphalted and there are highways linking Rwanda with Burundi. In January 1969 agreement was reached with Tanzania on a road link to the Tanzania railways system. Construction has already started. The rivers are not navigable but there is traffic on Lake Kivu. There are three airfields and regular flights are made to Burundi and Belgium.

Social Welfare

State schemes cover family allowances, accidents and pensions. The Government-assisted Native Welfare Fund provides community centres and medical services. Religious missions also provide socio-medical services.

Education

Schools are run by the State and by Missions but cannot yet provide education for all children. Over 400,000 children were at school in 1965. A few students go to Zaire or Belgium for higher education.

Tourism

Tourism has not been developed although there is attractive mountain scenery and colourful native dancing and drumming.

Sport

Football is the most popular sport.

Public Holidays

1972: May 1 (Labour Day), May 22 (Whit Monday), July 1 (National Holiday), August 15 (Assumption), November 1 (All Saints Day), December 25 (Christmas).

1973: January 1 (New Year), January 28 (Democracy Day), April 20-23 (Easter).

Weights and Measures

The monetary unit is the Rwanda Franc of 100 Centimes. It was devalued to half the former rate in April 1966.

Coins: 1, 5, 10 Francs.

USCAR acts primarily as an advisory and guiding body although it has the ultimate authority.

* Agreement has been reached for the return of the Ryukyu Islands to Japan in May 1972.

The Government of the Ryukyu Islands (GRI) is composed of local residents and is headed by a Chief Executive. The Government consists of an Executive, an elected Legislature and a Judiciary. The functions of the three branches are quite separate. Elections for the Legislature are held in November every third year. In November 1968, for the first time, the Chief Executive was elected by the Ryukyuan people on the same day as elections to the Legislature, in accordance with an amendment to the Executive Order announced on 1 February, 1968. Previously, the Chief Executive was elected by members of the Legislature.

SAUDI ARABIA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Saudi Arabia occupies the greater part of the Arabian peninsula with the Yemen Arab Republic and the Red Sea to the west and the Persian Gulf and the United Arab Emirates to the east. Jordan, Iraq and Kuwait are to the north and Oman and the Yemen People's Democratic Republic to the south. Much of the country is desert. In summer temperatures range from 100°-120°F (38°-49°C) in coastal regions and humidity is high. Temperatures sometimes reach 130°F (54°C) in the interior. Winters are mild, except in the mountains. The language is Arabic. The great majority of the population are Sunni Muslims, and in the Najd there is a preponderance of members of the Wahhabi sect. The flag is green bearing a white Arabic inscription "There is no God but God and Muhammad is the prophet of God" above white crossed swords. The royal capital is Riyadh.

Recent History

Saudi Arabia has been a member of the Arab League since 1945. King Saud ibn Abdul Aziz succeeded his father in 1953 and at times tried to mediate between the conflicting interests in the Arab Middle East. Since 1962 Saudi Arabia has supported the deposed Imam of the Yemen while forces of the United Arab Republic aided the newly declared Yemeni Republic; this led to poor relations with the U.A.R. and other Arab republics for some years. Early in 1964 full executive powers passed into the hands of Crown Prince Faisal, the Prime Minister since 1962. In November 1964 the Council of Ministers asked King Saud to resign in favour of his brother. King Faisal continued in the office of Prime Minister, and now rules the country directly through the Council of Ministers. Saudi Arabia did not directly participate in the 1967 war, but the government has adopted a strongly anti-Israeli policy; substantial financial aid is given to Egypt and Jordan. Two abortive coups were reported during 1969; in November there was some fighting against Southern Yemeni forces on the border.

Government

Constitutionally, the King rules in accordance with the *Sharia*, or sacred law of Islam. A council of Ministers is appointed by the King, and decisions of the Council of Ministers are reached by majority vote but require royal sanction. The principal administrative divisions are Najd, Hijaz, 'Asir, Najran, and Eastern Province. The organs of local government are the General Municipal Councils, the District Council and the tribal and village Councils.

Defence

Saudi Arabia has a regular army, and a military academy to train officers. Since 1967 the air force has been rapidly expanded and provided with modern equipment. The United States has military agreements with Saudi Arabia.

Economic Affairs

Saudi Arabia is the largest producer of crude oil in the Middle East, and the income from oil constitutes over 85 per cent of the Government's total revenue receipts. The country is thought to possess the world's largest oil reserves. There is little industry but an iron and steel plant and an oil refinery were established at Jeddah in 1967 and an oil lubricating plant is also under construction there. Agreement has been reached with an Italian firm for setting up a petrochemical industry at Dammam. Apart from oil the chief activity is agriculture. The products are dates, wheat, barley, fruit, hides, wool. Camels, horses, donkeys and sheep are raised. Another source of revenue is the income from religious pilgrims, who come from all parts of the Muslim world to the holy cities of Mecca and Medina. A large-scale survey of water resources is under way covering 1,248,000 square kilometres in six regions. The Government is distributing land to former nomads.

Transport and Communications

There is a railway from Dammam to Riyadh and the rebuilding of the railway from Medina to Damascus has been completed on Saudi territory. Asphalted roads link Jeddah to Mecca and Medina, Medina to Yanbu, Taif to Mecca, Riyadh to al-Kharj, and Dammam to Hofuf. A new road was recently opened between Riyadh and Jeddah. The road flanking the Trans-Arabian Pipeline from Dhahran to the Mediterranean is being rebuilt. Saudi Arabian Airlines operate internal and external air services. The principal ports are Jeddah, on the Red Sea, and Ras Tanura and Dammam, on the Gulf.

Social Welfare

Oil revenues have enabled the Saudi Arabian government to provide free medicine and medical care for all citizens and foreign residents. A far reaching new Labour Act and Social Security Ordinance were passed in 1969; there were then 80 hospitals with 6,300 beds.

Education

Elementary, secondary and higher education is free but not compulsory. In 1969 there were 1,318 schools for boys and 331 for girls. There are three universities, two secular and one religious, and a number of teacher training centres and technical and agricultural schools. A Petroleum and Minerals College has been established at Dhahran.

Tourism

All devout Muslims try to pay at least one visit to the holy cities of Medina, the burial place of Muhammad, and Mecca, his birthplace. Over 400,000 pilgrims visited Saudi Arabia in the Muslim year 1389 (1969-70).

Visas are not required for visits to Saudi Arabia by nationals of Kuwait.

SAUDI ARABIA-IRAQ NEUTRAL ZONE

The Najdi (Saudi Arabian) frontier with Iraq was defined in the Treaty of Mohammara in May 1922. Later a Neutral Zone of 7,000 sq. km. was established adjacent to the western tip of the Kuwait frontier. No military or permanent buildings were to be erected in the zone and the nomads of both countries were to have unimpeded access to its pastures and wells. A further agreement concerning the administration of this zone was signed between Iraq and Saudi Arabia in May 1938.

SAUDI ARABIA-KUWAIT NEUTRAL ZONE

A Convention signed at Uqair in December 1922 fixed the Najdi (Saudi Arabian) boundary with Kuwait. The Convention also established a Neutral Zone of 5,770 sq. km. immediately to the south of Kuwait in which Saudi Arabia and Kuwait have since held equal rights. The final agreement on this matter was signed in 1963. Details of oil production in the Zone are given in the Kuwait chapter.

THE CONSTITUTION

After Ibn Sa'ud had finally brought the whole of present-day Saudi Arabia under his control in 1925, the territory was made into a dual kingdom.

Six years later, in 1932, the realm was unified by decree and became the Kingdom of Saudi Arabia. Saudi Arabia as a whole has in practice been developing, in the last six years or so particularly, from monarchical towards ministerial rule. The power of the Cabinet was further increased in May 1958, when several ministries were delegated to the Crown Prince. In December 1960, however, the Crown Prince resigned and King Sa'ud assumed the Prime Ministership. In 1962, Prince Faisal resumed the Prime Ministership. In 1964 King Sa'ud was relieved of his duties and his brother Prince Faisal was proclaimed King.

The organs of local government are the General Municipal Councils, the District Council and the tribal and village councils. A General Municipal Council is established in the towns of Mecca, Medina and Jeddah. Its members are proposed by the inhabitants and must be approved by the King. Functioning concurrently with each General Municipal Council is a General Administration Committee, which investigates ways and means of executing resolutions passed by the Council. There are also elected district councils under the presidency of local chiefs, consisting of his assistant, the principal local officials and other important persons of the district. Every village and tribe has a

council composed of the sheikh, who presides, his legal advisers and two other prominent personages. These councils have power to enforce regulations.

The principal administrative divisions are as follows:

Najd: capital Riyadh. Najd is sub-divided as follows:

1. The principality of Riyadh, to which are associated Wadi al-Dawasir, al-Aflaj, al-Hariq, al-Kharj, al-'Aridh, al-Washm and Sudair.
2. The principality of al-Qasim, comprising 'Unaizah, Buraidah, al-Ras and their villages, and al-Mudhanab and its dependencies.
3. The Northern principality (capital Hayil). This includes the tribes of Shammar, 'Anzah, al-Dhafir and Mutair, the Town of Taima in the south and some northerly towns.

Hijaz: capital Mecca. Includes the principalities of Tabuk, al-'Ula, Dhaba, al-Wajh, Amlaj, Yanbu', Medina, Jeddah, al-Lith, al-Qunfundah, Baljarshi and Tayif.

'Asir: capital Abha. Includes Abha, Qahtan, Shahr, Rijal Alma', Rijal al-Hajr, Banu Shahr, Mahayil, Bariq and Bisha.

Najran and its villages.

Eastern Province (Al Hasa): capital Dammam. Includes Hofuf, Al-Mubarraz, Qatif, Dhahran, Al-Khobar and Qaryat al-Jubail.

JUDICIAL SYSTEM

Justice throughout the kingdom of Saudi Arabia is administered according to Islamic law by a Chief Judge, who is responsible for the Department of Sharia Affairs. Sentences in the kingdom are given according to the Koran and the Sunna of the Prophet.

The judicial system provides for three grades of court and a Judicial Supervisory Committee:

The Judicial Supervisory Committee. The Committee consists of three members and a president appointed by the King. It supervises all the other courts and is situated at Mecca.

Chief Justice, Mecca: Sheikh ABDULLAH IBN HASSAN.

Courts of Appeal (Courts of Cassation). There are several courts of appeal in Hijaz and Najd, having jurisdiction to hear appeals from the *Mahkamah al-Sharia al-Koubra*.

Mahkamah al-Sharia al-Koubra. The competence of these courts extends to all cases not covered by the above. They are situated in Mecca, Medina and Jeddah. Appeal may be made to the Courts of Cassation.

Mahkamah al-Omour al Mosta'alah. These courts, which are held throughout the country, deal with cases of minor misdemeanours and actions in which the value does not exceed S.R. 30. Other branches of these courts deal exclusively with affairs of the Bedouin tribes with the same competence. The decisions of these courts are final.

RELIGION

Arabia is the centre of the Islamic faith and includes the holy cities of Mecca and Medina. Except in the Eastern Province, where a large number of people follow Shi'a rites, the majority of the population are of the Sunni faith. The last fifty years have seen the rise of the Wahhabi sect, who originated in the eighteenth century, but first became unified and influential under their late leader King Ibn Sa'ud. They are now the keepers of the holy places and control the pilgrimage to Mecca.

Mecca: Birthplace of the Prophet Muhammad, seat of the Great Mosque and Shrine of Ka'ba visited by a million Muslims annually.

Medina: Burial place of Muhammad, second sacred city of Islam.

Chief Qadi and Grand Mufti: (Vacant).

THE PRESS

Since 1964 most newspapers and periodicals have been published by press organizations administered by boards of directors with full autonomous powers, in accordance with the provisions of the Press Law. These organizations, which took over from small private firms, are privately owned by groups of individuals widely experienced in newspaper publishing and administration (*see* Publishers).

There are also a number of popular periodicals published by the government and by the Arabian American Oil Co. and distributed free of charge. The press is subject to no legal restriction affecting freedom of expression or the coverage of news.

FINANCE

BANKING

The Saudi Arabian banking system consists of the Saudi Arabian Monetary Agency as central note-issuing and regulatory body, three national banks, one specialist bank (The Agricultural Credit Bank) and ten foreign banks. Charter for an industrial Bank and a Bank for people of small means have been drawn up; both are expected to be set up in the near future.

Saudi Arabia had no central monetary authority until 1952. Previous to this, foreign merchant companies (Gellatly Hankey, Netherlands Trading Society) had acted as bankers to the government, with such functions as the issue of currency being the responsibility successively of the General Finance Agency (set up in the late 1920s) and the Ministry of Finance (established 1932).

The rising volume of oil revenues imposed a need for modernization of this system, and in 1952 an American

advice the Saudi Arabian Monetary Agency (SAMA) was established in Jeddah, SAMA complies with a Muslim law prohibiting the charging of interest. Instead, its services are paid for by a commission charged on all transactions. SAMA's functions include: bankers to the government, stabilization of the value of the currency; administration of monetary reserves; issue of coin and notes; and regulation of banking.

From 1959 all banks were obliged to hold with SAMA a sum equivalent to 15 per cent of their deposit liabilities. This figure was reduced to 10 per cent between 1962 and 1966, when the original percentage was re-introduced, this time variable between 10 and 17.5 per cent. In addition every bank must maintain a liquid reserve of not less than 15 per cent of its deposit liabilities, which may be increased to 20 per cent. Under SAMA's guidance specialist banks have been encouraged; the Agricultural Credit Bank was set up in 1964, and there are plans for an industrial development institution. A new banking control law became effective in 1966. Banks must be organized as limited liability companies, and may not trade for purposes other than banking. A minimum of RIs 2.5m. equivalent is set for paid-up capital; banks' deposit liabilities may not exceed 15 times their paid-up capital and reserves; and all banks must plough back 25 per cent of profits before dividends to build up their reserve funds.

The intention of the 1966 law, besides strengthening the control of SAMA, is to encourage foreign banks to open branches in Saudi Arabia in an atmosphere of financial stability and assured growth potential.

TRANSPORT

RAILWAYS

Saudi Government Railroad Organization: Dammam; Gen. Man. KHALID M. ALGOSAIBI.

The Saudi Government Railroad is a single track, standard gauge line patterned to the specifications of the Association of American Railroad standard and uses modern diesel locomotive power with a route length of 610 km. (379 miles). Actual construction of the line started in September 1946 and completed in October 1951. It connects the Port of Dammam on the Arabian Gulf with Riyadh, the capital, and was built by Aramco on behalf of the government. There is a daily passenger train in each direction to and from Riyadh; a daily freight train is also scheduled as required, and certain trains are run daily between intermediate points to serve the needs of individual companies. The Organization is an independent entity with a board of directors headed by the Minister of Communications. In addition to working the railways the Organization is also responsible for managing the Port of Dammam.

The historic Hedjaz railway running from Damascus to Medina has been the subject of a reconstruction project since 1963; however, little progress has been made since the war of June 1967.

ROADS

al-Kharj, and Dammam to Hofuf as well as the principal communities and certain outlying points in Aramco's area of operations. Work is proceeding on various other roads, including one which will link Medina and Riyadh, and one from Taif to Jizan in the south, near the Yemeni border. 1967 saw completion of the trans-Arabian highway, which links Dammam, Riyadh, Taif, Mecca and Jeddah. By the end of 1970 some 6,856 km. of modern paved roads were in use, 2,500 km. were under construction, and a further 4,950 km. were at the planning stage.

SHIPPING

The deep-water port of Jeddah is the main port of the kingdom and the port for pilgrims to Mecca. An expansion scheme providing for nine new piers for large ships was begun in 1967. Six have been completed and brought into use. Yanbu, the port of Medina, has been extended and modernized, with new docks, storage space and a special Pilgrim centre; other ports on the Red Sea are Muwaih, Wejh and Rabigh. On the Gulf there are the small ports of Alkhobar, Qatif and Uqair, suitable only for small local craft, and a deep-water port at Ras Tanura built by the Arabian American Oil Co. for its own use. The deep-water Dammam Port, which was also built by the Arabian American Oil Co. and is operated by the Saudi Government Railroad, lies approximately 12 km. from the coast and is connected to the mainland by a railway causeway. Expansion of the port was completed in 1961 at a cost of over U.S. \$20 million. Further expansion is planned.

SENEGAL

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Senegal lies on the west coast of Africa bounded to the north by Mauritania, to the east by Mali and to the south by Guinea and Portuguese Guinea. In the southern part of the country the State of The Gambia forms a narrow enclave extending some 200 miles inland. The climate of Senegal is tropical with a long dry season followed by a short wet season. Average annual temperature is about 84°F (29°C). French is the official language but there are numerous native tongues of which Wolof and Toucouleur are the most widespread. About 80 per cent of the population is Moslem, 10 per cent Christian, mostly Roman Catholic. The remainder follow traditional beliefs. The flag has three vertical bands of green, gold and red, the gold band bearing a five-pointed star. The capital is Dakar.

Recent History

Formerly a French Colony, Senegal became a self-governing republic within the French Community in 1958. In 1959 it joined with the former French Sudan to form the Mali Federation. The Federation became independent in June 1960 but two months later was dissolved, Senegal rejoining the French Community as an independent member. In December 1962 the Prime Minister, Mamadou Dia, failed in an attempt to overthrow the President by a coup d'état and was arrested, tried and imprisoned. The President has since incorporated the office and duties of Prime Minister within his own Presidential responsibilities, and in March 1963 a new Constitution was adopted confirming this presidential system of government. The Senegalese-Gambian Inter-Ministerial Committee has been meeting since 1961, and in February 1969 announced agreement in principle on a customs union. A series of strikes by students and workers culminated in a call for a general strike in June 1969, and a state of emergency was imposed for twelve days by Presidential decree. The war between African nationalists and the Portuguese in neighbouring Portuguese Guinea has driven some 80,000 refugees into Senegal, mostly into the Casamance region, and has also led to border incidents between Portuguese and Senegalese forces. Relations between Senegal and the Republic of Guinea are also very strained. Guinea claims that Senegal is assisting new attempts to overthrow their government. This dispute led to the break-up of the Organization of Senegal River States in 1971, though in March 1972 a new organization, the Organization for the Development of the Senegal River (OMVS), was formed by Senegal, Mali and Mauritania. Senegal is a member of OCAM and the OAU.

Government

The President is elected for a five-year term by universal direct suffrage and is eligible for re-election for a second term. He exercises executive power with the assistance of ministers nominated and chosen by himself. Legislative power is vested in the National Assembly which is also elected for a five-year term at the time of the presidential election.

Defence

Senegal maintains a regular army comprising infantry brigades, commandos and parachutists, an air force and a national gendarmerie for the maintenance of law and order. France provides technical and material aid while retaining the right to use specified military bases.

Economic Affairs

More than half the population is engaged in agriculture and stockraising. Groundnuts account for some 70 per cent of the total value of exports. Industry is mainly concerned with the processing of groundnuts and other food crops and hides and skins. There are some small consumer and construction industries and an oil refinery in Dakar. Bauxite, phosphate, titanium and zirconium are mined.

Transport and Communications

The railway line running east to Mali was re-opened to traffic in 1963. The only other section runs north from Dakar along the coast. The road network is good with nearly 2,360 miles passable at all seasons. The Senegal river is used to transport goods both by Senegal and Mauritania. Dakar is the largest port in West Africa and serves both Senegal and Mauritania. There is an international airport at Dakar with an alternative at Thiès and more than a dozen smaller airports.

Social Welfare

Social services include a state medical service and certain family and maternity benefits for workers. There is a hospital at Dakar with 7 regional hospitals, 32 health centres and 40 maternity and infant centres.

Education

There is compulsory education for all children between six and fourteen years. Nearly 50 per cent of school-age children are provided for. There is one university.

Tourism

There is a wild game reserve in the Nikolo-Koba National Park. Dakar offers local tours and there are fine beaches. The island of Goré, near Dakar, is of great historical interest. Senegal is a member of the Office Inter-Etats du Tourisme Africain.

Visas are not required to visit Senegal by nationals of France.

Sport

Football is the most popular game. Many forms of sport are practised, particularly watersports, hunting, golf and riding.

Public Holidays

1972: April 26 (Mouloud), May 1 (Labour Day), May 20 (Ascension), July 14 (Bastille Day), August 15 (The Assumption), November 1 (All Saints' Day), November 8 (Korite—end of Ramadan), December 25 (Christmas).

1973: January 1 (New Year's Day), February 17 (Tabaski—sheep festival), April 4 (Fête Nationale), April 23 (Easter Monday).

THE CONSTITUTION

(Promulgated March 7th, 1963, revised June 20th, 1967)

Preamble: Affirms the Rights of Man, liberty of the person and religious freedom. National sovereignty belongs to the people who exercise it through their representatives or by means of referenda. There is universal, equal and secret suffrage. French is the official language.

The President: The President of the Republic is elected by direct universal suffrage for a five-year term and is eligible for re-election. He holds executive power and conducts national policy with the assistance of ministers chosen and nominated by himself. He is Commander of the Armed Forces and responsible for national defence. He may, after consultation with the President of the National Assembly and with the Supreme Court, submit any draft law to referendum. In circumstances where the security of the State is in grave and immediate danger, he can assume emergency powers and rule by decree. The President of the Republic can be impeached only on a charge of high treason or by a secret ballot of the National Assembly carrying a three-fifths majority.

The National Assembly: Legislative power is vested in the National Assembly which is elected by universal direct suffrage for a five-year term at the same time as the Presidential election. The Assembly discusses and votes legislation and submits it to the President of the Republic for promulgation. The President can direct the Assembly to give a second reading to the bill, in which case it may be made law only by a three-fifths majority. The President of the Republic can also call upon the Supreme Court to declare whether any draft law is constitutional and acceptable. Legislation may be initiated by either the President of the Republic or the National Assembly.

Amendments: The President of the Republic and Deputies to the National Assembly may propose amendments to the Constitution. Draft amendments are adopted by a three-fifths majority vote of the National Assembly. Failing this they are submitted to referendum.

Judicial Power: The President appoints the members of the Supreme Court of Justice, on the advice of the Superior Court of Magistrates, which determines the constitutionality of laws. A High Court of Justice, appointed by the National Assembly from among its members, is competent to impeach the President or members of the Government.

Local Government: Senegal is divided into seven regions, each having a Governor and an elected Local Assembly.

During 1969 the Constitution was amended. The President can no longer stand for a third term of office, and the office of Prime Minister is recreated to apply policies determined by the President. The President retains control of foreign affairs, the army and certain judicial matters.

French Community: In June 1960 Senegal signed Agreements with France to become an independent member of the French Community.

Gambia-Senegal Treaty of Association: Signed April 1967 to promote co-operation between the two countries; provisions include annual meetings of heads of governments, an Inter-State Ministerial Committee (already existing since 1961) and a permanent secretariat; committees, under the supervision of the Inter-State Ministerial Committee, deal with existing agreements covering foreign affairs and security, and the joint development of the Gambia River Basin.

SIERRA LEONE

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Sierra Leone lies on the west coast of Africa with Guinea to the north and east and Liberia to the south. The climate is hot and humid with an average temperature of 80°F (21°C); the rainy season lasts from May to October. English is the official language and Krio, Mende and Temne are widely spoken. The vast majority of the population follow animist beliefs and there are Muslim and Christian minorities. The flag consists of horizontal stripes of green, white and blue. The capital is Freetown.

Recent History

Formerly under British rule, Sierra Leone became independent in 1961. The new constitution gave women the franchise and abolished the division of the country into a Colony and a Protectorate. Elections were held in 1962 and won by the Sierra Leone People's Party led by Sir Milton Margai. In 1964 Sir Milton Margai died, and was succeeded as premier by his brother Mr. (now Sir) Albert Margai, several members of whose government were later convicted on charges of corruption. Following disputed elections in March 1967, the army assumed control of the country and set up a National Reformation Council. The Governor-General was forced to leave the country. A second army revolt in April 1968 led to the restoration of civilian government and the return to power of the Prime Minister elected in 1967, Mr. Siaka Stevens. A state of emergency was declared on November 20th, 1968, after disorders in the Eastern and South-Eastern regions just before parliamentary by-elections were due to be held. The emergency was revoked on February 26th, 1969, and the elections held in March. A committee to advise on a new republican constitution met for the first time in June 1969. In December 1969 Mr. Siaka Stevens announced that the government was to take a 51 per cent control of the shares of the mining companies operating in Sierra Leone.

In April and May 1970 several of those who took part in the army coup of 1967 were tried and sentenced for treason. In June President Sekou Touré of Guinea proposed union between his country and Sierra Leone. Mr. Stevens declared a state of emergency in September following the resignation from his cabinet of Dr. M. Forna and Mr. M. Bash-Taqi, who joined with Dr. J. Karefa-Smart to form a new party, the United Democratic Party. This was banned in October and its leaders arrested. A few days later six junior army officers were arrested for allegedly plotting a coup. In December, following the attack on Guinea, Mr. Stevens proposed regional defence arrangements with Guinea and Liberia. A defence agreement was reached with Guinea in March 1971 after another unsuccessful attempt to overthrow Mr. Stevens. Sections of the army under their chief, Brigadier Bangura, were responsible, and two attempts were made to assassinate Mr. Stevens. Guinean troops were flown in to assist loyal sections of the Sierra Leone army in protecting Mr. Stevens and restoring law and order. In April a republican constitution was introduced and Siaka Stevens became Executive President.

Government

Sierra Leone is a republic within the Commonwealth. There is an Executive President with a Cabinet headed by a Prime Minister, who is also Vice-President. The House of Representatives consists of 66 members (to be increased to 85) elected by direct universal suffrage, and twelve Paramount chiefs. The Country is divided into four regions: the Northern, Eastern and Southern Provinces, and the Western Area.

Defence

The Royal Sierra Leone Military Forces consist of an Infantry Battalion and Headquarters with a total strength of 1,350. There is also the nucleus of a future Navy. Police number about 2,000; and some 200 Guinean troops are at present stationed in Sierra Leone.

Economic Affairs

The economy is based on agriculture and mining, the chief products being palm kernels, coffee, cocoa, rice, timber, diamonds, and iron ore. Diamonds are the nation's principal export, and diamond smuggling is a major problem. In December 1969 the government took a 51 per cent control in the four companies responsible for mining diamonds, iron ore, rutile and bauxite respectively. Industry is on a small scale, covering palm oil, furniture and weaving. A Ten-Year Plan was launched in 1962 to develop industry and plantation agriculture. Sierra Leone adheres to a free trade agreement with Guinea, Ivory Coast and Liberia, signed in 1965, but largely ineffective owing to differences between the Ivory Coast and Guinea, and also to currency problems.

Transport and Communications

There are 358 miles of railways and 3,500 miles of roads. A road linking Freetown to Monrovia in Liberia is being planned by the African Development Bank. Inland waterways total 493 miles, much of it navigable for only three months in the year. The chief ports are Freetown and Pepel. Internal air transport is well developed and international air services are provided by Sierra Leone Airways and fifteen foreign lines.

Social Welfare

There is no state scheme for social security, but the Division of Social Welfare provides Community Development Centres, Youth Clubs and Maternity Welfare Centres.

Education

Education is private but nearly all schools are Government-assisted.

Tourism

The Tourist Board was set up in 1962 to develop Sierra Leone's tourist potential. The main attractions are the wide, sandy beaches, the mountains and jungle and wild life.

THE CONSTITUTION

(April 1970)

Sierra Leone became an independent sovereign nation on April 27th, 1961, and is a member of the British Commonwealth.

The Constitution provides for an Executive President, elected for five years, with a maximum of two terms, and a Cabinet headed by a Prime Minister, who is also Vice-President. Not more than three Ministers may be appointed from outside the House of Representatives. The House of Representatives consists of a Speaker and Deputy Speaker, and a total of 85 elected members, and 12 Paramount Chiefs who do not stand for office under party auspices. Constitutional provisions are designed to safeguard certain fundamental democratic liberties, concerning the House of Representatives, elections, appointments, the Supreme Court, the office of Paramount Chief, and the independence of the judiciary.

The Government had been investigating the possibility of introducing a republican constitution since 1969. Under the 1961 Constitution a general election was required for approval of any fundamental constitutional change. However, since the new Constitution is basically the same as the republican constitution approved by the House of Representatives during Sir Albert Margai's term of office, the Government considered the March 1967 general election to have provided the necessary approval. The change to a republican form of constitution has been under examination by a 36-member constitutional commission since June 1970. Certain clauses of the Margai Constitution which the present Government does not agree with and which could not be altered under the 1961 procedure for constitutional amendments are to be changed as the need arises.

JUDICIAL SYSTEM

The Common Law of England and the doctrines of equity and Statutory Law which were applicable in 1880 are in force in Sierra Leone; and certain English Statutes after 1780 have from time to time been brought into force by Ordinance.

The Court of Appeal: Consists of a President, Justice of Appeal and the Judges of the superior courts of the Territories. Appeals lie to the Judicial Committee of the Privy Council.

President: C. O. COLE (acting).

Justices of Appeal: G. DOVE EDWIN, J. B. MARCUS-JONES, Dr. HENRY WIJAKONE TAMBIAH.

The Supreme Court has the same jurisdiction as the High Court of Justice in the United Kingdom, except in certain minor cases arising exclusively between natives, where native law or custom is decisive. It is the Court of Appeal for all subordinate courts and appeal against its own decisions may be made to the Sierra Leone Court of Appeal.

Magistrates' Courts have jurisdiction in civil cases:

(a) in the Freetown District "on any cause or matter which may lawfully be brought before them", and

(b) in the Provinces, in any matter (except libel or slander) between or involving non-natives or between a native and the holder of a trading licence (whether a native or not).

In criminal cases the jurisdiction of the Magistrates' Courts is limited to summary cases and to preliminary investigations to determine whether a person charged with an offence triable by the Supreme Court shall be committed for trial.

Native Courts have jurisdiction, according to native law and custom, in all matters between natives which are not triable by any other court (see above).

In some cases, e.g. in trading cases which involve more than £50 or in land disputes involving two or more Chiefdoms, or cases which are of particular importance, the District Commissioner has the right to inquire and to decide whether the case shall go before the Supreme Court.

Chief Justice: C. O. COLE.

The climate is essentially equatorial with a uniformly high daily and annual temperature varying between 75°F and 80°F (24°C–27°C). Relative humidity is high, and the average annual rainfall is 96 in. There are no well-defined wet and dry seasons. The national language is Malay, and there are four official languages—Malay, Chinese (Mandarin), Tamil and English. The language of administration is English. There is complete religious freedom: the main religions practised are Islam, Christianity, Buddhism, Hinduism, Confucianism and Taoism. The flag is red and white, halved horizontally with, at the top of the hoist, a crescent moon sided by five stars in a circle, all in white. The capital is the City of Singapore.

Recent History

After the Second World War, which had resulted in the Japanese occupation of Singapore from 1942 to 1945, Singapore was administered by the British Military Administration. When civil administration was restored in April 1946, Singapore became a separate crown colony. A new constitution in 1955 introduced some measure of self-government, and in 1959 the state achieved complete internal self-government. In a referendum in September 1962 the people of Singapore consented by a 73 per cent majority to union with the new Federation of Malaysia, which came into being on September 16th, 1963, with Singapore as a constituent state. On August 9th, 1965, by mutual agreement, the association was ended and Singapore was separated from Malaysia and became a fully independent and sovereign nation. On December 22nd, 1965, it became a Republic with a President at its head. In January 1971, Singapore was host to the first ever Commonwealth Conference to be held outside Great Britain. Dr. Benjamin Sheares became President succeeding President Yusoff who died in 1970. A member of newspapers were forced to close because of connections with banned Communist elements.

Government

Singapore is a Republic within the Commonwealth. The Head of State is the President, formerly the Yang di Pertuan Negara, who must be a citizen of Singapore. The legislature comprises a Parliament elected by universal adult suffrage and there is a Cabinet presided over by the Prime Minister.

Defence

The United Kingdom withdrew her forces in 1971. Defence is now co-ordinated under a consultative pact on external defence signed in April 1971 between Singapore and Malaysia, Australia, New Zealand and the United

Kingdom forming a combined ANZUK force. Singapore troops will be trained in Australia. In 1971 the armed forces comprised 14,000 troops with a reserve force of 9,000; 500 naval, and 1,500 air force personnel.

Economic Affairs

Strategically situated both for trade and defence, Singapore is the entrepôt for Malaysia and other South-East Asian states. It handles most of West Malaysia's external trade and is the world centre of the rubber and tin markets. The main commodities in trade are rubber and petroleum products, whilst foodstuffs form a quarter of retained imports. While the entrepôt trade and related services still account for 16 per cent of national income and employ a quarter of the labour force, the processing and manufacturing industries are receiving increasing attention, and manufactured domestic exports are increasing. Many new industries have been established to produce for export markets and there are rapidly growing industrial estates, such as Jurong with its three oil refineries and many factories, and a number of smaller industrial complexes. Notable among the new industries is the Jurong Shipyard; the Sembawang Shipyard, the former British naval base, also being developed for commercial ship repair. In 1969, 9,000 ships called in for overhaul and repair. There is also a high degree of technological orientation in the recent promotion of industries.

Less than a quarter of the land area is under cultivation, and the primary sector accounts for about 4 per cent of national income and employs about 8 per cent of the workforce. Fruit and vegetable market gardening and offshore fishing are the major activities in this sector.

The growth rate of gross domestic product averaged about 9.5 per cent in 1968, 14.5 per cent in 1969 and 15 per cent in 1970. Singapore enjoys one of the highest per capita incomes in Asia. Intensive searches for submarine oil resources led to the completion of the first Singapore built oil-rig. A fourth oil refinery was opened in February 1971 with a capacity of 81,000 barrels a day.

Transport and Communications

Singapore is the fourth largest port in the world, in terms of tonnage entering and leaving, and is used by more than 200 major shipping lines as well as by local coastal services. Shipbuilding employs 25,000 workers. A new Container port is under construction and will comprise 2,250 ft. of marginal wharves for Container vessels and a 700 ft. crossberth for feeder service vessels. The first container berth became operational in 1971 and the whole project will be completed by late 1972. Singapore International Airport has been expanded to handle Boeing 747s and in 1971 a satellite communications centre came into operation. The Malayan Railways cross the causeway into Singapore.

Social Welfare

The Social Welfare Department, aided by local voluntary bodies, provides a wide range of welfare services to individuals and families in need. These services include direct financial assistance, day care and foster home care for

children and institutional care for the handicapped, destitute, sick and aged. There are no state social insurance systems but there is a Central Provident Fund into which contributions must be paid by employers and employees.

Education

Primary and secondary education is available in the four official languages of Malay, Chinese, Tamil and English. Government schools are either integrated schools with two or three language streams in one building under one administration or schools with only one language stream as is the case with government-aided and private schools. In June 1970 there were 427 primary schools with 363,518 students, and 123 secondary schools with 145,740 students. Outside the school system there are 4 industrial training centres and 4 vocational institutes providing craft level industrial training and a technical institute providing advanced craft training. Technical training is provided at a technical college and a polytechnic while teacher training is given at a teachers' training college. University education is provided at two universities, one using mainly English and the other mainly Chinese. Adult education courses are conducted by a statutory board.

Tourism

Singapore's tourist trade depends mainly on visitors who come in by air and sea. The diverse population of the city offers opportunities to see a number of Asian cultures.

Visas to enter Singapore are not required by British Subjects, Commonwealth Citizens, British Protected Persons, holders of Thai diplomatic and service passport or Philippines diplomatic and special passports, nor by nationals of Ireland, Liechtenstein, Monaco, Netherlands,

San Marino and Switzerland; also citizens of the U.S.A., German Federal Republic, Denmark, Italy, Belgium, Finland, France, Iceland, Luxembourg, Norway and Sweden who are in transit or making only a temporary visit.

Sport

Facilities exist for all types of sport.

THE CONSTITUTION

In June 1959 Singapore attained internal self-government and became responsible for the internal affairs of the State. Matters relating to foreign affairs and defence were the sole responsibility of the British. In September 1963 she attained full self-government but as a component State of the Federation of Malaysia. On August 9th, 1965, Singapore separated from Malaysia and attained Commonwealth membership on her own and a Republic was declared with the President as Head of State.

THE CABINET

The Cabinet consists of eleven Ministers headed by the Prime Minister.

THE LEGISLATURE

The Legislature consists of a Parliament of fifty-eight members, presided over by a Speaker who may be elected from the Members of Parliament themselves or appointed by Parliament although he may not be a member of Parliament. Members of Parliament are elected by universal suffrage.

A Constitutional Amendment Act was passed in December 1969 setting up a 21-Member Presidential Council

chaired by the Chief Justice. This exists to examine legislation to see whether it contains elements which differentiate between racial or religious communities or contains provisional inconsistent with the fundamental liberties of Singapore citizens and report and advise the Government thereon.

SINGAPORE CITIZENSHIP

Whilst she was still responsible only for her internal affairs, a Singapore citizenship had been created. This status of Singapore citizenship merged with Malaysian citizenship though retaining its distinct character upon Singapore attaining full independence within the Federation. Upon separation from Malaysia, Singapore nationality became distinct and separate from Malaysian citizenship. The principal qualifications for acquisition of citizenship have changed since its creation in 1957. The present principal qualifications for citizenship are:

1. Birth in Singapore, or
2. Descent from a father who was a Singapore citizen, or
3. By registration which would have required residence in Singapore for ten years during the twelve years preceding the application for registration as a citizen.

JUDICIAL SYSTEM

The civil procedure of Singapore is governed by Rules of Court which were made under the Courts Ordinance. Though the Courts Ordinance is now repealed the Rules of Court were adopted by the Courts of Judicature Act and are still in force. Criminal procedure is governed by the Criminal Procedure Code. The Subordinate Courts Ordinance provides for the constitution of the subordinate courts, whereas the constitution of the High Court of Singapore is now contained in the Courts of Judicature Act.

There are three Civil District Courts, four Criminal District Courts, nine Magistrate's Courts, three Traffic Magistrate's Courts, a Shariah Court, a Magistrate's (Maintenance) Court and a Juvenile Court. District Courts are presided over by District Judges, who are empowered to try civil cases in which the amount in dispute does not exceed S\$2,000, and criminal cases which are punishable by not more than seven years' imprisonment, or by fine only. A District Judge may impose a sentence of not more than three years' imprisonment, or of a fine not exceeding S\$5,000, or of up to twelve strokes with the cane, or any lawful combination of these. Under certain circumstances he may impose the maximum sentence of seven years' imprisonment. Magistrate's Courts are presided over by Magistrates, who are empowered to try criminal cases which are punishable by not more than three years' imprisonment, or by fine only. A Magistrate may impose a sentence of not more than one year's imprisonment, or of a fine not exceeding S\$2,000, or of up to six strokes with the cane, or any lawful combination of these. Under certain circumstances, he may impose the maximum sentence of three years' imprisonment. The Shariah Court deals with actions in which all the parties are Muslims, and which involve disputes relating to Muslim marriages.

All other civil cases are heard in the High Court, which has unlimited jurisdiction and which is presided over by the Chief Justice or a Puisne Judge sitting alone. Grave criminal offences are tried in the High Court, presided over by a Judge sitting alone. For the trial of capital offences, the Judge is assisted by a jury of seven. An appeal lies from the High Court to the Judicial Committee of the Privy Council.

There are also two Industrial Arbitration Courts, intended to regulate labour relations.

SOMALIA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Somali Democratic Republic lies on the east coast of Africa with Ethiopia to the north-west, and Kenya to the west. There is a short frontier with French Somaliland by the Gulf of Aden. The climate is dry and hot with a mean temperature of 80°F (20°C) rising to 108°F (42°C) inland. The national language is Somali, but the official written languages are English and Italian. Arabic is spoken throughout the country. The population is mainly Muslim but there is a small Christian community, mostly Roman Catholic. The flag is a white five-pointed star on a blue background. The capital is Mogadishu.

Recent History

After the defeat of the Italian forces in 1941, the Somali territories now forming the Republic were placed under British military administration. The Somaliland Protectorate reverted to British Colonial Office rule in 1948 and the former Italian Somaliland was placed under United Nations trusteeship with Italy as the administering authority in 1950. The two territories united to form the independent Republic of Somalia in July 1960. The frontier dispute between Britain and Somalia over the Kenya Northern Frontier District resulted in the breaking off of diplomatic relations by Somalia in March 1963. A further dispute over frontiers with Ethiopia led to fighting in 1964. After an agreement had been reached between Somalia and Kenya in October 1967 to end the border fighting, Somalia resumed diplomatic relations with Kenya and the United Kingdom in January 1968. Relations with Ethiopia have also improved since 1967. On October 15th, 1969, the President of the Republic, Abdi Rashid Ali Shermarke, was assassinated and the police and army seized power. The 1960 constitution was suspended and a new government was formed by a Revolutionary Council. On the first anniversary of the revolution in October 1970 the Head of State, General Siyad declared Somalia a "socialist state".

Government

Government is by the Supreme Revolutionary Council, all former army officers, headed by the President, and a Cabinet of 14 Secretaries of State. A new constitution is being drawn up.

Defence

There is a Regular Army of about 8,000, supplemented by 6,000 police. The Soviet Union is helping to enlarge and modernize the army and to form an Air Force and Navy.

Economic Affairs

The economy is mainly pastoral. Seventy-five per cent of the inhabitants are nomadic, dependent on their flocks of sheep, goats and camels. Settled agriculture, which is limited to the irrigable river valleys, is now being developed. There has been a gradual increase in the cultivable areas along the Shcebeli and Juba rivers, as well as in dry areas. There are two large state farms, financed by the U.S.S.R. Cash crops are grown where rainfall permits, and where irrigation is possible. The economy has been supported by aid from several countries. In 1968

American, German and Italian companies took out exploration concessions for uranium; oil is also being prospected for, and iron ore and bauxite are known to exist in commercial quantities.

Transport and Communications

There are no railways, and roads, though generally poor, provide the principal means of transport. There is an extensive road development programme designed to link north and south and all the main towns and villages. Nomads rely on pack transport. The ports of Mogadishu and Kismayu are connected by regular services with ports of Eastern Africa and Italy. There are airfields at Mogadishu, Hargeisa, Kismayu, Baidoa, Belet-Uen, Galcaio, Bosaso and Burao.

Social Welfare

There is no state system of social insurance but plans are under way for improving social welfare facilities. Medical treatment is free at Government hospitals and dispensaries.

Education

Elementary education and some intermediate education are free for all children able to secure places in Government schools. The illiteracy rate is high (90 per cent) partly because there is as yet no generally accepted orthography for the Somali language. Arabic and English, used in primary and secondary schools respectively, are replacing Italian as the language of instruction. Some 1,500 students are studying abroad and there is a university institute in Mogadishu, a teachers training college and several technical colleges.

Tourism

Tourism in Somalia is relatively undeveloped. There are many places of historical interest including: Merca, Old Amoud, Taleh, Zeila, Mait, and Endisha. There are also good beaches and in the south good shooting grounds.

Sport

Football is the most popular game. Hockey is played in the north only, but basket ball, volley ball and boxing are growing in importance. Shooting and swimming also have their followers.

Public Holidays

1972: April 26 (Mouloud Birth of the Prophet), June 26 (Independence Day), July 1 (Foundation of the Republic), October 24 (UN Day), November 8 (Id ul Fitr).

1973: January 17 (Id ul Adha), February 15 (Ashoura).

Weights and Measures

The Metric System is in force in six provinces and the Imperial System in the two northern provinces.

Currency and Exchange Rates

The currency unit is the Somali Shilling (formerly known as the Somalo) which is divided into 100 Centesimi.

Coins: 1, 5, 10 Centesimi; $\frac{1}{2}$, 1 Somali Shilling

Notes: 5, 10, 20, 100 Somali Shillings

Exchange rate: 17.02 Somali Shillings = £1 sterling.

6.93 Somali Shillings = U.S. \$1.

The frontier dispute between Britain and Somalia over the Kenya Northern Frontier District resulted in the breaking off of diplomatic relations by Somalia in March 1963. A further dispute over frontiers with Ethiopia led to fighting in 1964. After an agreement had been reached between Somalia and Kenya in October 1967 to end the border fighting, Somalia resumed diplomatic relations with Kenya and the United Kingdom in January 1968. Relations with Ethiopia have also improved since 1967. On October 15th, 1969, the President of the Republic, Abdi Rashid Ali Shermarke, was assassinated and the police and army seized power. The 1960 constitution was suspended and a new government was formed by a Revolutionary Council. On the first anniversary of the revolution in October 1970 the Head of State, General Siyad declared Somalia a "socialist state".

Government

Government is by the Supreme Revolutionary Council, all former army officers, headed by the President, and a Cabinet of 14 Secretaries of State. A new constitution is being drawn up.

Defence

There is a Regular Army of about 8,000, supplemented by 6,000 police. The Soviet Union is helping to enlarge and modernize the army and to form an Air Force and Navy.

Economic Affairs

The economy is mainly pastoral. Seventy-five per cent of the inhabitants are nomadic, dependent on their flocks of sheep, goats and camels. Settled agriculture, which is limited to the irrigable river valleys, is now being developed. There has been a gradual increase in the cultivable areas along the Shcebel and Juba rivers, as well as in dry areas. There are two large state farms, financed by the U.S.S.R. Cash crops are grown where rainfall permits, and where irrigation is possible. The economy has been supported by aid from several countries. In 1968

American, German and Italian companies took out exploration concessions for uranium; oil is also being prospected for, and iron ore and bauxite are known to exist in commercial quantities.

Transport and Communications

There are no railways, and roads, though generally poor, provide the principal means of transport. There is an extensive road development programme designed to link north and south and all the main towns and villages. Nomads rely on pack transport. The ports of Mogadishu and Kismayu are connected by regular services with ports of Eastern Africa and Italy. There are airfields at Mogadishu, Hargeisa, Kismayu, Baidoa, Belet-Uen, Galcaio, Bosaso and Burao.

Social Welfare

There is no state system of social insurance but plans are under way for improving social welfare facilities. Medical treatment is free at Government hospitals and dispensaries.

Education

Elementary education and some intermediate education are free for all children able to secure places in Government schools. The illiteracy rate is high (90 per cent) partly because there is as yet no generally accepted orthography for the Somali language. Arabic and English, used in primary and secondary schools respectively, are replacing Italian as the language of instruction. Some 1,500 students are studying abroad and there is a university institute in Mogadishu, a teachers training college and several technical colleges.

Tourism

Tourism in Somalia is relatively undeveloped. There are many places of historical interest including: Merca, Old Amoud, Taleh, Zeila, Mait, and Endisha. There are also good beaches and in the south good shooting grounds.

Sport

Football is the most popular game. Hockey is played in the north only, but basket ball, volley ball and boxing are growing in importance. Shooting and swimming also have their followers.

Public Holidays

1972: April 26 (Mouloud Birth of the Prophet), June 26 (Independence Day), July 1 (Foundation of the Republic), October 24 (UN Day), November 8 (Id ul Fitr).

1973: January 17 (Id ul Adha), February 15 (Ashoura).

Weights and Measures

The Metric System is in force in six provinces and the Imperial System in the two northern provinces.

Currency and Exchange Rates

The currency unit is the Somali Shilling (formerly known as the Somalo) which is divided into 100 Centesimi.

THE REPUBLIC OF SOUTH AFRICA

(REPUBLIEK VAN SUID AFRIKA)

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Republic of South Africa occupies the southern extremity of the African continent. To the north-west lies South West Africa (Namibia), with Botswana and Rhodesia to the north, Mozambique to the north-east, and Swaziland to the east. South African territory encircles the independent state of Lesotho. The climate is warm and sunny, with average temperatures about 63°F (17°C). The official languages are Afrikaans and English; the principal Bantu languages are Xhosa, Zulu and Sotho. The population is mainly Christian. The Dutch Reformed Church embraces 55 per cent of the white population. About a fifth of the Bantu Christians belong to Bantu Separatist Churches and others are Methodists and Anglicans. Most Asians are Hindus. The flag is a horizontal tricolour of orange, white and blue, charged in the centre of the white stripe with the Union Jack, the old Orange Free State flag, and the old Transvaal Vierkleur. The administrative capital is Pretoria, the legislative capital is Cape Town and the judicial capital is Bloemfontein.

Recent History

Following the proclamation of a Republic in May 1961, South Africa withdrew from the British Commonwealth. The aim of government policy is the separate development of all racial and ethnic groups in the Republic and in South West Africa (Namibia), and in 1959 the Promotion of Bantu Self-Government Bill was passed under which Bantu territories are to be developed as self-governing states within the Republic. In January 1962 the Transkei was declared to be the first of the Bantu Homelands to qualify for self-government and late in 1963 the Transkei was given limited internal autonomy (though the state of emergency imposed by the republican government after the 1960-61 revolt remains in force). The policy of separate development or *apartheid* has involved legislation imposing rigid controls over all aspects of the lives of non-whites. On September 6th, 1966, Dr. H. F. Verwoerd, the Prime Minister and National Party leader, was assassinated in the House of Assembly. He was succeeded by B. J. Vorster. In 1967 Malawi decided to recognize South Africa, the first black African country to do so. In the April 1970 general elections the ruling National Party was returned to power but its majority was reduced for the first time since it gained office in 1948. In August 1971 President Banda of Malawi paid a state visit to South Africa, the first African head of state to do so; and in March 1972 President Fouché visited Malawi.

Government

The State President of the Republic is elected by the members of the Senate and House of Assembly. Executive power is carried out by an Executive Council (Cabinet) appointed by the State President. The Senate (54 members) includes representatives of each Province and one representative of the Cape Province Coloured people. Members of the Senate must be white. The House of Assembly (170 members) includes six members representing South West

Africa (Namibia). Members of the House of Assembly must be white. Only whites are allowed to vote. A Coloured Persons Representative Council was introduced in 1969.

The country is divided into four Provinces each having an Administrator appointed by the State President and a unicameral Provincial Council elected by whites. South West Africa (Namibia) is governed by an Administrator appointed by the State President aided by an Executive of four chosen from an elected Assembly of 18 members. In 1963 the first Transkei Parliament was constituted for the Xhosa people.

Defence

All male white citizens from seventeen to sixty-five are liable to military service. The South African Defence Force consists of Regular units of the Army, Navy and Air Force and units of the Citizen Force attached to each arm. The Citizen Force consists of volunteer, part-time officers and non-commissioned officers and ballotees. The regular army has about 5,700 men, compared with about 50,000 in the Citizen Force; the Navy has 3,000 men and the Air Force 4,700. The Citizen Force may be employed on combat duty or in aid of the civil power. A second territorial unit, the Commandos, are voluntary infantry for internal security duties. In the 1968/69 Budget about 16 per cent of expenditure was for defence.

Economic Affairs

South Africa has successfully diversified its economy and about one-third of the national income is now derived from manufacturing. The establishment of the South African Iron and Steel Industrial Corporation (ISCOR) and the South African Coal, Oil and Gas Corporation (SASOL) laid the foundations of the heavy engineering, chemical and petroleum industries. The textile and food processing industries are also growing. Mining still contributes largely to the economy and gold is the most profitable export, accounting for about a third of the total. However, total gold production declined slightly in 1967, and is expected to decline further unless a substantial rise in bullion prices is agreed upon. Uranium is mined with gold. Much of the mining labour force comes from the independent countries outside the Republic, and Lesotho. Industrial development is dependent on the white population for capital, management and higher technical skill, with the non-whites providing most of the unskilled labour force. Much livestock is reared in South Africa and there are valuable fruit, wine and fishing industries. The export of wool, maize, sugar and karakul pelts is important.

Transport and Communications

Railways, ports, airways and harbours are administered by the state. Private omnibus services are regulated to dovetail with the railways. Roads are good and a national highway system is being built. There are many internal and international air services and much ocean shipping traffic, particularly since the closing of the Suez Canal.

SOUTH AFRICA—(INTRODUCTORY SURVEY)

Social Welfare

Social welfare services protect the old, the blind, the war disabled, the unemployed and those injured at work. Medical services are administered by the Provinces. These reach a high standard; the first successful heart transplantation operation was carried out in Cape Town early in 1968.

Education

For Whites, schooling is compulsory from seven to sixteen; for Coloureds it is compulsory from seven to sixteen in Natal and seven to fourteen in the Cape Province where possible; for Indians provision has been made for compulsory school attendance where possible since April 1966. Schooling is not compulsory for the Bantu although four out of five attend school for varying periods. Bantu education is in their own languages, e.g. Zulu, Xhosa, Tswana, Sotho, Venda, Tsonga, and the curriculum is limited.

Tourism

Tourism is an important industry. South Africa's attractions are the climate, the scenery and wild life. The great game reserves, of which the Kruger National Park is the largest, attract thousands of visitors from Europe, America and Africa. There is big game hunting and fishing and native dances and ceremonies.

Visas are not required to visit South Africa by White nationals of Australia, Canada, Ireland, Malawi, Rhodesia,

United Kingdom and Colonies and Zambia, or by nationals of Liechtenstein and Switzerland.

Sport

Sport is very popular, but is strictly racially segregated. Rugby football is the national game but many games are played, such as soccer, tennis, cricket, bowls, golf and baseball.

Public Holidays

1972: May 11 (Ascension Day), May 31 (Republic Day), July 14 (Family Day), September 1 (Settlers' Day), October 10 (Kruger Day), December 16 (Day of the Covenant), December 25 and 26 (Christmas).

1973: January 1 (New Year's Day), April 20-23 (Easter), April 6 (Van Riebeeck Day).

Weights and Measures

The Imperial system is in use, but in 1966 the Government decided to implement the metric system at a future date.

Currency and Exchange Rates

The principal unit of currency is the Rand (R), which is divided into 100 cents.

Coins: 1, 2, 5, 10, 20, 50 cents; R1.

Notes: R1, R5, R10, R20.

Exchange rate: 1.954 Rand = £1 sterling

0.75 Rand = U.S. \$1

THE CONSTITUTION

The Union of South Africa, embracing the Cape Colony, Natal, the Transvaal and the Orange River Colony in a dominion under the British Crown, was established May 31st, 1910. Following the Statute of Westminster of 1931 the South African Parliament in 1934 passed the Status of the Union Act, which defined the Union as a 'sovereign independent state' with eventual right of secession from the Commonwealth. Since then the representation of non-Whites in Parliament has gradually been reduced with the implementation of the policy of 'separate development' (see Bantu Homelands below). In 1936 Cape Africans were removed from the common voters' roll. In 1948 the Indians' right to elect three White representatives under an Act of 1946 was abolished; and a year later the Whites in the mandated territory of South West Africa were given 6 seats in the South African Assembly and 4 in the Senate. In 1956, after the failure of the measure in 1950, a bill to remove the Cape Coloureds from the common voters' roll was passed by a joint sitting of the Assembly and a newly enlarged and reorganized Senate. Africans lost their limited representation in Parliament in 1959. On May 31st, 1961, the Republic of South Africa was established after a majority (849,176) of the 1,633,772 White voters registered their approval in a referendum held in October 1960, and at the same time South Africa left the Commonwealth. The only major change the Republican Constitution made was to substitute a State President for the Queen. English and Afrikaans retained their equal status as the official languages. In 1968 the elimination of the remaining non-White representatives from Parliament, the members elected for the Coloured people, was provided for.

Executive Power

Executive power is vested in a State President, acting on the advice of Ministers of State or the Cabinet, composed of a Prime Minister and 17 other Ministers. The President is elected by an electoral college of members of the Senate and House of Assembly, presided over by the Chief Justice or a Judge of Appeal. He holds office for a seven-year term and is not eligible for re-election unless "it is otherwise decided" by the electoral college. He is Head of State and Commander-in-Chief of the Armed Forces. The Ministers are members of the Executive Council and they are appointed to administer such departments of State as are established by the State President-in-Council. Deputy Ministers, not exceeding eight in number, may be appointed by the State President to assist Ministers in the administration of departments of State. Deputy Ministers are not members of the Executive Council.

Parliament

The Parliament of the Republic consists of the State President, a Senate and a House of Assembly. The State President has power to summon, prorogue and dissolve Parliament, either both Houses simultaneously or the House of Assembly alone. There must be a session of Parliament at least every twelve months.

The Senate

Senators must be nationals of European descent, at least 30 years of age, qualified as voters, and resident at least five years within the Republic.

The Senate, as constituted in December 1965, consists of 54 white members: 41 elected by the electoral colleges of the four provinces (14 for the Transvaal, 11 for the Cape Province, 8 each for the Orange Free State and Natal) and two similarly elected for South West Africa. Eleven mem-

bers are nominated by the State President, two for each of the four provinces and South West Africa (of whom half are chosen for their thorough knowledge of the reasonable wants and wishes of the non-White people) and one special representative of the interests of the Cape Coloured people.

The House of Assembly

Members of the House of Assembly must be nationals of European descent, must be registered voters and resident for at least five years in the Republic. The House of Assembly continues for five years unless previously dissolved.

All White persons over the age of 18 are entitled to vote, except those who have been convicted of treason, murder, or any other offence punishable by a term of imprisonment without option of a fine.

The House consists of 166 White members; 160 directly elected by White citizens, aged 18 years or over, to represent the electoral divisions of the Republic, and 6 similarly elected to represent the electoral divisions of South West Africa.

Representation of Coloureds

The Coloured Persons Representative Council Act of 1964 established a Council for Coloured Affairs whose function is to advise the Government in regard to matters affecting the interests of the Coloured people of the Republic. This Council has become a self-governing body for the Coloured people with extensive legislative and administrative powers and consists of 40 members elected by Coloured voters and 20 nominated members. It is called the Coloured Person's Representative Council. First elections took place in September 1969. All Coloured men and women over 21 are able to vote.

Representation of Bantu

Five of eleven nominated Senators are selected for their thorough acquaintance with the reasonable wants and wishes of the Bantu peoples.

The Native Affairs Act, 1920, made provisions for the establishment in Bantu areas of local and general councils with minor powers of local self-government somewhat on the lines of the Glen Grey District Council (established in 1894) and the district and general councils then functioning in the Transkeian Territories.

The Representation of Natives Act, 1936, transferred Cape Bantu from the same voters' lists as Whites to the Cape Native Voters' Roll and, as a *quid pro quo* for their rights to participate in ordinary elections, empowered them to elect three members of the House of Assembly and two members of the Cape Provincial Council. Special representation for the Bantu population of the Republic as a whole was provided for in that, through electoral colleges, Bantu could elect four Senators to represent their interests in Parliament, and could also elect some members of the Natives Representative Council, established by the Act.

(For development of the Bantustans and present representation of Africans see section at end of chapter.)

Procedure

Money Bills must originate in the House of Assembly, which may not pass a Bill for taxation or appropriation unless it has been recommended by message from the State President during the session. The amendment of money

SOUTH AFRICA—(THE CONSTITUTION, THE GOVERNMENT)

Bills by the Senate is restricted and such Bills, when passed by the House of Assembly in any session, may become law even if the Senate in the same session fails to pass them or passes them with amendments to which the House of Assembly cannot agree. Other Bills, with the exception of those which alter or repeal the provisions of sections 108 and 118 of the Republic of South Africa Constitution Act, may in the event of disagreement between the two Houses, become law after rejection by the Senate in two successive sessions. The provisions of sections 108 and 118 of the Republic of South Africa Constitution Act, relating to the equality of the two official languages of the Republic and the amendment of that Act, may not be altered or repealed unless the Bill embodying the alteration or repeal is passed by both Houses of Parliament sitting together, and at the third reading is agreed to by not less than two-thirds of the total number of members of both Houses.

The State President may assent to, or withhold assent from, a Bill. Two copies of every law, one in English and one in Afrikaans, are to be enrolled on record in the office of the Registrar of the Appellate Division of the Supreme Court of South Africa. In case of conflict between the two copies, that signed by the State President shall prevail.

Each member of each House must make Oath or Affirmation of Allegiance. A member of one House cannot be elected to the other, but a Minister and a Deputy-Minister

may sit and speak, but not vote, in the House of which he is not a member.

Provincial Government

Provision is made for the appointment of an administrator in each province, who holds office for a term of five years. In each province there is also a provincial council consisting of the same number of members as are elected in the province for the House of Assembly, but in no case is the membership to be less than 25. A member of a provincial council ceases to be a member on being elected to either House of the Central Parliament. The powers of the provinces, which relate chiefly to the administration of local affairs (mainly roads, hospitals and education) are subordinate to the powers of the Central Parliament and all provincial ordinances require the consent of the State President-in-Council.

An executive committee of four persons, not necessarily members of the council, together with the administrator as chairman, is elected by the provincial council at its first meeting after each general election. This committee carries on the administration of affairs on behalf of the provincial council. The administrator may, and when required to do so must, act on behalf of the State President-in-Council in regard to all matters in respect of which no powers are reserved or delegated to the provincial council.

JUDICIAL SYSTEM

The common law of the Republic of South Africa is the Roman-Dutch law, the uncodified law of Holland as it was at the time of the cession of the Cape in 1806. The law of England is not recognized as authoritative, though the principles of English law have been introduced in relation to civil and criminal procedure, evidence and mercantile matters. In all other matters, however, Roman Dutch law prevails.

The Supreme Court consists of an Appellate Division; three Provisional Divisions in the Cape Province, one Provincial and one Local Division in each of the provinces

of Transvaal and Natal and one Provincial Division in the Orange Free State and South West Africa. Except for the fact that the local divisions in the Transvaal and Natal have no jurisdiction to hear appeals, they exercise within limited areas the same jurisdiction as Provincial Divisions.

The provinces are further divided into districts and regions with Magistrates' Courts, whose criminal and civil jurisdiction is clearly defined. From these courts appeals may be taken to the Provincial and Local Divisions of the Supreme Court, and thence to the Appellate Division.

Broadcasting in South Africa is carried on exclusively by the South African Broadcasting Corporation, a public utility organization established on 1 August 1936 in terms of the Broadcasting Act No. 22. In 1949 the Act was amended to empower the SABC to broadcast to South-West Africa and to foreign countries. The SABC derives its revenue from two sources: listeners' licences and the sale of time on its advertising services.

Licences (1970): 2,014,311.

Radio South Africa: all-night service from 12.00 midnight to 5.00 a.m.

Radio Bantu: broadcasts in Zulu, Xhosa, Southern Sotho, Northern Sotho, Tswana, Tsonga, Venda, Ndonga, Kuanyama, Nama/Damara and Herero.

R. D. RAMSAY; 10,400 subscribers (1962).

TELEVISION

In April 1971 the Government accepted the essentials of the report of the Commission of Inquiry into Television, set up in December 1969. The Government approved in principle the introduction of a statutorily controlled television service, which would respect the Christian values of South Africa and the social structure of its various communities.

Services will begin in 1975, and will be run by the South African Broadcasting Corporation. Initially there will be a service of about 37 hours a week on one channel only, in English and Afrikaans. Later a decision will be taken on separate services in English, Afrikaans and the main Bantu languages.

TRADE UNIONS

The Industrial Conciliation Act of 1956 provides for the registration of Trade Unions and Employers' Organizations, for the establishment of Industrial Councils on which employers and employees have equal representation and for the settlement of disputes by conciliation and arbitration. The Act provides for the setting up of racially separate Trade Unions. In cases where separate Unions cannot be formed the mixed Unions must divide into separate branches for each race, while the Union Executive must be composed of white members only. The same act also prohibits the affiliation of Trade Unions with political parties. The Native Labour (Settlement of Disputes) Act, 1953, prohibits strikes by African workers and gives the Native Labour Officer ultimate authority in settling disputes involving such workers. African trade unions are not officially recognized by the Government. The only trade union federation with a high proportion of African members, the South African Congress of Trade Unions (f. 1955), which is completely non-racial, has been severely hampered by government bannings and detentions under the Suppression of Communism Act. The Trade Union Council of South Africa (TUCSA), which lost 14 member trade unions during 1968 after it reaffirmed its policy on African workers, decided in February 1969 to debar Africans from membership.

South African Confederation of Labour—SACL: P.O.B. 31105, Braamfontein; f. 1957 (reconstituted 1968); allows affiliation by Federations as well as individual white unions; largest co-ordinating body for the labour movement, representing approx. 200,000 workers, Pres. L. J. v. D. BERG; Hon. Sec. C. P. GROBLER.

PLANS FOR DEVELOPMENT

(For the position of Africans before 1951 *see* earlier section, The Constitution.)

The Bantu Authorities Act, 1951, disestablished the Natives' Representative Council, which had refused to meet since 1949, and created in the Bantu homelands tribal, regional and territorial authorities which have administrative, executive and judicial functions and which are intended to form the basis for political development to full autonomy. The United Transkeian Territories General Council (UTTGC or *Bunga* voted in 1955 to accept in principle the Bantu Authorities system, and in the following year it transformed itself into the Transkeian Territorial Authority. (For further developments in the Transkei *see* below, The Transkei.)

The Commission on the Socio-Economic Development of the Bantu Areas, which was set up in 1950 under the chairmanship of Prof. F. Tomlinson to prepare a long-term plan for "separate development", submitted its report to the Government in October 1954. It found that of the 13 per cent of the total land area of the Republic which forms the Native Reserves some 30 per cent of the land was badly eroded and a further 44 per cent moderately eroded. It also reported that per capita income had declined over the previous twenty years and that only the earnings of Africans in white areas had maintained Africans in the Reserves at subsistence level. It therefore recommended that some 50 per cent of the existing population in the Reserves be removed from agricultural land and 50,000 jobs a year be created for 25 years in the Reserves outside agriculture (in commerce and manufacturing). (Between mid-1959 and mid-1966, it has been estimated, only a few thousand new jobs were created by the Bantu Investment Corporation.) The Commission also proposed that white capital be allowed to invest in the development of the Reserves, given the paucity of resources available to Africans themselves. The Government preferred to accept a minority view on the Commission and rejected this proposal, establishing what later became the Bantu Investment Corporation with an initial capital of £500,000. The Government made it clear that industrial development in the Reserves was to be left to Africans themselves when it stated that development depended on the principle of "self-aid". From 1956 on the Government also followed a policy of building up border industries. Generous incentives, like the reduction of the minimum wage, were offered to white industrialists to move their concerns to the white fringes of the borders with the Reserves, where it was assumed, though not realised in practice, that African workers would be able to cross the borders back to their homes at reasonable intervals.

The total expenditure the Tomlinson Commission recommended to develop the Reserves and to achieve parity between whites and Africans in the white areas by the year 2000 was £104 million. Between 1956 and 1961 the Government actually spent £7.9 million on development in the Reserves. The first "development plan" for the Reserves allocated R.114,342,000 for the period 1961-66 (*see* table below). Nearly R.76 million was for "houses and development of villages". These were the townships for the workers in the white border industries or for Africans evicted from their previous homes in

"white" areas and "resettled" in the Reserves. Much of the remainder of the total expenditure was earmarked for improving the badly eroded soil. In the second "development plan", 1966-71 (*see* table below), the two largest items were "physical development" and "education". The first item, allotted R.162 million, again largely consisted, as far as can be ascertained, of the costs of resettlement. (By early 1969 the Government stated that about 900,000 "redundant, non-economically active Bantu in our white areas" had been "eliminated" and settled elsewhere since 1959, and that at least 216,000 had been resettled in the Johannesburg area alone.) The second item, education (R.163 million), largely corresponded with the total expenditure planned for all Bantu education in the Republic in that period.

APARTHEID LEGISLATION

The Bantu Self-Government Act, 1959, which repealed the Representation of Natives Act, 1936, thus abolishing the limited representation of Africans in Parliament and the Cape Provincial Council, accepts the natural division of the African population into eight national units in the Republic and its vicinity. These units, beginning with a system of tribal, regional and territorial authorities may eventually become self-governing in their respective areas, although this does not necessarily mean that there will be eight territorial authorities or regional parliaments. The Act also provides for appointment of Commissioners-General to represent the Government at each of these national units and to aid the Bantu rulers in achieving this end. The Transkei Territorial Authority was set up in 1960 and those for people of the Ciskei and the Tswanas (Western Transvaal and Northern Cape) were established in 1961. In January 1962 it was announced that the Xhosa nation of the Transkei would be the first of the Bantu peoples to qualify for self-government—the next step to independence. The new Transkei Constitution was agreed to in March 1962. (*See* below, The Transkei.)

In January 1967 it was announced that the North Sotho people, living in the northern Transvaal, would have five departments of government to control the affairs of their Homeland. Matters passing from the control of the Republic Government were education, finance, justice, public works, agriculture, forestry and community development. Later it was announced that detailed attention was also being given to the transfer of management and administrative powers to the Tswana people, the Xhosa of the Ciskei, the South Sotho, the Venda and the Tsonga.

The removal of all representatives of non-Whites from Parliament and the establishment of separate non-White authorities has been accompanied by legislation (mostly passed since the advent of the National Party to power in 1948) designed to enforce separation between the different racial groups.

By the Natives Land Act, 1913, and the Natives (Urban Areas Consolidation) Act, 1945 (and amendments), Africans may not acquire urban land, being limited to land in the reserved areas, which constitute about 14 per cent of the total land area of the Republic. The Population Registration Act of 1950 requires every person over 16 to carry an identity card signifying the holder's racial group, which is determined by local race-classification boards,

SOUTH AFRICA—(THE BANTU HOMELANDS)

chaired by magistrates. Personal relationships between people of different racial groups are regulated as criminal offences under the Prohibition of Mixed Marriages Act, 1949, and the Immorality Act, 1957, while total residential separation of Whites, Asians, Coloureds and Africans in urban areas is enforced by the Group Areas Act, 1950 (amended and consolidated 1957), and the Natives (Urban Areas Consolidation) Act, 1945, which also limit Asians to trading in Asian areas only. In addition these acts lay down that no African may stay in an urban area for more than 72 hours without the permission of the local Native Labour Officer. Entry into an urban area by an African is, in any case, regulated by the pass system, whose basis is the Natives (Abolition of Passes and Co-ordination of Documents) Act, 1952, and which requires an African to hold a permit to enter an urban area (where he must have secured employment) and a permit to leave his previous area. The Native Labour Officer is also, under the Native Labour (Settlement of Disputes) Act, 1953, supreme in handling industrial disputes involving African workers. The same Act prohibits strikes by Africans; while the Native Building Workers Act, 1951, and the Industrial Conciliation Act, 1956, established the principle of job-reservation (already effective in the mining industry) by which skilled work is mainly reserved for Whites.

Separate public amenities, which need not be of equal quality, are provided for under the Reservation of Separate Amenities Act, 1953, and the prevention of joint worshipping by Whites and Africans is a provision of the Native Laws Amendment Act. Education of the African, and the training of his teacher, is completely state-controlled.

A number of Acts, notably the Bantu Administration Act, 1927, as amended, and the Native (Urban Areas Consolidation) Act, 1945, as amended, render Africans liable to executive and administrative decisions without provision for recourse to the law courts for possible redress. In addition political and trade union organization by Africans has been made impossible (as has any effective non-African opposition organization) by laws like the Suppression of Communism Act, 1950, as amended, the General Law Amendment Act, 1963, and the Criminal Procedure Act, 1965, as amended, which give the President and Minister of Justice wide discretionary powers that cannot be challenged in a court of law. The Suppression of Communism Act defines communism as any doctrine expounded by Lenin, Trotsky, the Comintern or the Cominform, or a "doctrine which aims at bringing about any political, industrial, social or economic change within the Union by the promotion of disturbances or disorder, by unlawful acts or omissions or by means which include the promotion of disturbance or disorder, or such acts or omissions or threat".

CONSTITUTION

Although the *Bunga* had voted to accept the Bantu Authorities system in 1955, the imposition of this system, along with other grievances such as soil conservation schemes and increased taxation, resulted in violent opposition by the people, beginning in February 1960. There was a full-scale revolt in East Pondoland, and in November the Government introduced a state of emergency which has been in force ever since. No meeting can take place without the permission of the Bantu Commissioner; free speech is restricted; entry and exit in the Transkei is strictly controlled; chiefs have the power to apprehend persons described as "communists" by the Minister of Bantu Administration. (For definition of communism see Apartheid Legislation above). In January 1961 the Government stated that 4,769 Africans had been arrested in Pondoland and 2,067 actually tried; 25 Africans had been murdered in Pondoland, two of whom were chiefs; and 15 Africans had been killed by the police in "self-defence". Most of the troops were withdrawn in May 1961.

Despite the state of emergency in the first Bantustan election ever held, the elections in the Transkei in November 1963, 38 of the 45 elected members supported the anti-Government chief, Victor Poto, and only 7 the pro-Government candidate, Kaizer Mantanzima. However, when the full Assembly, including 64 chiefs, met, Mantanzima was elected Chief Minister, by 54 votes to Poto's 49. The 14 chiefly votes of East Pondoland are thought to have been crucial. The Paramount Chief there, Botha Sigcau, was the first chief to accept the Bantu Authorities and was given police protection during the revolt.

The Constitution of the Transkei was promulgated in the South African Parliament in May 1963, and came into

force in December of the same year. The main provisions are:

Legislative Assembly: Consists of the four Paramount chiefs of the Transkei, the 60 chiefs holding office in the nine regional authority areas, and 45 members who are elected by all Transkeian subjects whether resident in the territory or in South Africa or South West Africa. The Chief Minister and the five Ministers are elected by secret ballot by the members of the Legislative Assembly.

The Legislative Assembly has the power to make laws in connection with the various government functions it controls. The laws then go to the Commissioner-General for submission, through the Minister for Bantu Administration and Development, to the State President. The State President may either give his assent or refer the bill back to the Legislative Assembly.

The Legislative Assembly meets at least once every year, and subject to the provisions of the act granting the Transkei self-government, "there will be freedom of speech and debate in the assembly". Subject to standing rules and orders, debates are to be conducted in public.

Powers: The Transkei Government has control over its own affairs apart from foreign affairs, defence, internal security, part of the administration of justice and economic development. There are ministries of finance, justice, the interior, education, agriculture and forestry, roads and works.

Under the section listing the "classes of matters" over which the Transkei Government has no power are: "The control, organization, administration, powers of entry into and presence in the Transkei of any police force of the Republic charged with the maintenance of public peace and order and the preservation of internal security and the safety of the Transkei and the Republic".

SOUTH AFRICA—(THE TRANSKEI)

Personnel: Some white employees of the Republican Government have been placed at the disposal of the Transkeian Government but they will remain on the establishment of the Republican Government. They will be progressively replaced by suitable Bantu employees of the Transkei Government (of a Civil Service of 2,820 posts, 2,740 were filled by Bantu in 1966).

Zoning of Areas: The Constitution provides for the zoning of towns and villages in the Transkei under the jurisdiction of municipalities, village management boards, or local boards, for occupation and ownership by the Bantu. This provision was put into effect in 23 Transkei towns and villages, or in certain parts of them, in January 1966.

Justice: An elaborate system of courts provides for the administration of justice in the Transkei. It includes courts under the jurisdiction of the Republican Government. The jurisdiction of any court transferred to the Transkei does not include jurisdiction over anybody who is not a Transkei citizen.

The State President may constitute a high court of the Transkei similar in function, constitution and jurisdiction to the Supreme Court of South Africa. Appeals go from the High Court of the Transkei to the Appellate Division of the Supreme Court of South Africa. The Transkei High Court is to take over the functions of the Bantu appeal and divorce courts. It is also involved in matters of Bantu law and custom.

Finance: The Transkei Government is financed by various forms of revenue including taxation of all Xhosa, both inside the Transkei and outside. In addition to this, the Republican Government grants the Transkei enough money (about R13 million a year) to cover the administration of all departments handed over to the Transkei.

The Tswana, Zulu, South Sotho (near Lesotho), the people of the Ciskei (near the Transkei) and the Ovambo (in South West Africa/Namibia) are, by stages, being given institutions similar to those of the Transkei. The North Sotho, Shangaan, Venda and, in Namibia, the Kavango and Damara are also to be given similar authorities.

SOUTH WEST AFRICA (NAMIBIA)

South West Africa is a mandated territory administered by South Africa. In 1966 the UN General Assembly terminated the League of Nations mandate and set up a committee to recommend means by which the territory should be administered. The South African Government, which does not recognize this committee, has established a Bantustan, similar to the Transkei, for the Ovambo people of South West Africa, and intends to establish similar authorities for the other main tribal groups like the Kavango and Damara. The UN on June 12th, 1968, renamed the Territory "Namibia". The South African Government has refused to allow the UN Committee on Namibia to enter the Territory. In June 1971 the International Court of Justice ruled that South Africa's presence in the Territory is illegal.

ADMINISTRATION

The administration of South West Africa is vested by Mandate of the League of Nations, dated December 17th, 1920, in the Government of South Africa. The Territory was granted a constitution in 1925. The government consists of an Administrator appointed by the State President of the Republic, a Legislative Assembly of eighteen elected members and an Executive of four members chosen by the Assembly from its own ranks. The Parliament of the Republic is the supreme legislative authority and the Republic government is the chief executive authority. The South West Africa Legislative Assembly has wide powers except in matters of defence, railways and harbours, civil aviation, native affairs and certain legal affairs.

In 1949 the South African Parliament passed the South West African Affairs Amendment Act by which South West Africa was authorized to elect six members to the South African House of Assembly, and two members to the South African Senate. Two further senators are appointed by the State President. Non-Whites are not part of the Electorate for the South West Africa Legislative Assembly.

In October 1966 South Africa's *security and apartheid* laws were applied to the Territory, retrospective to 1950.

The tribal areas, including Ovamboland, occupy about a quarter of the total land area in the north of the Territory. The other three-quarters of the land, including that containing most of the mineral resources, is occupied by the White population, with the exception of some small African reserves. Land in the northern tribal areas can be allocated by the Government for European settlement, provided land of equivalent value is reserved for Africans in compensation, but non-Whites cannot purchase land in White locations. Permission to enter such locations is given only to non-Whites contracted as labourers for a set period. Permits are also required by non-Whites to travel from one non-White area to another and to reside anywhere in the Territory, including the tribal areas. Any breach of these regulations is treated as a criminal offence. In the tribal areas the Commissioners, responsible to the Administrator, have ultimate authority over the non-White population and over their chiefs and headmen, who are paid allowances by the Government.

The United Nations have made annual recommendations that, as a former League of Nations Mandate, South West Africa should be placed under United Nations Trusteeship.

In 1950 the International Court of Justice advised that South Africa was not under a legal obligation to place South West Africa under the trusteeship system of the United Nations Organization. However, the court proceeded to hold unanimously that the mandate survived the dissolution of the League of Nations. It held further that the United Nations had, on the dissolution of the League of Nations, become vested with supervisory powers in respect of the mandate.

This opinion was followed by two further advisory opinions in 1955 and 1956, both of them concerned with the interpretation of the 1950 opinion.

In 1960 the governments of Ethiopia and Liberia, acting in the capacity of states which were members of the former League of Nations, brought before the International Court of Justice various allegations of contraventions of the League of Nations mandate for South West Africa by the Republic of South Africa. Final judgement was given on 18th July, 1966, when the International Court rejected the application of the plaintiff states on the grounds that they could not be considered to have established any legal rights or interests in the subject matter of their claims on South West Africa.

In June 1971 the International Court of Justice ruled that South Africa's presence in the Territory was illegal and that she should withdraw immediately. In December 1971 there was a widely observed strike in Windhoek of Ovambo contract labourers. Their withdrawal to Ovamboland in the north of the Territory and the widespread outbreaks of opposition to the Government that followed led to a declaration of a state of emergency in Ovamboland. No visitors or reporters were allowed into the area and many arrests were made.

HOMELANDS

The Odendaal Commission in 1964 recommended setting up ten Homelands for the major non-White peoples:

Homeland	Population*
Ovamboland . . .	239,363
Okavangoland . . .	27,871

Tswanaland . . .	9,992

* For 1970 figures see Statistical Survey.

The Ovambo Legislative Council of up to 42 members (nominated by the territory's seven tribal authorities) was formally opened in October 1968. There is also a seven-man Executive Council. The Bantustan's powers are similar to those of the Transkei, though there is no provision for elections. In 1970 Kavango also obtained a Territorial Authority.

SPANISH SAHARA

INTRODUCTION

Spanish Sahara lies on the Atlantic coast of North Africa, with Morocco to the north and Mauritania to the east and south. There is also a small boundary with Algeria. While the economic prospects are bright, with the colony likely to become the world's leading producer of phosphates, Spanish Sahara is virtually a military colony. Between 10,000 and 20,000 Spanish troops are stationed there, though there are only about 30,000 settled, as against nomadic, inhabitants. Opposition to the colonial régime has grown in recent years. At the beginning of 1969 a movement for the liberation of Sekia el Hamra and Río de Oro was formed. Known as *Sidam* in Arabic, the movement is reported to have been responsible for the anti-Spanish demonstration in El-Aaiún in June 1970 during which Spanish troops killed at least 10 civilians.

Just before this, Morocco, Mauritania and Algeria had agreed on a common policy towards the liberation of Spanish Sahara, and in December of the same year the UN Committee on Trusteeship and the Non-Self-Governing Territories called on Spain to hold a referendum as soon as possible in Spanish Sahara so that the indigenous population could exercise its right to self-determination. It was reported in November 1971 that clashes between Spanish troops and members of the liberation movement had led to repressive measures by the Spanish authorities against certain sections of the population.

THE SUDAN

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Democratic Republic of the Sudan is the largest country in Africa. Its border with Egypt to the north is the second cataract of the Nile; Khartoum is at the junction of the Blue Nile and White Nile. To the east is Ethiopia and the Red Sea, to the west the Central African Republic and Chad, and to the south Kenya, Uganda and Zaire. The climate shows a marked transition from the desert of the north to the rainy equatorial south. Temperatures vary with height and latitude. The overall average is about 70°F (21°C). Arabic is the main language but English is widely understood. Most Sudanese are Muslims with animists as the next largest group. There is a Christian community of about 270,000. The flag consists of three horizontal bands of blue, yellow and green. The capital is Khartoum.

Recent History

The Sudan became an independent republic with a parliamentary system in 1956. Following a *coup d'état* in 1958 the Army took control of the state, suspending Parliament and abolishing political parties. A Supreme Council of the Armed Forces was set up and ruled until October 1964, when it was overthrown in a civilian revolution. The governments which followed failed to improve the economic situation or to deal with the problem of the southern provinces, and in May 1969 the Mahgoub government was overthrown by a group of officers and civilians led by Col. (later Maj.-Gen.) al Nemery. All existing political institutions and organizations were abolished and the "Democratic Republic of the Sudan" was proclaimed with supreme authority in the hands of the National Revolutionary Council. A more militant policy towards Israel was adopted and, in line with this, co-ordination committees with the U.A.R. and Libya were established in December 1969. In November 1970 the Presidents of the U.A.R. and Libya and President Nemery agreed in principle to political union between their countries, but internal opposition to Nemery prevented Sudan joining the Federation of Arab Republics which was formed in September 1971 with Syria as the third member.

On July 19th, 1971, a section of the army, led by communists, overthrew the Nemery régime. Twenty-eight officers and N.C.O.s were executed. Col. Babakr al Nur was proclaimed head of state. However, while Col. al Nur and his assistant, Maj. Farouk Hamadallah, were returning from London to take command of the revolution, the BOAC plane carrying them was forced to land in Libya. They were taken off, and the Libyan Government later handed them over to President Nemery, who had regained power in a counter-coup three days after being ousted. A massive purge of communists followed, and fourteen people were executed almost immediately. Apart from Maj. Hachem al Atta, who set the coup in motion in Khartoum, and the two leaders back from London, the Communist Party's Secretary-General, Abdel Khalik Mahgoub, the Secretary-General of the Federation of Sudanese Workers' Union, Shafieh Ahmed el Sheikh, and

Joseph Garang, were all eliminated after secret trials before a military tribunal. The purge brought condemnation in unusually forthright terms from the Soviet and East European governments.

In a referendum held in October 1971 to confirm Gen. Nemery's nomination as President, Nemery received almost four million votes, with only 56,000 "no" votes. A new government was formed, the Revolution Command Council was dissolved, and the Sudanese Socialist Union was recognized as Sudan's only political party.

From May 1969 onwards the Nemery government had made attempts to settle the problem of the three racially and culturally different southern provinces, where rebellion against rule from the north had first broken out in 1955. Fighting continued until March 1972, when a ceasefire was agreed between the two sides and a draft Regional Constitution for the Southern Sudan promulgated by President Nemery.

Government

Under the Provisional Constitution introduced in August 1971, a People's Assembly will be summoned to draft and ratify a permanent constitution. The President of the Republic is elected for six years, and presides over the Council of Ministers.

The new Regional Constitution for the Southern Sudan grants the three southern provinces of Sudan a large degree of autonomy from the central government.

Defence

The armed forces comprise the Army, Air Force and Navy and total about 20,000. Sudan has a defence agreement with the Arab League Unified Military Command. In 1966 Yugoslavia agreed to supply men and materials to assist in building a Sudanese navy.

Economic Affairs

Since the 1969 revolution the economy has become increasingly nationalized, including the cotton industry.

Long-staple cotton, grown under irrigation, is overwhelmingly Sudan's most valuable export. The principal food crop is millet, but coffee, tobacco, rice and sugar are also grown. Nomadic tribes breed cattle, sheep, goats and camels. The vast forest areas provide timber and 80 per cent of the world's supply of gum arabic (an important export). Industry is confined mainly to the manufacture of food and vegetable oils. The 1961/62-1970/71 plan had as its main objects an increase in agricultural output, the establishment of industries for import substitution, improvements in education and social services and a higher rate of increase in national income than population growth. Two dams are under construction on the Atbara river and the Blue Nile.

Transport and Communications

There are 2,750 miles of railways owned by the state. Generally roads are only cleared tracks impassable immediately after rain. Hard-surfaced roads are no longer

SUDAN—(INTRODUCTORY SURVEY, STATISTICAL SURVEY)

confined to urban areas. Highways from the capital to the provinces are under construction and plans have been drawn up for a network of highways in the Western Sudan. Sudan Railways operate passenger and freight steamer services on navigable reaches of the Nile. These are linked to the railway services of Egypt, Uganda and Kenya. Sudan Airways, the Government airline, maintains internal and external services.

Social Welfare

The Ministry of Health organizes the public health services. There are 81 hospitals, 60 health centres, 1,244 dispensaries and over 500 doctors.

Education

The Government provides elementary education from the ages of seven to eleven, intermediate from ages eleven to fifteen and secondary from fifteen upwards. In 1967 there were 3,359 schools and about 600,000 pupils. Pupils from secondary schools are accepted at the University of Khartoum, subject to their reaching the necessary standards. Cairo University also has a Khartoum Branch and there is an Islamic University at Omdurman.

Tourism

The rain forests in the south teem with wild game and attract hunters and observers from all over the world. In

the north are the sites of several temples and pyramids of ancient Sudanese civilizations.

Sport

Football is the most popular game. Sudanese athletes have competed at the Olympic and the Pan Arab and African Games.

Public Holidays

1972: April 26 (Birth of the Prophet), May 25 (Anniversary of the May Revolution), October 21 (Anniversary of the Revolution), November 8 (Ramadan Bairam), December 25 (Christmas).

1973: January 1 (Independence), January 17 (Kurban Bairam), February 6 (Muslim New Year), April 16 (Sham el Nassim).

Weights and Measures

The Metric System is gradually replacing traditional weights and measures.

Currency and Exchange Rates

The monetary unit is the Sudanese Pound = 100 Piastres = 1,000 Milliemes.

Coins: 2, 5, 10 Piastres; 1, 2, 5, 10 Milliemes.

Notes: 1, 5, 10 Sudanese Pounds; 25, 50 Piastres.

Exchange rate: 0.867 Sudanese Pounds = £1 sterling
0.35 Sudanese Pounds = \$1 U.S.

THE SUDAN—(THE CONSTITUTION, THE GOVERNMENT)

THE CONSTITUTION

In December 1955 a Transitional Constitution was adopted, under which the highest authority was vested in a Supreme Commission of five members, who were responsible for appointing the Prime Minister and his Cabinet from amongst the members of Parliament.

This Transitional Constitution was suspended following the military *coup d'état* of 1958, but the provisional Government which took office after the overthrow of the military regime in October 1964, announced its intention of governing under the terms of the 1955 Constitution.

The Constituent Assembly, whose term had been extended in 1968, was abolished by the new regime in May 1969.

A Provisional Constitution was introduced by the Revolutionary Command Council in August 1971. A People's Assembly, including various categories of the people's working forces, will be called to draft and ratify a permanent constitution. The Provisional Constitution

states that the President of the Sudanese Democratic Republic will be elected for a maximum term of six years and will be Supreme Commander of the Armed Forces. He will be empowered to appoint two or more Deputies.

Under the Regional Constitution for the Southern Sudan, the three southern provinces will form a single region, with its own regional executive in Juba headed by a president who will also be a Vice-President of the whole Republic. The regional executive will be responsible for all matters outside national defence, external affairs, communications, currency and foreign trade regulation. The regional President will be appointed by and responsible to a regional People's Assembly, although, pending the election of such an assembly, he will be appointed by Pres. Nemery after consulting representative southern Sudanese. The Constitution can be amended only by a four-fifths majority of the central People's Assembly, where southerners will be proportionally represented.

JUDICIAL SYSTEM

The administration of justice is the function of the Judiciary, as a separate and independent department of state. The general administrative supervision and control of the Judiciary is vested in the Chief Justice.

Civil Justice: is administered by the Courts constituted under the Civil Justice Ordinance, namely the High Court of Justice—consisting of the Court of Appeal and Judges of the High Court, sitting as Courts of original jurisdiction—and Provincial Courts—consisting of the Courts of Province and District Judges.

Criminal Justice: is administered by the Courts constituted under the Code of Criminal Procedure, namely Major Courts, Minor Courts and Magistrates' Courts. Serious crimes are tried by Major Courts which are composed of a President and two members and have power to pass the death sentence. Major Courts are as a rule presided over by a Judge of the High Court appointed to a Provincial Circuit, or a Province Judge. There is a right of appeal to the Chief Justice against any decision or order of a Major Court and all findings and sentences of a Major Court are subject to confirmation by him.

Lesser crimes are tried by Minor Courts consisting of three Magistrates and presided over by a Second Class Magistrate and by Magistrates' Courts consisting of a single Magistrate, or a bench of lay Magistrates.

Local Courts: try a substantial portion of the Criminal and Civil cases in the Sudan and work in parallel to some extent with the State Courts.

Chief Justice: UTHMAN AS SAYID.

MUHAMMADAN LAW COURTS

Justice in personal matters for the Muslim population is administered by the Muhammadan Law Courts, which form the Sharia Division of the Judiciary. These Courts consist of the Court of Appeal, High Courts and Qadis' Courts, and President of the Sharia Division is the Grand Qadi. The religious Law of Islam is administered by these Courts in matters of inheritance, marriage, divorce, family relationships and charitable trusts.

Grand Qadi: Sheikh YAHYA ABDEL GASIM.

RELIGION

The majority of Sudanese are vigorous followers of Islam—it will be remembered that the Mahdi of 1896 was a religious leader—but some communities in the south remain untouched by Islam and practise animism or fertility worship. The cultural contrast between the Muhammadan north and centre, and the non-Muslim south, with differences in race, language, religion and outlook, gives rise to one principal political problem of the Sudan. According to a 1955 survey the religious adherence of the population was as follows:

Muslim	6,474,453
Animist	2,428,703
Catholic	162,745
Protestant	94,981
Orthodox	12,525
Jewish	380

The population has since grown by some 50 per cent, so these figures should probably be increased proportionately.

The Sudan Gezira Board is responsible for Sudan's main cotton producing area. Starting in 1911 as a company enterprise, it was nationalized in 1950 and has since then been run by a Board of Directors, consisting of 8 to 11 members. In 1969 the Revolutionary Government formed a temporary Board of Directors consisting of six officials and a tenant farmers' representative pending an extensive reorganization of the Board.

The Gezira Scheme represents a partnership between the Government, the tenants and the Board. The Government, which provides the land and is responsible for irrigation, receives 36 per cent of the net proceeds; the tenants (who numbered about 100,000 in 1971 and who do the actual cultivation) receive 49 per cent. The Board receives 10 per cent, the local Government Councils in the Scheme area 2 per cent and the Social Development Fund, set up to provide social services for the inhabitants, 3 per cent.

The total possible cultivable area of the Gezira Scheme is over 5 million acres and the total area under systematic irrigation is now almost 2 million acres. In addition to cotton, groundnuts, sorghum, wheat and millet are grown for the benefit of tenant farmers.

TRANSPORT AND TOURISM

TRANSPORT

RAILWAYS

Sudan Railways: Atbara; Gen. Man. ISMAIL HUSSEIN.

The total length of railway in operation is about 4,756 route-kilometres. The main line runs from Wadi Halfa, on the Egyptian border to El Obeid, via Khartoum. Lines from Atbara and Sennar connect with Port Sudan on the coast. Since independence two new lines have been built, one from Sennar to Roseires on the Blue Nile (225 km.), opened in 1954 and one from Aradeiba to Nyala, in the south-western province of Darfur (689 km.), opened in 1959. A railway branching from this line, at Babanousa, to Wau in Bahr el Ghazal province (445 km.), has now been completed.

The construction of the Egyptian High Dam has flooded the Wadi Halfa. The U.A.R. proposes to operate river services in the Wadi Halfa/Aswan reach by deep-draught vessels suitable to sail in the big lake so created.

ROADS

Ministry of Public Works: P.O.B. 300, Khartoum; Dir. of Works IBRAHIM MOHD IBRAHIM.

Roads in the Northern Sudan, other than town roads, are only cleared tracks and often impassable immediately after rain. Motor traffic on roads in the Upper Nile Province is limited to the drier months of January-May. There are several good gravelled roads in the Equatoria and Bahr-el-Ghazal Provinces which are passable all the year round, but in these districts some of the minor roads become impassable after rain.

The through route from Juba to Khartoum is open from mid-November to mid-April.

Over 30,000 miles of tracks are classed as "motorable", but only 208 miles are asphalt.

INLAND WATERWAYS

Ministry of Communications: Khartoum.

The total length of navigable waterways served by passenger and freight services is 4,068 km. From the Egyptian border to Wadi Halfa and Khartoum navigation is limited by cataracts to short stretches but the White Nile from Khartoum to Juba is navigable at almost all seasons. The Blue Nile is not navigable.

The Sudan Railways operate 3,700 km. of steamer services on the navigable reaches of the Nile, touching Juba, Gambeila, Wau, Shellal (in Egyptian territory), and Dongola. These services connect with the Egyptian main railway services and the Nile river services of Kenya and Uganda.

SHIPPING

Sudan Railways: Atbara; responsible for operating Port Sudan.

Port Sudan, on the Red Sea, 490 miles from Khartoum, is the only seaport. There are eleven fully equipped berths, with a total length of 5,718 feet, and two secondary berths. There are also two berths with a total length of 1,200 feet.

River Navigation Corporation: Khartoum; f. 1970; jointly owned by the U.A.R. and Sudan governments; operates services between Aswan and Wadi Halfa.

Sudan Shipping Line: P.O.B. 426, Port Sudan; f. 1960; four vessels operating between the Red Sea, North Europe and the United Kingdom; Gen. Man. YOUSUF BAKHEIT ARABI.

CIVIL AVIATION

Sudan Airways: Gamaa Ave., P.O.B. 253, Khartoum; f. 1947; this airline is owned by the Sudan Government; regular services throughout the Sudan and external services to Aden, Chad, Ethiopia, U.A.R., Greece, Italy, Lebanon, Libya, Saudi Arabia, and the U.K.; Charter and Survey based at Khartoum; fleet of 2 Co et 4C, 4 Fokker Friendship F-27A, 1 DC-3, and 3 Twin Otters; Gen. Man. M. E. ABDEL DAYEM.

The Sudan is also served by the following foreign air lines: Aeroflot, Alitalia, Balkan, BOAC, EgyptAir, Ethiopian Air Lines, Interflug, Lufthansa, MEA, Saudi Arabian Airlines and Swissair.

SWAZILAND

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Kingdom of Swaziland is bounded on the north, west and south by the Republic of South Africa's Transvaal province and by the Natal province and Mozambique on the east. It has four geographic regions—the Highveld (average height 4,000 ft.), Middleveld (2,000 ft.) and Lowveld (700 ft.), which extend longitudinally north and south throughout the country in roughly parallel belts between five and 30 miles broad, and the Lubombo (1,800 ft.), an impressive escarpment which is only 12 miles across at its widest part. Rainfall ranges from 40 to 90 inches a year on the Highveld to between 20 and 25 inches in the sub-humid Lowveld. English and siSwati are the official languages. Some 60 per cent of the population are Christian. The national flag has crimson, yellow and blue bands with a traditional Swazi shield in the centre. Mbabane is the administrative capital and Lobamba, for long the traditional capital of the Swazi people, is to become the country's legislative capital.

Recent History

Swaziland's first constitution, drafted by Britain, was published in May, 1963, and the general election to choose members for the first Legislative Council was held in June the following year. It resulted in an overwhelming victory for the Imbokodvo National Movement, which supports the traditional Swazi way of life allied to progressive evolution. From the very first meeting of the council, the Imbokodvo pressed for a revised constitution and this eventually resulted in the country being given internal self-government on April 25th, 1967. Simultaneously Britain changed the country's status to that of a protected state, with the King of the Swazis (*Ngwenyama*) recognised as King of Swaziland and Head of State. At General Elections in April 1967 the Imbokodvo National Movement won all seats in the new National Assembly. Britain's protection continued until Swaziland became independent on September 6th, 1968. Swaziland is a member of the Commonwealth, the UN and the Organization of African Unity.

Government

The executive authority is vested in the King and is exercised through a Cabinet presided over by the Prime Minister and consisting of the Prime Minister, the Deputy Prime Minister and up to eight other Ministers. Parliament consists of the Senate and the House of Assembly. The House of Assembly has 30 members—24 elected from 8 three-member constituencies, and 6 appointed by the King—and the Attorney-General, who has no vote. The Senate has 12 members, 6 elected by the House of Assembly and 6 appointed by the King.

Economy

Sugar is the principal item in the economy and the 1968 crop was in the region of 150,000 short tons. The marketing

arrangements with South Africa was terminated on December 31st, 1964, and Swaziland became a member of the Commonwealth Sugar Agreement with an Overall Quota of 123,200 short tons and, within that, a Negotiated Price Quota of 95,200 tons. Cattle form the main wealth of the Swazi people, while wood pulp, citrus, cotton, rice and maize are important agricultural products. There are considerable mineral reserves, especially asbestos, iron ore and coal. Iron ore is the country's main export and in 1968 sales of this commodity (all to Japan) were worth R.11,828,400. Manufacturing industries are concerned mainly with processing agricultural, livestock and forestry products. In 1964 the territory's first industrial estate was opened at Matsapa and several secondary industries have become established there.

Sugar and woodpulp and other forest products account for about 40 per cent of all exports and asbestos and iron ore for a little more than that. British private investment and grants-in-aid from the British Government help to balance the annual budget.

Transport and Communications

The 136-mile Swaziland railway runs from the iron ore mine at Ngwenya, near Mbabane, on the western border through the middle of Swaziland to the Mozambique border near Goba, where it connects with the Mozambique line to the port of Lourenço Marques. There are two spur lines to the Matsapa Industrial Estate, near Manzini. Swaziland has 835 miles of main roads, of which 100 miles are tarred and the balance gravel surfaced, and 715 miles of gravel or earth surfaced secondary roads. The main airport is at Matsapa, near Manzini, and there are scheduled flights three times a week to Johannesburg and Durban and twice a week to Lourenço Marques.

Education

There are 351 primary schools with a total enrolment of more than 69,000. In 1970 there were more than 8,000 pupils in secondary classes. There are 7 government secondary schools, in addition to the two national schools, and 22 grant-aided schools. Two institutions, both in Manzini, train primary school teachers. Post-secondary education is provided by the University of Botswana, Lesotho and Swaziland, which is in Lesotho. Vocational and other training is provided by the Swaziland Industrial Training Institute, the Swaziland Agricultural College and University Centre and the Government's Staff Training Institute. There is also a police college.

Public Holidays

Weights and Measures

The Imperial system of weights and measures is in use at present, but Swaziland plans to convert to the metric system at the same time as South Africa.

Currency

South African currency is used in Swaziland. One rand (R) is divided into 100 cents.

Coins: 1, 2, 5, 10, 50 cents: R.1.

Notes: R.1, R.5, R.10.

THE CONSTITUTION

The 1967 constitution, which gave the country internal self-government, was designed to take Swaziland into independence with only a few alterations, and these were agreed to by both the British and Swaziland Governments at the Independence Conference held in London in February 1968.

The constitution seeks to maintain a non-racial state in which everyone will be treated equally without discrimination, regardless of race, colour or creed, and securing to everyone freedom and justice and inviolability of their property.

The King of Swaziland, called the *Ngwenyama* (the Lion) in siSwati, is Head of State. If the King is absent from Swaziland or incapacitated, the Queen Mother—*Ndlovukazi* (She-Elephant)—acts in his place. Succession is governed by Swazi law and custom. The executive

authority is vested in the King and exercised through a Cabinet presided over by the Prime Minister and consisting of him, the Deputy Prime Minister and up to eight other ministers.

Parliament consists of the Senate and the House of Assembly. The House of Assembly has the exclusive power to initiate legislation on taxation and financial matters. Parliament has no power to legislate in respect of Swazi law and custom, unless authorized by the Swazi National Council. The Senate has power to initiate legislation on matters other than taxation and finance and Swazi law and custom.

The Swazi National Council, which consists of the King, the Queen Mother and all adult male Swazi, advises the King on all matters regulated by Swazi law and custom and connected with Swazi traditions and culture.

SYRIA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Middle Eastern state of Syria lies on the Mediterranean Sea with Turkey to the north, Iraq to the east and Jordan to the south. The Lebanon and Israel are to the south-west. Much of the country is mountainous and semi-desert. The coastal climate is hot in summer with mild winters. The inland plateau and plains are hot and dry but cold in winter. The national language is Arabic, with Kurdish a minority language. More than 80 per cent of the population are Muslims but there is an important Christian minority of various sects. The flag is a horizontal tricolour, red, white, black, the central stripe being charged with three five-pointed green stars. The capital is Damascus.

Recent History

In February 1958 Syria united with Egypt to form the United Arab Republic but following an army *coup d'état* in September 1961 Syria seceded and formed the independent Syrian Arab Republic. After a short period of civil rule a further army *coup* took place in March 1962 followed by a third in March 1963. Further changes of government in 1963 brought the army leader General El-Hafez to the Presidency of the National Revolutionary Council, with a predominantly Baath party cabinet under his own premiership. Since that time the economy has been centralized. The Baath (Arab Nationalist) party is still in power, though divided into factions. In February 1966, after a number of cabinet changes, the army, in a violent *coup d'état* instigated by Baathist extremists, deposed the government of President Hafez, replacing him by Dr. Noured-dine al Atassi. However, in November 1970, after a bloodless *coup*, the military (moderate) wing of the Baath party seized power, led by General Hafez Assad, who was elected President in March 1971. The border tension between Syria and Israel became increasingly severe after March 1962 with a series of armed conflicts and was a major influence leading to the six-day war which broke out on June 5th, 1967. The Israelis advanced into Syria and occupied the town of Quneitra before a cease-fire was agreed to under UN supervision on June 11th. Israel still occupies the Golan heights, and guerrilla raids and limited air battles continue in the area. Syrian Al Saiqa commandos have taken an active part in the Lebanese guerrilla movement. In September 1971 Syria joined with Egypt and Libya to form the Federation of Arab Republics.

Government

Syria has a Republican form of Government with an appointed President and a Council of Ministers. In February 1971 a People's Council was formed, the first legislative body since 1966 when the National Assembly was dissolved.

Defence

Syria has an army, navy and air force. The strength of the Army is officially estimated at 75,000, the Navy at 1,750 and the Air Force at 10,000. Para-military forces

now number about 250,000. National service is compulsory, and lasts for two and a half years except for persons with special qualifications, who serve for one and a half years. Syria is a member of the Arab League Unified Military Command. The U.S.S.R. is the principal supplier of arms, and the Soviet fleet makes frequent use of the port at Latakia. Defence expenditure for 1970 was estimated at £5,840 million.

Economic Affairs

About 70 per cent of the population are engaged in agriculture, which provides some 30 per cent of the national income. Wheat and cotton, quantities of which are exported, are the chief crops. Oil has been discovered in the north-east, and oil exports began in 1968. Textiles and food processing are the most important industries. Aleppo and Damascus are thriving commercial centres, and revenue from the transit trade to Iraq, Jordan and the Lebanon, and from the oil pipelines which pass through Syria help to cover the trade deficit. Rationing of supplies was introduced in 1963 to combat hoarding and monopolies. Many foreign companies and private businesses have been nationalized. The second five-year plan (1966-70) provided for the investment of £4,995 million to finance the development of transport, communications, power and certain key industries. Of the total investment 67.46 per cent came from local sources and 32.54 per cent from foreign governments, almost all Soviet and East European. The first stage of the Euphrates dam, also financed under the plan, is being paid for by the U.S.S.R., which is also providing over 300 technicians to direct construction. The third five-year plan (1971-75) provides for capital investment of £5,290 million, mostly allocated to the public sector.

Transport and Communications

Railways run from Damascus to Homs, Hama and Aleppo and to Beirut in the Lebanon and Amman in Jordan. There is a line from Homs to Tripoli in the Lebanon, and lines from Aleppo to Turkey and Iraq. There is a network of 6,000 km. of main roads and all the principal towns are connected by road. The chief ports are Banias, the oil terminal, and Latakia. The Iraq Petroleum Company's oil pipeline from Iraq crosses Syria to Banias. The Arabian American Oil Co. pipeline (TAPLINE) from Saudi Arabia crosses Syria to Sidon in the Lebanon. International services to Damascus and Aleppo are provided by Syrian Airways and major foreign companies.

Social Welfare

State hospitals provide free medical care for persons unable to afford private medical attention. Old age pensions, and other benefits, are provided by law.

Education

The government aims to provide sufficient schools to ensure universal primary education. In 1967 about 750,000 children received primary education and over 200,000 secondary education. There are universities at Damascus and Aleppo.

THE CONSTITUTION

The constitutional position remained confused after the dissolution of the union with Egypt in 1961 until the promulgation of a new Provisional Constitution in May, 1969. This declared that "the Syrian Arab region will constitute a democratic, popular and socialist republic" in which the Baath will be the sole political party. A People's Assembly will be the supreme power in the state, and it will choose the Head of State and ratify laws. The republic will have a planned socialist economy but private property rights will be respected. In practice much power lies in the hands of the Baath Party, especially its sixteen-member leadership committee and its nine-member Political Bureau.

Amendments to the Provisional Constitution were announced by the Baath Party Regional Command on February 16th, 1971. The President of the Republic is elected for seven years by referendum in which an absolute

majority must be obtained. He is Commander-in-Chief of the Armed Forces. He appoints one or more Vice-Presidents, the Prime Minister and other ministers, and can dismiss them. The President can reject laws emanating from the People's Council within 15 days of receiving them, but has to approve them if the People's Council passes them a second time with a two-thirds majority. The President also has the power to dissolve the Council, but has to appoint a new one within 60 days on the advice of the Baath Party Regional Command.

The People's Council sits for two years and is selected by the Baath Party Regional Command. The Council is to draw up a new, permanent constitution, and selects the presidential candidate from among the Baath Party Regional Command. It also discusses government policy and can withdraw its support from any cabinet or minister.

The present railway system is composed of the following network:

Meydan Ekbez (Turkish frontier) - Aleppo; Çobanbey (Turkish frontier) - Aleppo; Qamishliya (Turkish frontier) - Jaroubieh (Iraq frontier); Aleppo - Homs; Homs - Koussair (Lebanese frontier); Homs - Akkari (Lebanese frontier); there are 555 km. of normal gauge and 313 km. of narrow gauge track. Lines from Latakia to Aleppo and Djezira and from Tartous to Akkari are under construction.

Syrian Railways:

Northern Lines: 248 km.

Southern Lines: 295 km.

Hejaz Railways (narrow gauge): 301 km. in Syria; the historic railway to Medina is the subject of a reconstruction project jointly with Jordan and Saudi Arabia, but little progress has been made since the June 1967 war.

ROADS

Syrian roads may be divided into three main categories; the arterial roads, the secondary roads and the minor roads or tracks.

Arterial roads run across the country linking the north to the south and the Mediterranean to the eastern frontier. The main arterial networks are as follows: Sidon (Lebanon) - Quneitra - Sweida - Salkhad - Jordan border; Beirut (Lebanon) - Damascus - Khan Abu Chamat - Iraq border - Baghdad;

Tartous - Tell Kalakh - Homs - Palmyra; Banias - Hama - Salemie; Latakia - Aleppo - Rakka - Deir ez-Zor - Abou Kemal - Iraq border; Tripoli (Lebanon) - Tartous - Banias - Latakia - Turkish border - Antakya; Amman (Jordan) - Dera'a - Damascus - Homs - Hama - Aleppo - Azaz (Turkish border); Haifa (Palestine) - Kuneitra - Damascus - Palmyra - Deir ez-Zor - Hassetché - Kamechlie.

Earth roads: 6,000 kms.

Touring Club de Syrie: P.O.B. 28, Aleppo; f. 1950; the principal Syrian motoring organization; Pres. ALFRED GIRARDI.

PIPELINES

The three pipelines which cross Syrian territory are of great importance to the national economy, representing a considerable source of foreign exchange. One of the pipelines runs from the Iraq Petroleum Company's installations in Kirkuk to Tripoli in the Lebanon, cutting through approximately 300 miles of Syrian territory. Another line also crosses Syria en route to Sidon (Lebanon). The third line runs from Kirkuk through Homs to the port of Banias. The pipelines achieved a record throughput in 1968, each carrying over 20 million tons of oil; the combined total was over 73 million tons.

TAIWAN

(REPUBLIC OF CHINA)

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Republic of China consists of the Island of Taiwan (Formosa), the nearby Pescadores islets, and the islands of Quemoy and Matsu close to the Chinese mainland. Taiwan itself lies 200 miles from the coast of South East China. The average temperature is 73°F (23°C) and the average annual rainfall 101 inches. The official language is Mandarin Chinese. The predominant religion is Buddhism and there are Muslims, Catholics and Protestants. Confucianism has a large following. The flag consists of a white sun in a blue sky on a crimson background. The capital is Taipei, at the northern end of the island.

Recent History

The Government of the Republic moved to Taiwan in 1949 after the Communists' accession to power on the mainland. The Head of State is the President, General Chiang Kai-shek. In 1954 a mutual security pact was signed by which the U.S.A. pledged the protection of Taiwan and the Pescadores; in 1955 the offshore islands of Quemoy and Matsu were included in the protected area. The Republic which still claims to be the legal government of all China is recognized by a number of countries, but lost its permanent seat on the UN Security Council and was expelled from the UN in October 1971. Diplomatic relations with countries that now recognize the People's Republic of China (including Canada, Chile, France and Italy) have been broken off.

Government

The Head of State is the President, who is elected for terms of six years by the National Assembly. There are five Yuans (governing bodies), the highest legislative organ being the Legislative Yuan, to which the Executive Yuan is responsible. There are also Control, Judicial and Examination Yuans. Elections are by universal adult suffrage.

Economic Affairs

The economy is progressing towards self-sufficiency, and U.S. aid which totalled \$69 million in 1961 was discontinued in 1965. Trade is chiefly with the U.S.A., Japan and South-East Asia, the most important exports being sugar, bananas, processed foodstuffs, textiles, minerals and metal goods. Cement production is the main industry. Mineral resources include coal, marble and salt. A Four-Year Plan (1969-72) aims to increase G.N.P. by 40 per cent, with a projected annual economic growth rate of 7 per cent. G.N.P. per capita is now amongst the highest in Asia.

Defence

The armed forces total 600,000 men (Army 400,000, Air Force 80,000, Navy 60,000 and other forces 60,000). Under the system of compulsory service, men serve two years in the Army, or three in the Navy or Air Force, at nineteen. Much of the equipment and some training staff are provided by the U.S.A.

Transport and Communications

There are 3,838 km. of railway and 15,300 km. of roads. The ports of Keelung, Hualien and Kaohsiung handled more than 25 million tons of cargo in 1970. The Sungshan airport is used by 12 domestic and international airlines.

Social Welfare

The Labour Security Programme covers more than a fifth of the population and provides benefits for injury, disability, birth, death and old age. Government employees are covered by a special scheme.

Education

Elementary education is free and compulsory between the ages of six and fifteen. In 1970-71 about one out of every four persons in the Republic was a student. There are 8 universities and 83 independent colleges and junior colleges.

Tourism

Festivals, ancient art treasures and the island scenery are the principal attractions; over 473,000 tourists visited Taiwan in 1970.

Visas are required by all visitors.

Sport

The most popular sports are basketball, baseball and swimming. About 20 national sports associations belong to the China National Amateur Athletic Federation.

Public Holidays

1972: September 28 (Birthday of Confucius), October 10 (Double Tenth Day), November 12 (Birthday of Sun Yat-Sen), December 25 (Constitution Day).

1973: January 1 (Founding of the Republic), Chinese New Year.

TANZANIA*

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The United Republic of Tanzania consists of Tanganyika and the islands of Zanzibar and Pemba. Tanganyika lies on the east coast of Africa with Uganda and Kenya to the north, Zaire to the west and Zambia, Malawi and Mozambique to the south. Parts of Lake Victoria and Lake Tanganyika are within Tanzanian Territory. Zanzibar and its sister island Pemba are situated in the Indian Ocean about 25 miles off the coast north of Dar es Salaam. The climate varies with altitude, ranging from tropical in Zanzibar and on the coast and plains to semi-temperate in the highlands. The official languages are Swahili and English and there are a number of tribal languages. There are Christian, Hindu and Muslim communities. Many Africans follow traditional beliefs. The flag is a diagonal tricolour of green, black and blue, the stripes being separated by gold bands. The capital is Dar es Salaam.

Recent History

Formerly a United Nations Trusteeship Territory under British administration, Tanganyika became independent in 1961. The first general election was held in 1958, and in 1960 Julius Nyerere became Chief Minister when his party, the Tanganyika African National Union (TANU), won 70 of the 71 seats in the National Assembly. In 1962 Tanganyika became a Republic and Mr. Nyerere the first President. Zanzibar, a British Protectorate since 1890, became independent in 1963. Following an armed uprising by the African Afro-Shirazi Party in January 1964, the Zanzibar Government signed an Act of Union with Tanganyika in April 1964, thus creating the United Republic. At General Elections in October 1965 and October 1970, President Nyerere was re-elected by 96.5 and 97 per cent of the votes respectively. Tanzania is a member of the East African Community (established December 1967 with Uganda and Kenya) and of the British Commonwealth. In June 1968 Britain ended all financial and technical aid to Tanzania after it had been announced that Tanzania would cease to pay pensions to British officials who worked for the pre-independence governments of Tanganyika and Zanzibar. However, in July 1968 diplomatic relations with Britain, broken off in December 1965 over the Rhodesian issue, were resumed. Tanzania's relations with Uganda became strained after the downfall of the Obote régime in January 1971. There were several border incidents during the year, and the running of the East African Community was hampered until the mediation of President Kenyatta of Kenya helped improve Tanzanian-Ugandan relations at the end of 1971. In April 1972 Sheikh Karume, leader of Zanzibar and First Vice-President of the United Republic, was assassinated. Aboud Jumbe was later appointed his successor.

Government

An Interim Constitution, making the mainland a one-party state, was introduced in 1965. Executive power is in the hands of a President, who is elected by universal suffrage. The legislative organ is the unicameral National

Assembly of up to 204 members who translate into action the policy of TANU as decided by the National Executive of the Party. A Presidential election must be held whenever the Assembly is dissolved and new Assembly elections held. The country is divided into 20 Regions each with a Commissioner. Chiefs wishing to hold official posts must relinquish their tribal authority. There are no reserved seats for Europeans and Asians under the new Constitution.

Defence

The People's Defence Forces in Tanzania were formed in 1961 and consist of units of the former Tanganyika Rifles and the People's Liberation Army of Zanzibar. There is no conscription. Total armed forces were estimated at 1,800 in 1966. A Tanzanian Air Force is being established to replace the air wing of the army.

Economic Affairs

The economy is agricultural and most of the farming is at subsistence level. Only a small proportion of the country's extensive livestock is sold commercially. The chief cash crops are sisal, sugar, cotton and coffee. Cloves are grown on the islands, chiefly on Pemba. Diamonds are an important export and other minerals include gold, tin and salt. Textiles, food processing and other industries have been established. The Arusha Declaration of February 1967 on national self-help and the implementation of socialism is having a continuing impact on the economy. The Second Five-Year Plan (1969-74) provides for a total investment programme of 8,085 million sh. Over half of the Government's contribution of 3,055 million sh. has been allocated to the development of the communications infrastructure and agriculture. A new convention between Tanzania, Uganda, Kenya and the EEC, signed in October 1969, provides for quotas for exports of coffee, cloves and pineapples to the EEC.

Transport and Communications

Railways and harbours are administered jointly with Uganda and Kenya and the services include lake shipping. There are 2,000 miles of railways and about 30,000 miles of roads. An intergovernmental authority, the Tanzania-Zambia Railway Authority, has been formed to deal with the proposed rail link between the two countries which a Chinese team hopes to complete in five years. Sweden, the World Bank and the International Development Association are financing the rebuilding of 310 miles of the Tanzam Highway, a 1,200-mile road running from central Zambia to Dar es Salaam. The three main sea ports are Dar es Salaam, Tanga and Mtwara and the chief port on Lake Victoria is Mwanza. Air services link the towns and international air transport is provided by East African Airways Corporation (operated jointly by Tanzania, Uganda and Kenya) and foreign lines. There are also private and charter services and the larger farms and plantations have their own aircraft.

TANZANIA—(INTRODUCTORY SURVEY, STATISTICAL SURVEY)

Social Welfare

The state-sponsored Rural Development Division exists to improve educational, labour and health conditions in small communities. The state operates hospitals and health centres and Christian Missions also provide medical care.

Education

Most schools receive state aid, the remainder being organized by missions and other voluntary agencies. There are not yet enough schools to provide universal primary education. The University College of Dar es Salaam forms part of the University of East Africa.

Tourism

The principal tourist attractions are the scenery and wild life. The famous Serengeti National Park contains a great variety of game, and hunters and safari-parties come from all over the world. Mount Kilimanjaro (19,340 ft.) is the highest mountain in Africa.

Visas are not required to visit Tanzania by nationals of the United Kingdom and Commonwealth.

Sport

Organized sports include football, cricket, athletics and tennis. There is big game hunting, fishing and swimming.

Public Holidays

1972: April 26 (Birth of the Prophet, Maulidi), May 1 (International Workers Day), July 7 (Saba Saba Day), November 8 (Id ul Fitr), December 25 (Christmas).

1973: January 1 (New Year's Day), January 12 (Zanzibar Revolution Day), January 17 (Id ul Adha), April 20-23 (Easter), April 26 (Union Day).

Weights and Measures

The metric system is in force.

Currency and Exchange Rates

The currency unit is the Tanzanian Shilling of 100 Cents, introduced on June 14th, 1966.

Coins: 5, 10, 50 Cents; 1 Tanzanian Shilling

Notes: 5, 10, 20, 100 Tanzanian Shillings

Exchange rate: 18.65 Tanzanian Shillings = £1 sterling

THE CONSTITUTION

Tanganyika became a Republic, within the Commonwealth, on December 9th, 1962, with an executive President, elected by universal suffrage, who is both the Head of State and Head of the Government. A presidential election will be held whenever Parliament is dissolved. Tanzania is governed as a democratic society in which the Government is responsible to a freely-elected Parliament, representative of the people, and in which the courts of law are independent and impartial.

The structure of the legislative, executive and judicial organs of the Government are set out in the Interim Constitution of 1965, which made provisional constitutional arrangements for the Union between Tanganyika and Zanzibar.

The legislative powers are exercised by a Parliament of the United Republic, which is vested by the Constitution with complete sovereign powers, and of which the present National Assembly is the legislative house. The Assembly also enacts all legislation concerning the mainland. Internal matters in Zanzibar are the exclusive jurisdiction of the Zanzibar executive and the Revolutionary Council of Zanzibar.

The National Assembly comprises 107 Elected Members, 20 *ex-officio* Members (the Regional Commissioners) 15 National Members elected by statutory bodies, 10 Members appointed by the President, up to 32 Members of the Zanzibar Revolutionary Council, and up to 20 other Zanzibar members appointed by the President in agreement with the President of Zanzibar. Provision is made for the total to reach 204 members.

The President has no power to legislate without recourse to Parliament. The assent of the President is required before any Bill passed by the National Assembly becomes law. Should the President withhold his assent and the Bill be re-passed by the National Assembly by a two-thirds majority, the President is required by law to give his assent within 21 days unless, before that time, he has dissolved the National Assembly, in which case he must stand for re-election.

To assist him in carrying out his functions the President appoints two Vice-Presidents from the elected members of the National Assembly. The First Vice-President is also the President of Zanzibar. The Second Vice-President, who is chosen from the elected members of the National Assembly, is the leader of Government business in the Assembly. The Vice-Presidents and ministers comprise the Cabinet, which is presided over by the President.

The independence of the judges is secured by provisions which prevent their removal, except on account of misbehaviour or incapacity, after investigation by a judicial tribunal. The Interim Constitution also makes provision for a Permanent Commission of Enquiry which has wide powers to investigate any abuses of authority.

Members of Parliament are elected for five years unless the President dissolves Parliament at an earlier date. Appointed members of Parliament hold their seats until dissolution unless their appointments are revoked by the President. The President must stand for re-election each time Parliament is dissolved. The Presidential candidate is chosen by an electoral convention of TANU and the Afro-

TANZANIA—(THE CONSTITUTION, THE GOVERNMENT)

Shirazi parties. Their choice is then presented to the people for confirmation by a yes-no vote. If the convention's first choice is rejected by a majority of the voters, another candidate must be chosen and submitted to the vote.

Mainland Tanzania is divided into 107 constituencies, although for the 1970 elections another 13 are being created. In each of these areas TANU, the official party, puts forward two candidates chosen by the TANU membership. Then all adult citizens of the area, whether TANU members or not, vote to decide which of the candidates will represent them in Parliament. The constitution of TANU is incorporated as part of the Interim Constitution.

The National Executive of TANU is the supreme policy making body of the Party and the Government subject only to approval of a biannual National Conference, but it is the role of the National Assembly to translate party policy into legislation. The assembly deliberates independently and has on occasion amended or refused to approve government proposals.

The National Executive is a parallel body to the National Assembly and its members are democratically chosen by party members throughout the country. Both National Executive and National Assembly members are paid at the same rate from government funds.

The Afro-Shirazi party plays a similar role in Zanzibar and Pemba, giving effect to its policies through the Zanzibar Revolutionary Council.

The Constitution also makes provision for the attainment of citizenship in accordance with the principles already approved by the National Assembly.

The Constitution can be amended by an act of the Parliament of the United Republic, when the proposed amendment is supported by the votes of not less than two thirds of all the members of the Assembly.

ARUSHA DECLARATION

The Arusha Declaration of February 1967 (approved by the National Executive Committee of TANU at the end of January) laid down that every TANU and Government leader must be a peasant or a worker; that no such leader should hold shares or directorships in any company; that no leader should receive two or more salaries; and that no leader should own houses rented out to others. In addition, the Declaration urges the Government to take further steps in the implementation of the policy of socialism, especially in ensuring that the major means of production are under the control and ownership of the peasants and workers (through the Government and the co-operatives); to put emphasis on national self-reliance rather than depending on foreign loans and grants for development, and to put great emphasis on raising the standards of living of the peasants.

CO-OPERATIVES

The co-operative movement plays a central role in the Tanzanian economy handling almost all of the country's exports (except sisal) and a substantial portion of the domestic economy. By far the largest portion of its activities are involved with the marketing of agricultural produce but the co-operative movement has made some preliminary incursions into the transport, wholesale, and retail field and has been granted exclusive import licences in some commodities.

The movement is composed of some 1,670 primary marketing societies under the aegis of about 40 co-operative unions. The Co-operative Union of Tanganyika is the national organization (affiliated with the ruling TANU party) to which all unions belong.

THAILAND

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Thailand is situated in South-East Asia and extends far south down the narrow Kra peninsula to Malaya. It is bordered to the west and north by Burma, to the north-east by Laos and to the south-east by the Khmer Republic. The climate is tropical and humid with an average temperature of 85°F (29°C). The language is Thai. Hinayana Buddhism is the predominant religion and there are a number of Muslim Malays in the south. There is a Christian minority, mainly in Bangkok and the north. The flag consists of horizontal stripes of red, white, blue, white and red, the central blue stripe being twice the width of the others. The capital is Bangkok.

Recent History

Formerly known as Siam, Thailand took its present name in 1948. Marshal Pibulsonggram assumed power after a coup in 1947 but was himself overthrown in 1957. A further coup a year later established a military junta under Marshal Sarit Thanarat; martial law was declared and all political parties dissolved. Following the death of Field-Marshal Sarit in 1963 General Thanom Kittikachorn became Prime Minister. After ten years of military rule, a constitution was introduced in June 1968. Seven political parties secured seats in the parliamentary elections of February 1969, the majority being won by the party formed by the military government.

Following renewed Communist insurgency and internal political unrest Field Marshal Kittikachorn proclaimed military rule in November 1971.

In 1961 Thailand joined with Malaya and the Philippines to form the Association of South East Asia (ASA) and, in August 1967, these three countries joined with Indonesia and Singapore to form the Association of South East Asian Nations (ASEAN). Thailand is also a member of the United Nations, the Colombo Plan, the South East Asia Treaty Organization (SEATO) and the Asian and Pacific Council (ASPAC).

Government

Thailand is a constitutional monarchy. The King is Head of State and appoints the executive authority, the Council of Ministers, who must not be members of parliament. The bicameral parliament comprises a Senate of 164 members, appointed by the King, and a House of Representatives of 219 members, elected for four years by direct adult suffrage. The country is divided into 71 Changwat (provinces), each under a Governor. With the inauguration of military rule, the government now comprises a 6-man National Executive Council.

Defence

The Armed Forces total 175,000, Army 130,000, Navy 21,500, Air Force 23,500. Military service lasts two years between the ages of twenty-one and thirty. In 1970 U.S. servicemen totalled 32,000 and has remained at this level to date. Twelve thousand Thai troops serving in South Viet-Nam were withdrawn in July 1971.

Economic Affairs

Agriculture contributes 30 per cent of gross domestic product. About one-fifth of the total area of the country is under cultivation and some four-fifths of the working population are engaged in agriculture. Thailand is the largest rice exporter in the world (over 1.5 million tons annually); rubber, kenaf and tapioca products are also valuable export items; and maize production and export have risen steeply in recent years, in response to government encouragement. Forestry and fisheries are important elements in the economy. Of a variety of minerals extracted, tin is the most important; others are lignite, wolfram, lead, antimony, manganese, gypsum, iron ore, fluorite and marl, and there are hopes that oil explorations will prove successful. Thailand is self-sufficient in cement, refined sugar and refined petroleum, and light manufacturing industries are of some significance in the economic structure. Many industries have been established to manufacture products using domestic raw materials. Work is expected to be completed in late 1972, on the Sirikit Dam in the Uttaradit province of northern Thailand which will be capable of producing 1,000 kwh of electricity per year. An oil pipeline is to be built across the Kra Isthmus linking the Indian Ocean with the Gulf of Thailand.

The economy is organized along free-enterprise lines, with the private sector contributing about 85 per cent of gross national product. The Third Development Plan (1972-76) envisages an annual growth rate of 7.0 per cent. Of Baht 100,275 million to be spent on development projects under the Plan, 69,500 million is to be raised through the budget, 13,854 million from state enterprises and local authorities and 16,930 million from foreign grants and loans.

Transport and Communications

There are 8,207 km. of state railways which have been extended and modernized with the help of a World Bank loan of U.S. \$22 million. There were approximately 10,250 miles of roads in 1970. The port of Bangkok is an important ocean junction in South-East Asia and also serves Laos. Baht 430 million has been allocated to improve Klong Toey which includes the building of a deep-water quay. Air transport is provided by Thai Airways, Thai Air International and numerous foreign lines.

Social Welfare

A new Labour Law became effective in April 1972 which establishes minimum wage rates, authorizes the Ministry of the Interior to rule on labour disputes and, where necessary, impose fines or terms of imprisonment.

Education

Education between the ages of seven and fifteen is compulsory, wherever possible. There are approximately 30,000 schools, 5.8 million students and 188,000 teachers. There are seven universities.

Provincial Courts (*Sarn Changuad*): Exercise unlimited original jurisdiction in all civil and criminal matters, including bankruptcy, within its own district which is generally the province itself. Two judges form a quorum. At each of the five Provincial Courts in the South of Thailand where the majority of the population are muslims (i.e., Pattani, Yala, Betong, Satun, and Narathiwat), there are two Dath Yutithum or Kadis (muslim judges). A Kadi sits with two trial judges in

order to administer Islamic laws and usages in civil cases involving family and inheritance where all parties concerned are muslims. Questions on Islamic laws and usages which are interpreted by a Kadi are final.

COURT OF APPEALS

Sarn Uthorn: Appellate jurisdiction in all civil, bankruptcy and criminal matters; appeals from all of the Courts of First Instance throughout the country come to this Court. Two judges form a quorum.

SUPREME COURT

Sarn Dika: The final court of appeal in all civil, bankruptcy and criminal cases. The quorum in the Supreme Court consists of three judges. The Court sits in plenary session occasionally to determine cases of exceptional importance and cases where there are reasons for reconsideration or overruling of its own precedents. The quorum for the full Court is half the total number of judges in the Supreme Court.

CULTURAL AFFAIRS

One of the main aspects of the Thai cultural background and development has been the Buddhist religion of the majority of the inhabitants. The tolerance shown by Buddhists allowed complete freedom of religion in Thailand; Islam was introduced to the southern part of the country between the fourteenth and eighteenth centuries, Christianity came in the sixteenth century and the many Chinese immigrants brought their own religions of ancestor worship and Confucianism. These various religions, and to a certain extent their cultural traditions, have existed peaceably side by side and the tolerance shown to religions also shows itself towards foreign contacts. Trade contacts began in the middle of the thirteenth century and Europeans established trade contacts early in the sixteenth century. The Thai people have shown a remarkable ability to assimilate other nationalities—especially Chinese, of which

Thailand has a large, integrated section—and yet preserve their own nationality, in spite of varying external pressures.

The written language has been influenced by, and in turn has influenced, Mon and Khmer. The influence of Buddhism on Thai life is also seen in the development of the literature of the country, a large proportion of early literary works being Buddhist-inspired. Verse was the general medium of literary expression until the last century, and one of the richest fields is the folk literature, which was passed on only by word of mouth.

Thai theatre has many traditional faces. The most ancient forms are the Hun and the Nang; Hun is a type of elaborate marionette theatre, with the story sung or recited by a singer, with chorus and musical accompaniment; Nang is a shadow drama, again with singer and chorus. Both of these have popular forms, with less elaborate figures and more modern stories. Classical drama originally came to Thailand from India. There are two main categories, the Khon and the Lakhon. The Khon was originally an epic religious manifestation, but it has been adapted to a certain extent; the characters, all men, wear masks and the story is told by a reciter, though a singing chorus is sometimes introduced. The Lakhon characters, men or women, but not acting together, do not wear masks, except when portraying demons, animals, etc.; the action is sung by a chorus, with a leader. Traditional music is closely bound up with Thai drama, with stylized, unvarying "action" and "singing" tunes played by a traditional orchestra of at least five players.

Popular festivals and ceremonies still held today have been a common manifestation of Thai culture for many centuries; the majority are of a religious nature, connected with the various phases of the life of Buddha.

REPUBLIC OF TOGO

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Republic of Togo lies on the coast of West Africa forming a narrow strip stretching north to Upper Volta with Ghana to the west and Dahomey to the east. The climate is hot and humid, temperatures averaging 80°F (27°C) on the coast and 97°F (30°C) in the drier north. The official language is French and there are a number of native tongues. The majority of the population follow animist beliefs; there are about 300,000 Christians and 75,000 Muslims. The flag consists of five stripes of alternate green and yellow, with a red section in the upper hoist charged with a white star. The capital is Lomé.

Recent History

Formerly a United Nations Trust Territory administered by France, Togo became an autonomous republic within the French Union in 1956 and achieved independence in 1960.

The leading political figure and first President of Togo, Sylvanus Olympio, was assassinated by military insurgents early in 1963 and Nicolas Grunitzky returned from exile to become President. In May 1963 a popular referendum approved his appointment and elected a new National Assembly from a single list of candidates. Togo is a member of the United Nations, the Organization for African Unity, OCAM and the Conseil de l'Entente. An army *coup d'état* took place in January 1967. A new government under Colonel Dadjo was appointed after the voluntary withdrawal from office of President Nicolas Grunitzky. In April 1967 Lt.-Gen. Etienne Eyadema took over the Presidency. In November 1969 a new party, the Togolese People's Rally, was founded with Gen. Eyadema as President. This party called for a referendum for the President of the Republic and this, held in January 1972, produced an overwhelming vote in favour of Gen. Eyadema. A Government reshuffle followed reflecting Gen. Eyadema's efforts to maintain stability.

Government

Following the army *coup d'état* of January 1967, the constitution was suspended. Executive power is in the hands of a President and a Cabinet, and elections to a new Parliament were promised as soon as possible. The country is divided into four Regions each administered by an Inspector assisted by an elected council.

Defence

Togo's Armed Forces total about 2,000, including an Infantry Battalion and a small naval force. Under military agreements with France, Togo is helped with training and equipment.

Economic Affairs

Togo's considerable natural resources are still largely undeveloped. The economy is agricultural, the chief crops being manioc, palm kernels, coffee, groundnuts, cocoa and

cotton. Many of the forests and mineral reserves still have to be surveyed, but phosphates are being mined in increasing quantities and now form the country's principal export. In 1967 major iron ore deposits were discovered in the North-Central region. It is intended to set up industries, mainly for food processing.

Transport and Communications

There are 498 km. of railways, including three lines running inland from Lomé and a coastal line which joins with the Dahomey system. There are 7,125 km. of roads, of which about 1,300 km. are all-weather roads. There are several airfields in Togo, and an international airport at Lomé served by Air Togo, Air Afrique and U.T.A.

Social Welfare

Medical services are provided by the Government and there is a General Hospital and 13 auxiliary hospitals.

Education

About half the schools provide free education and there are places for 40 per cent of children of school age. Mission schools are important and educate about half of the pupils. Scholarships are available to French universities.

Tourism

Big game hunting and fishing are the main attractions. There are a number of picturesque waterfalls.

Visas are not required to visit Togo by nationals of Cameroon, Central African Republic, Chad, Congo People's Republic, Dahomey, France, Gabon, Federal Republic of Germany, Israel, Italy, Ivory Coast, Madagascar, Mauritania, Niger, Nigeria, Senegal, Upper Volta and Zaïre.

Sport

There is little organized sport but football and lawn tennis are popular.

The Constitution of Tonga is based on that granted in 1875 by King George Tupou I. It provides for a government consisting of the Sovereign, a Privy Council and Cabinet, a Legislative Assembly and a Judiciary. Tonga's relations with the United Kingdom are governed by the Treaty of Friendship, first signed in 1887 and revised in 1968.

The Cabinet consists of the Premier and the Privy Councillors.

The Legislative Assembly consists of the Speaker (President), the Privy Councillors (the Sovereign and the Cabinet), the Representatives of the Nobles (7) and the elected Representatives of the People (7). There are no nominated members. Franchise is open to all male literate Tongans of 21 and over who pay taxes, and all female literate Tongans aged 21 and over. There are elections every three years, and the Assembly must meet at least once every year.

JUDICIAL SYSTEM

Prior to 1968 under the 1958 Treaty of Friendship, certain judicial powers were exercised by Her Britannic Majesty's Court in Tonga to the exclusion of Tongan Courts, namely, in all criminal proceedings against non-Tongan subjects, in respect of any act or omission which is an offence against the laws of Tonga punishable under those laws by death or by imprisonment for a term exceeding two years. Under the same Treaty, Britain could make laws for removing persons triable under such powers for trial elsewhere in any of her territories. Under the same Treaty, Britain could also make laws for the provision for the registration in Tonga of births, deaths and marriages of British subjects residing there. In 1968 the Treaty of Friendship was again revised and under this revision the Courts of Tonga have full jurisdiction in respect of British subjects and foreigners. Registration of all births, deaths and marriages within Tonga is now effected in the Registry of the Court of Tonga.

The Courts of the Tongan Government now have full jurisdiction. The system is based on the British model and, in cases which come before the Supreme Court, it is provided in the Constitution that the accused may elect for trial by Jury or by Judge alone. There is a European Judge of the Supreme Court resident in Tonga. The Chief Justice is resident in Fiji and comes to Tonga to sit with the Court of Appeal, which consists of the Privy Council of the Kingdom. In addition there are seven Tongan Magistrates who preside over Magistrates' Courts. The Land Court Judge, sitting with a Tongan assessor, hears

and determines land claims. There are about 25 Tongan practising lawyers who practise under licence granted by the Judge of the Supreme Court.

TRINIDAD AND TOBAGO

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Trinidad, the southernmost of the Caribbean islands, lies within sight of the Venezuelan coast. The much smaller companion island of Tobago is 20 miles to the north-east. The climate is tropical with a dry season from January to May. Rainfall averages sixty-four inches per year. Average daytime temperature is 84°F (29°C). The language is English. Most of the population are Christians with Roman Catholics as the largest single group. There are Hindu and Muslim communities. The flag consists of three diagonal bands of white and black on a red background. The capital is Port of Spain.

Recent History

Trinidad and Tobago, formerly a British colonial possession, became a member in 1958 of the newly established Federation of the West Indies and in the following year achieved full internal self-government. With the secession of Jamaica from the Federation in 1961, Trinidad and Tobago withdrew and the Federation collapsed. In 1962 Trinidad and Tobago became an independent state within the Commonwealth, and in 1967 became a member of the Organization of American States. "Black Power" riots and a mutiny in the army which lasted for six months in April 1970 resulted in a state of emergency being declared. Against a background of continuing unrest, elections to an enlarged House of Representatives were held in May 1971. These resulted in complete victory for the ruling People's National Movement. However the main opposition groups, the Democratic Labour Party and the newly-formed Action Committee of Dedicated Citizens, boycotted the elections and in the event only thirty-two per cent of the electorate voted. In October 1971 another state of emergency was declared and a bill to deal with "sedition" was announced. The absence of an opposition has caused serious constitutional difficulties and a commission under the former Chief Justice, Sir Hugh Wooding, has been appointed to recommend reforms.

Government

Legislative power is vested in a Parliament consisting of the Senate and the House of Representatives. Representatives are elected for a five-year term by universal adult suffrage. Members of the Senate are nominated by the Governor-General in consultation with, and on the advice of, the Prime Minister and the Leader of the Opposition. The Governor-General is appointed by the Queen on the advice of the Prime Minister.

Defence

There is an army of about 1,000 enlisted troops.

Economic Affairs

Oil is of paramount importance in Trinidad's economy. At the end of the sixties production from on-shore oil-wells fell but the discovery of off-shore oil-fields has revived confidence in the nation's future as an oil producing and refining country. In 1969 a wholly state-owned corporation, the National Petroleum Company, was established in

order to increase direct Trinidadian participation in the oil industry. The government has also taken measures to increase local participation in the sugar, banking, insurance and communications industries. Apart from the oil industry, the manufacture of sugar, rum, molasses, fruit juices and cotton textiles are important. Trinidad is a major world producer of asphalt. The country is currently in its third five-year plan which began in 1969. In 1971 unemployment was running at a constant rate of twelve per cent. Trinidad is a founder member of the Caribbean Free Trade Area (CARIFTA).

Transport

Road transport is widely used for passengers and freight and there are many buses and lorries. Port of Spain has a deep-water wharf and there are regular sailings to all parts of the world. Numerous airlines use Piarco international airport.

Social Welfare

Old age pensions are paid, and there is some unemployment relief. State medical services are free. A new National Social Security Scheme to provide benefits for industrial injury, sickness, maternity and old age is now being implemented.

Education

Primary and secondary education is free and attendance is compulsory between the ages of six and twelve. Entrance to secondary schools is determined by a Common Entrance examination. Many schools are run jointly by the state and religious bodies. The Trinidad campus of the University of the West Indies is at St. Augustine, Trinidad. Other institutions of higher education are the Polytechnic Institute and the East Caribbean Farm Institute.

Tourism

The climate and coastline of Trinidad attract tourists and Tobago is also receiving a growing number of visitors. There are plans to construct a luxury resort on the north-west coast of Trinidad.

Visas are not required to visit Trinidad and Tobago by nationals of Belgium, Denmark, Finland, France, Iceland, Ireland, Italy, Liechtenstein, Luxembourg, Netherlands, Norway, San Marino, Spain, Sweden, Switzerland, South Africa, Turkey, United Kingdom and Commonwealth and United States.

Sport

Cricket and football are the most popular games.

TUNISIA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Tunisia lies on the Mediterranean between Algeria and Libya. The climate is temperate on the coast with winter rain and hot and dry in the southern desert. Arabic is the official language and French is widely used. Islam is the state religion and embraces the vast majority of the population. There are Jewish, Roman Catholic, Greek Orthodox and Protestant minorities. The flag consists of a red field charged with a white disc containing a red crescent surrounding a red star. The capital is Tunis.

Recent History

Formerly a French Protectorate, Tunisia became autonomous in 1955 and achieved independence the following year. In 1957 the monarchy was abolished and Habib Bourguiba became the first President. In 1961, following repeated demands by President Bourguiba that France should withdraw its troops from the naval base at Bizerta, a blockade was set up. French reinforcements were sent and heavy fighting broke out. After discussion in the United Nations a cease-fire was arranged and French evacuation negotiated in October 1963. In May 1964 Tunisia appropriated all foreign-owned lands, and France in retaliation withdrew most of her economic aid. Economic aid from France recommenced after a cultural agreement was signed in 1966. Tunisian foreign policy is noted for its moderate position on the Israel question and for good relations with the U.S.A. Widespread floods affected much of the country during the autumn of 1969. In November President Bourguiba was re-elected for a third five-year term. Later that month Ahmed Ben Salah, formerly the minister responsible for the drive towards co-operative farming, was arrested following much criticism of his methods.

Government

Executive power is vested in the President, elected for a five-year term by direct suffrage, and a Cabinet of sixteen Ministers and four Secretaries of State. The legislative organ is the unicameral National Assembly of 101 members, which is elected by universal suffrage for five years at the same time as the Presidential elections. All citizens of twenty or over are entitled to vote.

Defence

The National Army numbers about 18,000 men. Officer-training is carried out in the U.S.A. and France as well as in Tunisia. The Navy and Air Force have only recently been brought into existence and consist of training cadres of 500 and 1,000 men respectively.

Economic Affairs

Agriculture and mining are the basis of the economy. The chief agricultural products are wheat, olive oil, wine and fruits. Since 1965 a farming and distribution co-operative system has been extended to most parts of the country, but increasing criticism brought the programme to a halt in 1970. Phosphates, iron ore and lead are the principal minerals, and oil production now amounts to

over 3 million tons a year, which allows for an expanding export surplus. Planning is now a feature of the economy. The industrial sector is expanding rapidly; the steel works at Menzel-Bourguiba has a capacity of 70,000 tons, and chemical and paper industries, based on the local phosphates, oil and esparto grass, are being developed. Tunisia receives substantial aid from the U.S., notably in the form of food surpluses. In 1969 important trade preferences were granted in a partial association agreement signed with the EEC.

Transport and Communications

The total length of railways is 1,287 miles, of which 990 miles are State-owned. 9,650 miles of highways and roads connect all the major commercial centres. There are four major ports and a special petroleum port at La Skhirra. Air transport is provided by Tunis Air and several foreign lines.

Social Welfare

A state system of social security provides benefits for sickness, maternity and old age. Free health services are available to 80 per cent of the population. Regional committees for social security care for the aged, needy and orphaned.

Education

Approximately 60 per cent of children of school age receive education in Tunisia, the majority in state-run schools, and the proportion is continually rising. Higher and adult education are also expanding rapidly, and in all almost one person in four in Tunisia attends some sort of school. Arabic is the first language of instruction in primary schools but is gradually replaced by French in the higher grades. In 1968 about one-quarter of the budget was devoted to education.

Tourism

The main tourist attractions are the magnificent sandy beaches, oriental architecture and remains of the Roman Empire. Tunisia contains the site of the ancient city of Carthage. Tourism has expanded rapidly in Tunisia following extensive government investment in hotels, improved roads and other facilities.

Sport

Football, swimming and boxing are the most popular sports.

THE CONSTITUTION

TUNISIA, which had been a French Protectorate since 1881, was given full internal autonomy in September 1955, and finally recognized as a fully independent sovereign State by the Protocol of Paris of March 20th, 1956, by which France abrogated the former treaties and conventions.

NATIONAL ASSEMBLY

The Constitution was proclaimed by the Constituent Assembly on June 1st, 1959. Tunisia is a free, independent and sovereign republic. Legislative power is exercised by the National Assembly which is elected (at the same time as the President) every five years by direct universal suffrage. Every citizen who has had Tunisian nationality for at least five years and who has attained twenty years of age has the vote. The National Assembly shall hold two sessions every year, each session lasting not more than three months. Additional meetings may be held at the demand of the President or of a majority of the deputies.

Note: A Republican Council, consisting of leading members of the Government and of the Destour Socialist Party, was established in March 1966 to advise the President and to designate an interim President in the event of a vacancy in the Presidency.

HEAD OF STATE

The President of the Republic is both Head of State and Head of the Executive. He must be not less than forty years of age and is not permitted to serve more than three terms consecutively. The President of the Republic is also the Commander-in-Chief of the army and makes both civil and military appointments.

COUNCIL OF STATE

Comprises two judicial bodies: (1) an administrative body dealing with legal disputes between individuals and State or public bodies; (2) an audit office to verify the accounts of the State and submit reports.

ECONOMIC AND SOCIAL COUNCIL

Deals with economic and social planning and studies projects submitted by the National Assembly. Members are grouped in seven categories representing various sections of the community.

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Uganda is an equatorial country in East Africa bordered by Sudan to the north, Zaire to the west, Kenya to the east and Rwanda, Tanzania and Lake Victoria to the south. The climate is tropical with temperatures, moderated by the 4,000 ft. altitude of the country, varying between 60° and 85°F. The official language is English and there are many local languages, the most important of which is Luganda. More than half the population follow Christian beliefs. There is a small Muslim minority. The flag consists of six alternate horizontal stripes of black, yellow and red. The capital is Kampala.

Recent History

Formerly a British Protectorate, Uganda became independent in 1962. A ministerial form of government was inaugurated in 1955 and the first direct elections were held in a limited number of constituencies in 1958. Country-wide elections were held in 1961 and 1962. Difficulties over the status of the semi-independent Kingdom of Buganda were resolved at the London Conference of 1961 when Buganda was given a semi-federal relationship with the rest of the country. In October 1963 Uganda became an independent sovereign state, with the Kabaka of Buganda as first President and Milton Obote, leader of the Uganda People's Congress (UPC) as Prime Minister. By 1966 rivalry between the UPC and the followers of the Kabaka was intense, and in February Obote led a pre-emptive coup against the President. Heavy fighting followed his introduction of a Republican constitution with himself as President, and the Kabaka fled to Britain, where he died. In 1967 a second Republican constitution was introduced, and the Kingdom of Buganda brought under control of the central government. In 1969 all opposition parties were banned. In spite of his expressed commitment to socialism outlined in the Common Man's Charter of 1969, Obote's ascendancy diminished until in January 1971 his government was overthrown by the Ugandan Army, led by Maj.-Gen. Idi Amin. Dr. Obote fled to Tanzania, whose support for him led to disputes within the East African Community and clashes between Ugandan and Tanzanian troops on the border. In March the government decreed a ban on political activities for two years, and in May increased powers of detention against anti-government elements were decreed to the Internal Affairs Minister. By November the dispute with Tanzania appeared to be approaching solution.

Government

Under the Republican Constitution executive authority is vested in the President and may be exercised through the Cabinet. There are 18 administrative districts. A state of emergency still exists in Buganda.

Defence

The defence forces consist of an army of 6,250 men and an air force of 450, with 19 combat aircraft.

In February 1971, Maj.-Gen. Amin announced that a

Defence Council would supervise the administration and discipline of the Armed Forces.

Economic Affairs

Uganda has a thriving agricultural economy with coffee, tea, tobacco and cotton as the principal plantation and export crops. The rearing of livestock, and fishing on local lakes and on Lake Victoria are being developed. A plan for large-scale productivity of rice on a state farm has been prepared for the Ugandan Government by Chinese (P.R.) experts. Copper (at Kilembe) and tin are the most important minerals produced. The chief industries are building and construction, food and drink, manufactures and electricity. There are plans for building a hydroelectric station at Murchison Falls on the Nile. A Five-Year Plan 1967-71 aims to double national income. In 1970, before his downfall, President Obote announced that the Government was acquiring 60 per cent of the shares of all banks, oil companies, manufacturing and plantation industries, and the Kilembe copper mine.

Transport and Communications

There are 528 miles of railways, operated under the East African Community. The total length of made roads is 15,015 miles. Steamers ply on Lake Victoria linking Uganda ports with those in Kenya and Tanzania. Air transport from Entebbe airport is provided by East African Airways Corporation and fourteen other lines.

Social Welfare

Benefits are available for industrial accidents, sickness and unemployment. There are 26 Government hospitals with 4,857 beds and a large teaching hospital was opened at Kampala in 1962. A social security act was introduced in 1967.

Education

Education is sponsored by the Government and by Missions, most schools being Government-financed or aided. The national university is Makerere University in Kampala.

Tourism

The forests, lakes and mountains are the main tourist features. The River Nile has its source in Lake Victoria. There is a variety of wild life in the National Parks and Game Reserves and excellent opportunities exist for big game hunting and fishing.

Visas are not required to visit Uganda by nationals of Denmark, Finland, German Federal Republic, Iceland, Irish Republic, Italy, Norway, Rwanda, San Marino, Spain, Sudan, Sweden, Tunisia, Turkey and U.K. and Commonwealth, but a visitor's pass must be obtained.

Sport

Football is the most popular sport.

THE CONSTITUTION

The Constitution of September 8th, 1967 established Uganda as a Republic, and introduced the post of an executive President who is Head of State, Leader of the Government and Commander-in-Chief of the armed forces. The Parliament is the supreme legislature, and consists of the President and a National Assembly of 82 elected members. The Constitution provides for some specially elected members as may be required to give the party having the greatest numerical strength of elected members a majority of not more than ten of all the members of the National Assembly.

There are 18 Administrative Districts of Acholi, Ankole, Bugisu, Bukedi, Bunyoro, Busoga, East Mingo, Karamoja, Kigezi, Lango, Madi, Masaka, Mubende, Sebei, Teso, Toro, West Mingo and West Nile.

This Constitution was not revoked by Maj.-Gen. Amin, but in February 1971 he ordered the suspension of Uganda's legal system, and the concentration of legislative powers in his own hands, with the assistance of a Council of Ministers nominated by him.

UNITED ARAB EMIRATES

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Capital

The United Arab Emirates extend along the coast of the Arabian Gulf from the base of Qatar to the border with Oman. The climate is exceptionally hot and humid in the summer and mild in the winter. The official language is Arabic, but English is spoken in business circles. Islam is the principal religion. The capital is Abu Dhabi.

Recent History

Federation of what were then the Trucial States was proposed by the rulers in 1968, when Britain announced its intention of withdrawing its troops from the area by the end of 1971. The proposals originally included Bahrain and Qatar, as well as the seven Trucial States, but negotiations on the participation of the two larger and more developed states eventually broke down in 1971, and they opted for separate independence from British protection. Abu Dhabi, Dubai, Sharjah, Umm al Quwain, Ajman and Fujairah then formed the United Arab Emirates on December 2nd, 1971. Ras al Khaimah refused to join the Union until February 1972, when it had become clear that neither Britain or any Arab government was prepared to take action on Iran's seizure of the two Tumb islands in the Gulf belonging to the sheikhdom. A treaty of friendship between Britain and the United Arab Emirates was signed in December 1971. The U.A.E. became members of the UN and Arab League.

In January 1972 the Ruler of Sharjah, Sheikh Khalid, was killed by rebels led by his cousin, Sheikh Saqr, who had been deposed as Ruler in 1965. The rebels were rounded up, and Sheikh Sultan succeeded his brother as interim Ruler.

Government

Below the President and Vice-President of the United Arab Emirates there is a Gulf Supreme Council, consisting of the rulers of the seven sheikhdoms. There is also a Union Cabinet and a National Consultative Assembly, which met for the first time in February 1972. Abu Dhabi has its own Cabinet and Consultative Assembly, appointed by the Ruler. Otherwise each ruler has absolute control over his own subjects.

Defence

The Union Defence Force of some 1,700 men was formed from the Trucial Oman Scouts and is still officered by Britons.

Economic Affairs

Abu Dhabi's economy is almost entirely dependent on oil, and earnings from it have made the state the richest in the world in terms of income per head. Dubai is also rich in oil but its reserves have yet to be fully developed. Dubai remains the principal commercial centre and entrepôt port for the U.A.E. The rulers of the northern sheikhdoms have all signed exploration agreements but, for the present, traditional and very impoverished economic activity, based on fishing and pearling, persists.

Transport and Communications

A metalled, all-weather road runs from Dubai to Ras al Khaimah. Abu Dhabi is linked to the mainland by a £1 million bridge, opened in 1968, and to the Buraimi Oasis by a dual-carriageway road. Dubai is the main port, and now has the largest harbour in the Middle East. Dubai also has an international airport.

Education

Education is little developed beyond the primary level.

Public Holidays

1972: August 6-7 (Accession of Ruler of Abu Dhabi) (observed in Abu Dhabi only), September 8 (Leilat al Meiraj), November 8 (Id ul Fitr), December 25 (Christmas Day), December 26 (Boxing Day).

1973: January 1 (New Year's Day), January 17 (Id ul Adha), February 6 (Al-Hijra), February 15 (Al-Ashoura), April 16 (Mouloud).

Weights and Measures

The imperial, metric and local systems are all in use.

ASSEMBLIES

U.A.E. NATIONAL CONSULTATIVE ASSEMBLY

This met for the first time on February 13th, 1972, when it was opened by the U.A.E. President, Sheikh Zaid.

ABU DHABI CONSULTATIVE ASSEMBLY

Formed on September 1st, 1971, it has 50 members, all nominated by the Ruler, Sheikh Zaid. None of the members belong to the ruling family, though many of them represent tribal interests.

The Assembly can make recommendations on draft laws to the Council of Ministers before they are submitted for the Ruler's approval.

The Assembly met for the first time in October 1971. Its term is two years.

JUDICIAL SYSTEM

U.A.E. subjects and citizens of all Arab and Muslim states are subject to the jurisdiction of the local courts.

In the local courts the rules of Islamic law generally prevail. A modern code of law is being produced for Abu Dhabi.

In Dubai there is a court run by a *qadi*, while in some of the other states all legal cases are referred immediately to the Ruler or a member of his family, who will refer to a *qadi* only if he cannot settle the matter himself. In Abu Dhabi a professional Jordanian judge presides over the Ruler's Court.

RELIGION

Most of the inhabitants are Muslims of the Sunni and Shi'ite sects.

ROADS

Until very recently there was no proper system of roads except in Dubai town, but the desert tracks are often motorable. In 1965 plans were made for a £1 million all weather metalled road to be built from Dubai to Ras al Khaimah, to be financed by the new Trucial States Development Office. The Dubai/Sharjah section of this was opened in September 1966. Work has now been completed on the Sharjah/Ras al Khaimah section at the expense of the Saudi Arabian Government. In 1968 Abu Dhabi opened a £1 million bridge linking the town with the mainland. The town is also linked with the Buraimi Oasis by a dual-carriageway motor road built mainly for political reasons. The oil companies have constructed roads in the areas in which they operate. Motor vehicles are in general use for passengers and goods. Camels and donkeys are used in the less accessible areas.

SHIPPING

Dubai is the main port. The British India Steam Navigation Co. Ltd. maintains a weekly scheduled service to Dubai on the Bombay-Basra run. The ships of British India Line and F. Strick & Co. call at Dubai and Abu Dhabi several times a month. Other lines which call regularly are D. D. G. Hansa, Johnson Line, Holland-Persian Gulf, Maersk Line, and Jugolinja. A contract to build a deep water port at Dubai, Port Rashid, has also been signed and is expected to take four years to complete. With fifteen deep water berths, it will then become the largest harbour in the Middle East. Work began in 1970 on a new four-mile channel which will make the port of Abu Dhabi accessible to sea-going vessels including tankers.

UNITED STATES OF AMERICA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The United States of America occupies the North American continent between Canada and Mexico. Alaska to the north-west of Canada, and Hawaii in the central Pacific are two of the 50 States of the U.S. The climate is continental inland, temperate at the coasts (New York ranging from 0° to 90°F (-18° to 32°C) but subtropical conditions prevail in the south. Much of Texas and Arizona is desert. The language is English, and Christianity is the predominant religion. Nearly all the 20 million negroes are Christians. There are five and a half million Jews. The flag is the Stars and Stripes, 13 alternating red and white stripes with 50 white stars on a rectangular blue field in the upper hoist. The capital is Washington.

Recent History

The U.S. entered World War Two in December 1941. By means of gigantic programmes of aid, including the re-habilitation of Japan and the Marshall Plan for Europe, America has financed the post-war recovery of much of the world. From 1950 to 1953 the U.S. provided large supplies of men, money and materials to support the United Nations forces in the Korean War. The U.S. has not yet recognised the People's Republic of China established in 1949 and gives recognition and much help to the island Republic of China (Taiwan). Since the death of Stalin, there has been some amelioration of the cold war between the U.S.A. and the U.S.S.R. although a point of crisis was reached in 1962 when President Kennedy successfully demanded the dismantling of the nuclear rocket sites erected by the U.S.S.R. on the island of Cuba. In November 1963 President Kennedy was assassinated in Dallas, Texas. His successor, President Johnson, carried through Congress a wide programme of Federal intervention on behalf of under-privileged sectors of the community, though racial friction remains a potential source of domestic tension. Abroad, President Johnson committed huge quantities of military and financial aid to the Republican Government in Viet-Nam. In November 1968 Richard M. Nixon (Republican) was elected President in succession to Mr. Johnson. The year was also marked by the violent deaths of the civil rights leader Martin Luther King and of Presidential candidate Robert Kennedy, brother of the late President. During 1968 a Treaty for Non-Proliferation of Nuclear Weapons, jointly sponsored by U.S.A. and the U.S.S.R., was approved by the UN General Assembly. This treaty was ratified simultaneously by the U.S.A. and the U.S.S.R. in 1969. The U.S.A. has committed itself to gradual disengagement from Viet-Nam, but despite considerable reductions in the number of American troops there, in the spring and summer of 1970 U.S. and South Vietnamese forces entered Cambodia to conduct operations against Communist bases, and the U.S. was still heavily involved in April 1972.

The mid-term elections for the ninety-second Congress in November 1970 did not give the Republicans a majority in the Senate and the Lower House, and thus they confirmed the Democrats strength in the country. The

President has consequently brought forward his plans for reform of the Cabinet, the Executive offices, and of the Senate, as well as a proposal for sharing Federal revenues with State Governments.

Significant recent events include President Nixon's unprecedented visit to the People's Republic of China, and his visit to the U.S.S.R.; but America's economic problems, which seriously affected international trade and monetary policy, and social issues such as pollution and the de-segregation of education overshadowed the U.S.A.'s changing international role as the country approached the 1972 Presidential elections.

Government

The U.S.A. is a federal republic. Each of the fifty member states exercises a measure of internal self-government. Defence, foreign affairs, coinage, posts, the higher levels of justice, and internal security are the responsibility of the Federal Government. The President is head of the executive and is elected for a four-year term by a college of representatives elected directly from each state. The President nominates the other members of the executive. The Congress is the seat of legislative power and consists of the Senate and the House of Representatives. Two Senators are chosen by direct election in each state, to serve a six-year term, and one third of the membership is renewable every two years. Representatives are elected by direct and universal suffrage for a two-year term. Judicial power is vested in the Supreme Court, which has the power to veto legislation it regards as incompatible with the Constitution.

Defence

In 1970 United States active forces comprised 1,107,000 Army, 757,000 Air Force, 623,000 Navy and 212,000 Marine Corps. The Strategic Air Command and Polaris nuclear submarines are equipped with nuclear weapons. The defences of the United States are organized on a global basis. It is a member of the NATO, SEATO and ANZUS Pact defensive organizations and co-operates closely with the Central Treaty Organization (CENTO). In 1970 the defence budget was cut by the closing of military bases abroad, and the reduction of the armed forces; after increased military spending in 1971, the U.S.A. again announced a reduced defence budget for 1971-72 of \$70,500 million.

Economic Affairs

The United States of America is the world's leading economic power. Its chief imports are petroleum, non-ferrous metals, coffee, machinery, textiles and newsprint. In most other materials the country is self-supporting. This is reflected in the extreme diversification of the economy. Leading industries include steel, motor vehicles, aerospace industries, telecommunications, chemicals, electronics and all kinds of consumer goods. There are more than 30 million employed in services: clerks, shopkeepers, salesmen and professional men. Agriculture

accounts for only 5 per cent of employment, but for over 20 per cent of exports. The chief agricultural products are cereals, cotton and tobacco. Part of the large farm surpluses are given away to poor countries. The United States produces oil, coal, copper, iron, uranium, silver and many other minerals. American business corporations have built up very large interests abroad during this century, and particularly since 1950. In 1971 economic growth declined, and to combat inflation, unemployment and a weakened international trade position, an import levy was imposed, followed by stringent prices and incomes controls. In December 1971 the dollar was devalued by 7.89 per cent. The Administration proposed a heavy-deficit budget for 1973 to encourage renewed expansion.

Transport and Communications

There is a comprehensive network of railways operated by private companies; the network retains its lead as a freight transporter but passenger services have been greatly affected by competition from private cars and airlines, and accordingly many services have been cut. Long-distance buses provide swift and cheap travel to all parts of the country. Water transport is used on the Mississippi and other rivers and on the Great Lakes. Major ports include New York, Boston, Baltimore, New Orleans, Galveston, San Diego, San Francisco and Seattle. Chicago at the head of Lake Michigan handles large quantities of agricultural freight. Domestic air services are extensively used and very frequent international services are provided by a large number of home and foreign companies.

Social Welfare

The Federal Social Insurance Act of 1935 provides for insurance to cover unemployment, old age, survivors and disability. Public assistance is granted by the fifty states. The 89th Congress laid the legislative foundations for the most far-reaching expansion of welfare services since the 'New Deal' of the 1930's. The Medicare Bill provides health-care insurance for the over-65s and increased social security pensions; millions of people are protected by private or company schemes. A special Bill was passed in 1965 to facilitate redevelopment of the depressed Appalachia hill region. Benefits vary greatly from state to state and in 1970 the Family Assistance Programme was introduced providing a Federally guaranteed minimum annual income and benefits for the working poor. The extensive pollution in America's urban areas has become a major domestic issue since 1968.

Education

Education is still largely the concern of individual states, but the Education Bill passed in April 1965 makes federal funds available, for the first time, for general improvement of primary and secondary schools. All states have elementary, junior high, and high schools and most states have kindergartens. Education is free except at private schools. The period of education varies from state to state, but in 37 states attendance until the age of sixteen years is compulsory, and in four this limit is eighteen years. There are over 1,600 universities and colleges.

Tourism

The U.S. affords every kind of interest to tourists from winter sports to tropical beaches. The natural marvels include the Grand Canyon, Niagara Falls and the large protected parks of the north-west. Modern architecture, museums and art galleries, night life in the big cities, these are only a few of the innumerable attractions. The U.S. has now begun to arrange inexpensive all-in tours for foreign visitors.

Visas are not required to visit the U.S. by nationals of Canada.

Sport

The most popular sports are baseball, American football, basketball and volleyball. Athletics, golf, tennis, boxing and horse racing are also widely followed and there are facilities for many other sports.

Space Research

The first space vehicle successfully launched by the U.S.A. was *Explorer I*, an earth-orbiting satellite launched in January 1958. The first manned earth-orbiting flight by the U.S.A. took place in 1962, in a series of flights named Project Mercury. Space exploration by the United States included the launching of a number of weather satellites and space observatories in 1964 and 1965. In 1967 *Ranger 7* relayed pictures of the moon back to earth. The *Apollo* series of flights was directed towards a manned landing on the moon, which was accomplished in July 1969. Four more successful manned landings followed; one failed. The *Apollo* programme for the 1970's has had to be curtailed since the space budget has been cut from \$5,250 m. in 1965 to \$3,151 m. in 1971. It is considered that much can be achieved by unmanned space exploration which will be less dangerous and less expensive; no further manned Moon landings are planned beyond 1972. In November 1971 the unmanned *Mariner 9* orbited Mars, and in March 1972 *Pioneer 10* was launched to travel beyond Jupiter.

Public Holidays

1972: May 29 (Memorial Day), July 4 (Independence Day), September 4 (Labour Day), October 23 (Veterans' or Armistice Day), November 23 (Thanksgiving), December 25 (Christmas Day).

1973: January 1 (New Year's Day), February 12 (Lincoln's Birthday), February 19 (Washington's Birthday).

Weights and Measures

With certain exceptions, the Imperial system is in force. One U.S. billion equals one thousand million; one U.S. cwt. equals 100 lbs.; long ton equals 2,240 lbs.; short ton equals 2,000 lbs.

Currency and Exchange Rates

The unit of currency is the Dollar, divided into one hundred cents.

Coins: 1, 5, 10, 25, 50 cents; \$1.

Notes: 1, 2, 5, 10, 20, 50 and 100 Dollars.

Exchange rate: \$1 = £0.38 sterling.

THE CONSTITUTION

The form of Government set up during the American Revolution by the thirteen original States which declared their independence in 1776 soon proved inadequate. After several earlier attempts to reform these "Articles of Confederation" the thirteen States finally sent delegates to a Convention which met at Philadelphia in 1787, and which framed the Constitution of the United States. This Constitution was ratified by the requisite number of States in 1789 and remains in force to the present day. Although the federal nature of the Government that was being set up was made quite clear, Article VI of the Constitution

declared it to be the "supreme law of the land", and the central authority was given the right to raise taxes, pay debts and provide defences and to "make all laws necessary and proper to this end". The Constitution was created for a population of under 4,000,000 in a mere 100,000 miles of inhabited territory. It confines itself to laying down general principles and is often lacking in precision, but has for this reason been capable of adaptation, by interpretation and by amendment, to the conditions of the nineteenth and twentieth centuries.

TEXT OF THE CONSTITUTION

Preamble

We, the people of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquillity, provide for the common defence, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America.

Article I

Section 1

All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

Section 2

1. The House of Representatives shall be composed of members chosen every second year by the people of the several States and the electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislature.

2. No person shall be a Representative who shall not have attained to the age of twenty-five years and been seven years a citizen of the United States and who shall not, when elected, be an inhabitant of that State in which he shall be chosen.

3. Representatives and direct taxes shall be apportioned among the several States which may be included within this Union according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons. The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of Representatives shall not exceed one for every thirty thousand, but each State shall have at least one Representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to choose 3; Massachusetts 8; Rhode Island and Providence Plantations 1; Connecticut 5; New York 6; New Jersey 4; Pennsylvania 8; Delaware 1; Maryland 6; Virginia 10; North Carolina 5; South Carolina 5, and Georgia 3.*

4. When vacancies happen in the representation from

* See Article XIV, Amendments.

any State, the Executive Authority thereof shall issue writs of election to fill such vacancies.

5. The House of Representatives shall choose their Speaker and other officers and shall have the sole power of impeachment.

Section 3

1. The Senate of the United States shall be composed of two Senators from each State, chosen by the Legislature thereof, for six years; and each Senator shall have one vote.

2. Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the Senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen by resignation or otherwise, during the recess of the Legislature or of any State, the Executive thereof may make temporary appointment until the next meeting of the Legislature, which shall then fill such vacancies.

3. No person shall be a Senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State for which he shall be chosen.

4. The Vice-President of the United States shall be President of the Senate, but shall have no vote unless they be equally divided.

Article XXIV, in effect February 1964

Section 1

The right of citizens of the United States to vote in any primary or other election for President or Vice-President, for electors for President or Vice-President, or for Senator or Representative in Congress, shall not be denied or abridged by the United States or any State by reason of failure to pay any poll tax or other tax.

Section 2

The Congress shall have power to enforce this article by appropriate legislation.

Article XXV, in effect February 1967

Section 1

In the case of the removal of the President from office or of his death or resignation, the Vice-President shall become President.

Section 2

Whenever there is a vacancy in the office of the Vice-President, the President shall nominate a Vice-President who shall take office upon confirmation by a majority vote of both Houses of Congress.

Section 3

Whenever the President transmits to the President *pro tempore* of the Senate and the Speaker of the House of Representatives his written declaration that he is unable to discharge the powers and duties of his office, and until he transmits to them a written declaration to the contrary, such powers and duties shall be discharged by the Vice-President as Acting President.

Section 4

Whenever the Vice-President and a majority of either the principal officers of the executive departments or of such other body as Congress may by law provide, transmit to the President *pro tempore* of the Senate and the Speaker of the House of Representatives their written declaration that the President is unable to discharge the powers and duties of his office, the Vice-President shall immediately assume the powers and duties of the office as Acting President.

Thereafter, when the President transmits to the President *pro tempore* of the Senate and the Speaker of the House of Representatives his written declaration that no inability exists, he shall resume the powers and duties of his office unless the Vice-President and a majority of either the principal officers of the executive department or of such other body as Congress may by law provide, transmit within four days to the President *pro tempore* of the Senate and the Speaker of the House of Representatives their written declaration that the President is unable to discharge the powers and duties of his office. Thereupon Congress shall decide the issue, assembling within forty-eight hours for that purpose if not in session. If the Congress, within twenty-one days after receipt of the latter written declaration, or, if Congress is not in session, within twenty-one days after Congress is required to assemble, determines by two-thirds vote of both Houses that the President is unable to discharge the powers and duties of his office, the Vice-President shall continue to discharge the same as Acting President; otherwise, the President shall resume the powers and duties of his office.

Buddhists	100,000

*There is no standard definition of membership. For example, Jewish congregations estimate the number of Jews in communities having congregations; Roman Catholics and a few Protestant bodies count all baptized children, including infants, as members; most Protestant bodies include as members only "adults", or persons 13 years of age or older; and the Eastern Churches tend to give an ethnic count. Therefore, comparisons should not be made between various categories of denominations.

PROTESTANT AND EASTERN ORTHODOX

National Council of the Churches of Christ in the United States of America: National Offices: 475 Riverside Drive, New York, N.Y. 10027.

Thirty-three denominations—Protestants and Eastern—working together, carry on more than 80 church programmes through the National Council in those matters which they prefer to do together rather than separately. It embraces a constituency of 33 Protestant and Eastern Orthodox Churches with a membership of approximately 42,000,000 members.

The Council is supervised and governed by a General Assembly of 800 members, which meets every three years, and a General Board of about 250 members which meets three times a year as the interim supervisory body responsible for the policies and programmes of the Council. The members of the General Assembly and General Board are appointed by the thirty-three denominations constituent to the Council.

The work is carried on through three main divisions: Christian Education, Christian Life and Mission, and Overseas Ministries. Each programme is directed by a committee which includes denominational representatives carrying corresponding responsibilities within their denominations. Programmes include such diverse projects as teaching people of many different tongues to read; ministry to migrant workers, hospitals, prisons, armed forces; publishing of Sunday church school outlines, carrying on foreign relief and resettlement of displaced persons.

THE PRESS

The famous tradition of press freedom in the U.S. is grounded in the First Amendment to the Constitution which declares that "Congress shall make no law . . . abridging the freedom of speech or of the Press . . ." and confirmed in the legislations of many states which prohibit any kind of legal restriction on the dissemination of news.

Legislation affecting the Press is both state, as in the case of laws relating to libel and to business practice, and Federal. A source of controversy between the Press and the courts has been the threat of the encroachment by judicial decrees on the area of courtroom and criminal trial coverage. For example, the Californian Judicial Court Rule No. 980 prohibits the use of cameras in the courtroom; similarly, since 1963 an average of 35 per cent of congressional committee meetings in Washington have been held in secret. Other legislative items infringing press freedom to differing degrees include the New York State Law of 1955 penalizing publications liable to corrupt young people, and the State Security Law of 1954 which requires the registration of all printing equipment belonging to organizations regarded as suspect by the Attorney-General. On the other hand, the journalist is favoured by legislation in several states giving him the right to refuse to disclose his sources. The accuracy of the claims of advertisers using the Press is examined by the Federal Trade Commission and the Food and Drug Administration.

The U.S. publishes more newspapers and periodicals than any other country. National and international news is easily available by means of the ubiquitous wire services, although most dailies give a greater emphasis to local news because of the strong interest in local and regional affairs and the decentralized structure of many government services. These factors, together with the distribution problem inherent in the size of the country, are responsible for the lack of national newspapers.

In 1970 there were 11,383 newspapers, of which 1,838 with a total aggregate circulation of 65 million copies were dailies, comprising 354 morning papers with a total circulation of 23 million, 1,463 evening papers at 34 million, and 16 all-day papers at 1.1 million. The 8,903 weekly papers had a total circulation of 48.5 million. Of the 9,573 periodicals, 1,856 were weekly, 4,314 were monthly, and 1,108 quarterly. Included in these figures are special categories of papers, including papers and periodicals in some 36 foreign languages and 142 publications catering specifically for the black readership.

In recent years, increased prices and the competition of radio and television have subjected the industry to considerable economic strain, resulting in mergers and take-overs, a great decline in competition between dailies in the same city, and the appearance of inter-city dailies catering for two or more adjoining centres. Suburban dailies have thrived at the expense of the large city dailies, the largest being *Newsday*, the New York State newspaper. The Newspaper Preservation Bill now before the House of Representatives is directed at preserving the small amount of Press competition that has survived. It exempts the Press from anti-trust legislation, thus permitting co-operative arrangements between papers that might otherwise be forced to merge or close down. Despite inflationary pressures which caused the widespread introduction of the 15-cent newspaper, total daily circulation rose slightly to 62,107,527 in 1971; the number of daily papers was however reduced by 10. The more extensive non-metropolitan weekly press was worse affected by economic conditions, and total Sunday paper circulation fell during 1971 by about 600,000 to 49.2 million. Nevertheless, local appeal

combined with the use of much syndicated material maintains the Sunday press as an important and distinctive feature of the American Press. Almost every small town has its own paper.

The aggregate circulation of the 9,573 periodicals is approximately 210 million. Some 100 of them have a national readership. The periodical press, particularly the widest-circulating magazines most dependent on advertising, are faced by economic problems, but though the larger magazines have declined in numbers since the war several smaller new ones have appeared.

All newspapers subscribe to the Associated Press (AP) co-operative news agency, the United Press International (UPI), or the Los Angeles Times-Washington Post News Service, which, while giving access to a large quantity of news, limit the variety of presentation.

There are some 150 syndicates which supply a wide range of press material to subscribers, including photographs, cartoons, light articles on all topics and political commentary by national experts. Much of it is sold in English and other languages outside the United States. In 1956 the largest syndicate, King Features Ltd., claimed sales to 2,700 newspapers, making up 40 per cent of all syndicated material used in the U.S.

One consequence of modern economic trends has been the steady growth of newspaper groups or chains, of which there are some 163 controlling some 750 dailies. This figure represents an increase of twenty groups since 1962 when 188 of the group-owned dailies had an aggregate circulation of 27.4 million, or just less than half of the total for all dailies. The six largest groups are the following:

Newhouse Newspapers Group (Pres. SAMUEL NEWHOUSE): 1 Star Square, Long Island City, Queens, N.Y. 11101; owns twenty-one newspapers, six of them in New York. The main dailies include *Cleveland Plain Dealer* (403,145), *Long Island Daily Press* (418,028), and *St. Louis Globe Democrat* (292,789), the total circulation being over 6 million; also two large magazine chains, one French and one Italian magazine.

Scripps-Howard Newspapers Group (Pres. JACK R. HOWARD; Chair of Board CHARLES E. SCRIPPS): owns sixteen dailies, including *Cleveland Press* (375,653), and *Pittsburg Press* (321,338).

Hearst Newspapers Group (Editor-in-Chief WILLIAM RANDOLPH HEARST, Jr.): owns eight dailies, including *Los Angeles Herald Examiner* (512,922), and *Boston Record American* (410,003); two Sunday papers, including *Boston Sunday Advertiser*; and thirteen magazines, three of which in the U.K.; a large comics syndicate.

Tribune Company Group (Pres. of Tribune Co. H. F. GRUMHAUS): owns seven dailies, including *Chicago Tribune* (768,351), *Chicago Today* (461,552) and *New York News* (2,129,909).

Other major newspaper groups are *Knight Newspapers*, *Gannett Newspapers* and *Ridder Publications*.

Time-Life Group (Pres. JAMES A. LINEN): the largest of the magazine chains, and includes *Life* (U.S. edition 7.0m., International edition 659,837, *Life en Español* 437,000), *Time* (U.S. edition 4.1m., Canada edition 389,670, Atlantic edition 286,000, and Latin America, Asia, South Pacific and Military editions), *Sports Illustrated* (1,868,559), *Fortune* (580,000), *Panorama* in Argentina (144,160, Spanish) and *President* in Japan (24,000, Japanese).

Times Mirror Co. (Pres. GEORGE MACLEAN): OWNS four newspapers, including *Los Angeles Times*, a Dallas daily, and *Newsday*.

Owing to the regionalism mentioned above there is no truly national press corresponding to major West European dailies. Most influential and highly respected among the few newspapers which may claim a national distribution are the *New York Times* (notably the main sections of its massive Sunday edition), *Washington Post*, *Los Angeles Times*, and *Wall Street Journal*, the financial and news daily with editions in New York City, California, Illinois and Texas. The *International Herald Tribune* printed in Paris, which recently absorbed the European edition of *New York Times*, has an important following in Europe.

Thirty-five daily papers have circulations of over 250,000 copies, including five in New York and five in Chicago. Among the largest of these in daily circulation are *New York News* (2,129,909 daily), *Wall Street Journal* (1,249,095 total of four editions), *Los Angeles Times*

(1,009,519), *New York Times* (846,132), *Chicago Tribune* (767,793), *New York Post* (623,245), *Detroit News* (639,703) and *Philadelphia Bulletin* (634,371).

Of the large weekly news magazines *Time* (4.1m.) and *Newsweek* (3m.), with a world distribution, provide a serious, comprehensive coverage of current affairs; the *New Yorker* (473,275) also includes fiction, while *Life's* (7m.) news treatment is lighter. Among the larger monthly periodicals *McCall's* and *Fortune* (580,000) are widely respected for their treatment of literary topics and business and industrial affairs respectively; the lighter and more varied *Reader's Digest* (17.5m.) and *National Geographic Magazine* (7.5m.) have the distinction of world distribution; women's interests are extensively catered for, the most popular being *Ladies' Home Journal* (7.7m.), while *Playboy* (6.4m.) and *Esquire* (1.1m.) appeal specifically to men, and *Ebony* (0.9m.) is directed particularly to a Negro readership.

PUBLISHERS

American publishing is a complex product of free, private enterprise and national organization. Although publishing houses are autonomous bodies, most are members of one of the several national publishing associations. Of these, the two most important are the American Book Publishers Council (ABPC) and the American Educational Book Publishers Institute (AEPI). The ABPC is the organization of general book publishers. Through special seminars and annual meetings, it studies the various problems of authors and publishing houses, including tax problems, personnel problems and the problems of marketing and production. The AEPI works more closely with government bodies and organizations such as the Great Cities Research Council and the National Education Association, in an attempt to relate educational publishing to existing social and educational needs. The ABPC and AEPI have been working towards a unified publishers' association for several years, though certain legal and other issues are yet to be resolved. Both organizations have accepted the principle of federation, and during 1969 they co-operated in several joint activities, including joint seminars at their annual meetings.

The U.S.A. is a member of the Universal Copyright Convention, which it signed in September 1952. A revision bill now before Congress would bring about the following major changes to the domestic copyright law of 1909: the term of copyright would be extended to the life of the author plus fifty years; in certain cases domestic manufacture would no longer be a precondition of copyright for works by American authors; and limited exemption for copying copyrighted work would be granted to schools, libraries and other educational institutions.

FEDERAL RESERVE SYSTEM

(Washington, D.C. 20551)

BOARD OF GOVERNORS

Chairman: DR. ARTHUR F. BURNS.**Vice-Chairman:** J. L. ROBERTSON.**Governors:** GEORGE W. MITCHELL, J. DEWEY DAANE, SHERMAN J. MAISEL, ANDREW F. BRIMMER, JOHN E. SHEEHAM.**Executive Director:** ROBERT C. HOLLAND.**Advisers to the Board:** J. CHARLES PARTEE, ROBERT SOLOMON.**Assistants to the Board:** HOWARD H. HACKLEY, CHARLES MOLONY, ROBERT L. RIPPEY.**Secretary of the Board:** TYNAN SMITH.**General Counsel:** THOMAS J. O'CONNELL.**Director, Division of Research and Statistics:** J. CHARLES PARTEE.**Director, Division of International Finance:** ROBERT SOLOMON.

The Federal Reserve System comprises the Board of Governors, the Federal Open Market Committee, the Federal Advisory Council, the 12 Federal Reserve Banks with 24 branches, and the member banks. Founded 1913.

The Board of Governors of the Federal Reserve System, with headquarters in Washington, D.C., is composed of seven members appointed by the President of the United States with the advice and consent of the Senate. The Board has important responsibilities in the areas of monetary policy and supervision.

The Reserve Banks are empowered to issue Federal Reserve notes fully secured by the following assets, alone or in any combination: (1) Gold certificates; (2) U.S. Government securities; (3) Eligible paper as described by statute. The Reserve Banks may discount paper for member banks and make properly secured advances to member banks. At the direction of the Federal Open Market Committee the Federal Reserve Banks engage in open market operations, chiefly concerned with U.S. Government securities; the Reserve Banks function as collectors and clearing houses for member banks and act as fiscal agents of the United States Government.

All national banks are members of the Federal Reserve System, and State-chartered banks may apply for membership and be admitted upon qualification.

The Comptroller of the Currency has primary supervisory authority over national banks, and the banking supervisors of the States have similar jurisdiction over banks organized under State laws. State member banks are examined by the Federal Reserve, and all member banks are subject to regulations issued by the Board of Governors.

Every member of the Federal Reserve System must subscribe to stock in the Federal Reserve Bank of its district in an amount equal to 6 per cent of its paid-up capital and surplus. One half of the subscribed stock is paid upon admission to membership, the other half being subject to call by the Board of Governors.

Any State bank or trust company may withdraw from the Federal Reserve System on six months' written notice to the Board.

Every member bank of the Federal Reserve System must take part in a Federal deposit insurance fund, under which its deposits are insured to the extent of \$10,000 for each depositor. Non-member banks may be accepted for deposit insurance. The fund is administered by the Federal Deposit Insurance Corporation, established by the Banking Act of 1933.

THE UNITED STATES COMMERCIAL BANKING SYSTEM

As might be expected the United States banking system is the largest and in most respects the most comprehensive and sophisticated in the world, and it includes the four largest banks in terms of deposits. Banking has, however, been largely subject to state rather than federal jurisdiction, and this has created a structure very different from that in other advanced industrial countries. In general no bank may open branches or acquire subsidiaries in states other than that in which it is based. Some states also restrict banks to a single branch, or to operating only in certain counties of the state. The strict federal anti-trust laws also limit mergers of banks within a state. The effect of these measures has been to preserve the independence of a very large number of banks—over 13,500 in 1969. Nevertheless, the dominant banks are the main banks in the big industrial states; of the ten largest, six are based in New York, two each in California and Illinois.

"ONE-BANK HOLDING COMPANIES"

The Glass-Steagall Act of 1933 restricted banks to their basic function of borrowing and lending money, and in particular prohibited them from owning common stock in U.S. corporations. Separate investment banks handle securities and act as brokers and financial advisers. Since 1967 widespread use of a loophole in the 1956 Bank Holding Act has, in theory at least, greatly expanded the range of activities open to commercial banks. This loophole enables a bank to set up a holding company with the bank itself as the sole initial asset; the holding company may then acquire interests in many other fields. During the 1968-69 period almost all the major commercial banks transformed themselves into "One-Bank Holding Companies". The anticipated acquisition of non-banking interests has, however, generally awaited the legislation

which the Administration and the Federal Reserve Board are thought to be planning to deal with this development.

BANKING AND THE INDIVIDUAL

The possession of bank accounts and the use of banking facilities are perhaps more widespread amongst all classes and regions than in any other country. This has had important effects on monetary theory and policy, as bank credit has become much more important than currency supply in the regulation of the economy. Use of "checking" or current accounts is so common that many authorities claim the U.S. can be regarded as effectively a "cashless" society.

A more recent development has been the very rapid growth in the use of bank credit cards. Five million cards were in circulation in 1965, mostly in California; by early 1970 some 50 million had been issued by over 8,000 banks. This is in addition to the older established credit cards used mainly for travel and entertainment, such as the Diners Club and American Express cards; some five million of these are in circulation. Only two national bank credit cards now exist—BankAmericard and Interbank-Master Charge (a recent merger); each has well over 20 million cardholders and each is issued on a franchise basis by over 3,500 banks. Merchants accepting bank cards agree to take a discount of about 4 per cent; this margin covers the cost of the scheme, there being no charge to the cardholder.

Bank credit cards could not have come into widespread use without the general introduction of advanced electronic and mechanical means of processing details of accounts quickly, computers being particularly important. Since competition in service to clients is keener than in most countries—the authorities permit very few of the agreements on opening hours, charges, etc., which are usual abroad—and since manpower is expensive, the principal U.S. banks lead the world in the adoption of these methods. Some experts are already looking beyond the "cashless society" to a "checkless" financial system. Other facilities offered to clients, such as "drive-in" banks, frequently reflect the American standard of living.

EXPANSION OVERSEAS

Since 1960 the leading banks have rapidly built up substantial banking interests overseas. There were then only about 15 branches of U.S. banks in Europe and a negligible number elsewhere; by early 1970 some 400 branches had opened overseas (over 100 in Europe), owned by more than 40 banks. Over 300 of these are owned by the largest three banks; these three, and several others, also own or have taken large minority interests in a number of foreign banks. Overseas branches as a whole are estimated to account for over 20 per cent of American bank deposits. The main factors behind the expansion overseas are the geographical limitations imposed by law at home; the rapid expansion of U.S. business interests abroad and their preference for dealing with an American bank; the faster economic growth of certain foreign countries; and finally the profitability of the "Euro-dollar" capital market in Europe. In return, several European and Japanese banks have established branches in New York and California.

CULTURAL ORGANIZATIONS

Despite the great size of the U.S.A. and its enormous variety of climate, terrain and founding nationalities, a unified American culture has evolved over the past two hundred years. One of the most important instruments in overcoming differences of speech, dress, food and ways of life has been modern technology. The railroads opened up the American west in the second half of the nineteenth

century, and with the advent of the railroads the U.S.A. began to move from a rural, regional life to an industrial, urban orientation. Today over two-thirds of all Americans live in urban districts. The communications media have also played a crucial part in the development of a homogeneous American culture, and man's relation to the electronic age is a major preoccupation of contemporary

UNITED STATES OF AMERICA—(TOURISM)

American art. Jazz, pop-rock music, advertising, comic-books, television and films are all aspects of America's popular culture which have had a great impact on the development of the arts both in the U.S.A. and the rest of the world.

The rapid development of the arts in the U.S.A. to their present level of sophistication has been accompanied by a tremendous growth in public interest and government support. With the help of massive financial assistance from public and private sources, art museums have built up excellent collections from every period, and new art museums open at the rate of two per month. There are over one thousand symphony orchestras, the most famous being in Boston, Philadelphia, New York, Cleveland and Chicago, and there are many summer music festivals. The main theatrical centre is the area of New York City on and near Broadway, but there are also over five thousand community theatres and four hundred summer theatres. For the first fifty years of this century Hollywood, California was known as the film capital of the world. In recent years the cinema has suffered from competition with television; however, the film-making industry has turned to foreign production and the production of films for television to help counteract this setback.

Another factor in unifying American society has been its traditional mobility. One American in five moves house every year, and people enjoy a vigorous, active leisure for which the U.S.A. is physically well suited. Some of the most popular pastimes of Americans are swimming, water skiing, sailing, surfing, hunting, fishing, climbing, ski-ing, tobogganing and parachute-jumping. There are several mountain ranges, and apart from the Great Lakes there are thousands of groups of smaller lakes with over five thousand miles of shoreline. Huge preserves of forest, lake and stream are kept as state parks, which number over twenty-two thousand. There are also twenty-seven national parks, including Niagara Falls, the Grand Canyon, Yellowstone and the Everglades.

National Foundation on the Arts and the Humanities: 806 15th St., N.W., Washington, D.C. 20506; f. 1965 to

develop and promote national support for the arts and humanities in the U.S.; consists of the following bodies:

National Endowment for the Arts: supports the development and growth of cultural resources in the U.S. by giving matched grants to non-profit organizations, and unmatched grants to individuals; Chair. NANCY HANKS.

National Endowment for the Humanities: supports research, teaching, public programmes, improved university curricula and state and community programmes to encourage development and appreciation of the humanities; Chair. RONALD S. BERMAN.

National Council on the Arts and National Council on the Humanities: advise the respective endowment Chairmen on policies and procedures; each Council has 26 members chosen by the President.

Federal Council on the Arts and the Humanities: co-ordinates the activities of the endowments with the work of other Federal agencies; Chair. JOHN RICHARDSON, Jr.

The Federal Government grants aid to the arts under the following programmes: literary and music programmes of the Library of Congress and the National Gallery, the Office of Education (Arts and Humanities Branch), John F. Kennedy Center for the Performing Arts. Direct aid to the arts is also granted as an incidental part of wider programmes, such as the Cultural Presentations Program, the cultural exchange agreements with the U.S.S.R., the Urban Renewal Program.

Most states organize their own arts councils, which play a significant role in giving official support to the arts, notably in the states of New York, North Carolina and California. City and county governments have also developed a variety of channels for economic aid to the arts, and business corporations, charitable foundations and wealthy individuals frequently contribute at both state and county levels.

THE CONSTITUTION

American Samoa is administered by the United States Department of the Interior. A new Constitution was proposed by the Constitutional Convention and the Secretary of the Interior and approved by a territory-wide election in November 1966. Executive power is vested in the Governor, who is appointed by the Secretary of the Interior, but the new Constitution limits his authority in favour of the legislature. The President of the Senate and the Speaker of the House of Representatives have an equal voice with the Governor in choosing heads of Departments. Local government is carried out by indigenous officials. The Fono (Legislature) consists of two Houses. The Senate is composed of 18 members elected according to Samoan custom from local Chiefs. The House of Representatives consists of 20 members elected by popular vote. The Fono meets yearly in February for not more than 40 days and at such special sessions as the Governor may call.

THE GOVERNMENT

Governor: JOHN M. HAYDON.

Executive Departments: Administrative Services, Agriculture, Audit, Communications, Education, Information, Legal Affairs and Public Safety, Local Government, Medical Services, Personnel, Port Administration, Public Defender, and Public Works.

Trial Division hears original cases \$300 and over in civil as well as criminal cases. It serves as appellate court for 59 District Courts; Traffic Courts; Small Claims Court. Land and Title Division hears cases involving communal land questions and disposition of Matai titles to family litigants. Total caseload (1971) over 5,000 cases.

Chief Justice: WILLIAM J. MCKNIGHT.

Associate Justice: LESLIE JOCHIMSEN.

RELIGION

The population is largely Christian. Roman Catholics come under the jurisdiction of the Vicar Apostolic for Samoa and the Tokelau Islands (Catholic Mission, Apia, Western Samoa) Mgr. GEORGE H. PEARCE, Titular Bishop of Attalea in Pamphilia. U.S. EXTERNAL TERRITORIES—U.S. VIRGIN ISLANDS

U.S. VIRGIN ISLANDS

The U.S. Virgin Islands consist of three main islands (St. Thomas, St. John and St. Croix) and about 40 smaller islands (mostly uninhabited), situated at the eastern end of the Greater Antilles about 40 miles east of Puerto Rico in the Caribbean.

Recent History

America bought the Virgin Islands from Denmark in 1917, and they were administered through the Navy Department. In 1931 their administration was moved to the Department of the Interior and civilian as opposed to Naval Governors were appointed, usually of the same political allegiance as the President of the United States. The Democratic Party has been the majority party for many years, and Republican governors tended to be in conflict with the local Legislature, though over political rather than racial issues. In November 1970 the first gubernatorial election took place and was hotly contested by the three parties; the Republican incumbent, Melvin Evans, retained office. 1971 was the tricentenary of Denmark's colonization of the Islands.

Since 1945 the Virgin Islands have become a popular tourist centre as well as a place of settlement for a rapidly increasing number of Americans. The tourist trade has brought a measure of prosperity, but at the same time, in conjunction with the increase in population, it has created serious social problems and a drastic labour shortage. The basic amenities have been unable to keep pace with the demand; there has been a sharp increase in crime, and the Black Power Movement, imported from America, has begun to make itself felt. Nearly a third of the population are aliens due to the importation of labour, and this has

resulted in a serious problem for the U.S. Federal Immigration Service. At the same time, unless a regular supply of bona fide alien labour is established in most of the manual categories, the economy of the Islands is likely to receive a sharp set-back.

Area: Three main islands total about 140 square miles.

Population (1970 census): St. Thomas 29,565, St. Croix 31,892, St. John 1,743; total 63,200 of which more than 80 per cent are coloured.

Immigration: (est. total 1971 legally and illegally resident) 21,000; employed 16,000, of which 5,000 came from St. Kitts-Nevis-Anguilla; 2,840 from Antigua and 2,200 from Trinidad and Tobago.

Employment (1967): Mining and Manufacturing 1,969, Wholesale Trade 599, Retail Trade 3,954, Selected Services 2,945. (1971 est.) total labour force 38,000, of which 7,000 are in Government Service.

Agriculture: Some sugar is produced on St. Croix and vegetables on St. Croix and St. Thomas but most of the land is unsuitable for cultivation on a significant scale. Cattle are also raised on St. Croix, and meat is exported to Puerto Rico.

Fishing: Commercial fishing is on a small scale but there is considerable scope for game fishing, particularly for marlin.

Industry: The chief industries are tourism, watches, jewellery, metal articles and parts, rum distilling, textiles and petroleum products. Value of crushed stone produced in 1967 was \$851,000.

THE CONSTITUTION

The government of the U.S. Virgin Islands is organised under the provisions of the Revised Organic Act of the Virgin Islands enacted by the Congress of the United States on July 22nd, 1954. Executive power was vested in a Governor, appointed by the President of the United States with the advice and consent of the Senate until 1968, when Congress passed an act providing for an elected Governor. The Governor appoints, with the advice and consent of the Legislature, the heads of the eleven executive Departments and may also appoint administrative assistants as his representatives on St. John and St. Croix. Legislative power is vested in the Legislature of the Virgin Islands, a unicameral body composed of fifteen Senators elected by popular vote. Legislation is subject to the approval of the Governor. Bills disapproved by the Governor may be passed over his veto by a two-thirds majority, but if a bill is vetoed twice by the Governor, it must be sent to the President of the United States for final approval or disapproval. All residents of the islands, who are citizens of the United States and aged over 21, have the right to vote in local elections. They do not send representatives to the Federal Congress nor participate in national elections. In January 1971, the first elected Governor assumed office.

UPPER VOLTA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Upper Volta is a landlocked state in West Africa surrounded by Mali, Niger, Dahomey, Togo, Ghana and the Ivory Coast. The climate is hot and mainly dry with temperatures averaging 83°F (27°C); humidity reaches 80 per cent in the south during the rainy season June–October. French is the official language and there are three principal native tongues with many dialects. About 75 per cent of the population follow animist beliefs, some 20 per cent are Muslims and the remainder are Christians, chiefly Roman Catholics. The flag consists of horizontal stripes of black, white and red. The capital is Ouagadougou.

Recent History

Formerly a province of French West Africa, Upper Volta became a self-governing Republic within the French Community in 1958, achieving full independence in 1960. In January 1966 Lieut.-Col. Sangoulé Lamizana deposed President Yaméogo, dissolved the National Assembly, suspended the constitution and assumed the position of Chief of State at the head of a new cabinet. In December 1966 the supreme council of the army announced that military rule would continue for four years. Restrictions on political activities were lifted in November 1969 and a new civilian constitution adopted in June 1970. This was followed by elections for a National Assembly in December. Upper Volta is a member of the Conseil de l'Entente and OCAM.

Government

Upper Volta is a Republic, and between 1966 and 1970 was ruled by military decree. In 1970 the National Assembly was reinstated and a Prime Minister elected. Local administration is through eight "Départements" divided into 44 districts.

Defence

Military service is compulsory and lasts for eighteen months. Liability for service lasts for twenty-eight years. Armed Forces number 1,500 with 1,800 Police and Security Forces.

Economic Affairs

The economy is agricultural and most of the population are farmers or livestock-raising nomads. Settled agriculture is confined to the river valleys and oases and efforts are being made to extend the area of irrigated land. The chief crops are sorghum, millet, yams, beans, and maize. Livestock, meat, poultry, hides, beans and karité nuts and butter are the principal exports. Industry is limited to local handicrafts. Small deposits of gold, chromium, copper, iron and manganese are known to exist, but their extraction has only recently begun. The development plan adopted in 1967 envisages a 4 per cent growth rate for domestic production.

Transport and Communications

The Abidjan-Niger railway, jointly operated with the Ivory Coast, is the only line in Upper Volta, giving an

outlet to the sea at Abidjan. There are some 16,700 kilometres of roads of which nearly 7,000 kilometres are open all the year round. The airports at Ouagadougou and Bobo-Dioulasso can take the largest conventional aircraft. There are 47 airfields used for internal flights. International air transport is provided by Air Afrique and three other lines.

Social Welfare

The Government provides hospitals and rural medical services. A special medical service for schools is in operation. There are three hospitals, 30 medical centres, 71 maternity clinics and 257 dispensaries. An old-age and veterans pension system was established in 1960. New workers insurance schemes were introduced in 1967.

Education

Education is free but not compulsory with about 10 per cent of children receiving some schooling. Government grants are available for higher education in France and Senegal. A rural radio service is being established to further general and technical education standards in rural areas.

Tourism

The principal tourist attraction is big game hunting in the East and South West and along the river banks of the Black Volta. There is a wide variety of wild animals in the game reserves. Native dancing and traditional crafts are also of interest.

Visas are not required to visit Upper Volta by nationals of France, or, for visits of up to three months, by nationals of Belgium, the Netherlands and Luxembourg.

Sport

There is little organized sport but football and basketball are popular.

THE CONSTITUTION

By a constitutional referendum held on June 15th, 1970, the new constitution drawn up by the government was approved by 98.41 per cent of the votes.

The introduction proclaims the country's attachment to democracy, human rights, and African Unity. The President will be elected for five years by direct universal suffrage, and he may be re-elected but may not hold more than two consecutive mandates. However, as a transitional measure, for the first four years he will be the senior ranking army officer, which is Gen. Lamizana; and soldiers will constitute one-third of the government, which may not have more than fifteen members and will have a Prime Minister at its head.

The President ensures respect for the Constitution, the continuity of the State, and the regular running of the government. He presides over the Council of Ministers only as an exceptional measure when necessary. All acts of the President must be countersigned by the Prime Minister and the relevant Ministers; the President is Chief

of the Army and President of the Higher Council of Defence.

The people exercise their sovereignty through elected representatives and through referenda. Political parties and groupings may take part in elections for which the country is divided into eleven districts represented by fifty-seven deputies. The office of deputy is unpaid, but indemnities will be granted during sessions. Deputies may not keep their parliamentary mandate if called to ministerial office.

The Parliament consists of a single National Assembly, which votes laws and taxes and controls the action of the government. The government is headed by a Prime Minister, elected by the National Assembly at the suggestion of the President. Ministers and Secretaries of State are appointed and dismissed by the President at the suggestion of the Prime Minister, who presides over the Council of Ministers and directs the work of the government.

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Uruguay is the smallest of the South American republics. It lies on the north bank of the estuary of the River Plate with Brazil to the north and Argentina to the west. The climate is temperate with an average winter temperature of 14°-16°C and an average summer temperature of 21°-28°C. The language is Spanish. There is no state religion but Roman Catholicism is predominant with Protestant minorities. The flag consists of four blue stripes on a white field charged with a golden sun in a white canton next to the staff. The capital is Montevideo.

Recent History

Since the nineteenth century, the political scene has been dominated by two parties: the Colorados (Liberals) and the Blancos (Conservatives). Thanks to the progressive policies of José Batlle y Ordóñez, Colorado President from 1903 to 1907 and 1911 to 1915, Uruguay became the first welfare state in Latin America. The Presidency set up in 1934 was abolished in 1951 and the new Constitution of 1951 provided for a collegiate system of government. In 1959, the Blancos were returned to power, after 94 years in opposition. There was serious labour unrest during 1965 which twice led to the suspension of constitutional guarantees. In November 1966 the country voted to return to a Presidential system of Government. A new constitution was approved and General Oscar Gestido was elected President and took up his duties in March 1967, bringing the Colorados back to power. On his death in December 1967 Vice-President Jorge Pacheco Areco assumed the presidency. His period in office was marked by massive increases in the cost of living, labour unrest and the spectacular and embarrassing exploits of the Tupamaro urban guerrillas. Despite the President's uncompromising attitude to the guerrillas, none of the country's problems had been solved when the presidential and congressional elections were held in November 1971. After a close fought contest and a recount conducted by the army, the official Colorado candidate Juan María Bordaberry, was declared the winner in February 1972. President Bordaberry has promised to follow the policies of the Pacheco government, and, in view of the government's weak position in the General Assembly, has formed a cabinet which includes opposition members.

Government

Executive power is exercised by the President and a council of eleven ministers elected every five years. The legislative body is the bi-cameral General Assembly consisting of the Senate of 30 members plus its President who is also Vice-President of the Republic and the Chamber of Deputies of 99 members. Elections are held every five years by universal suffrage of citizens of eighteen years of age and over. For administrative purposes the country is divided into 19 Departments each under an Intendant and a Departmental Junta of 31 members.

Defence

The Army consists of volunteers between the ages of eighteen and forty-five who contract for one or two years

of service. There is a small Navy, and an Air Force is being built up with U.S. assistance.

Economic Affairs

The raising of livestock, particularly cattle and sheep, is the chief source of wealth, 60 per cent of the area of the country being used for this purpose. The principal agricultural products are wheat, maize, sunflower seed, rice, linseed, barley and oats. The Agricultural Development Plan, implemented in 1969, includes plans to improve 350,000 hectares of land. The principal industries are food processing (meat, sugar, milk, fruit, wine), hides and leather, textiles, construction, metallurgy and rubber, which is growing in importance. Most industries are concentrated in the Montevideo area; smaller centres are Paysandú, Río Negro, Lavalleja, Artigas and Colonia. Trade is mainly with the U.S.A. and the United Kingdom, the principal exports being wool and meat. The Ten-Year Plan of Economic Development 1965-74 aims to increase the GNP at an annual rate of 5.2 per cent. In recent years Uruguayan industrial production has stagnated (the gross national product in 1970 was 97.1 per cent of the 1960 figure and the number of bankruptcies in 1970 was more than the total for the preceding ten years); while the balance of payments has deteriorated despite government attempts to control imports and stimulate exports. The cost of living reached an annual rate of 135 per cent in 1967, but this was reduced to 20.9 and 35.7 per cent in 1971.

Transport and Communications

The easy nature of the terrain and the small area of the country make for rapid communications within Uruguay and with neighbouring Argentina and Brazil. The railways are state-owned and there are 1,866 miles of track. The total length of roads is some 9,000 km., of which 2,000 km. are paved. Inland waterways are an important means of transport and cargo and passenger services operate on the rivers Plate and Uruguay, which are navigable for 350 miles. Internal air services link the principal towns and international services are provided by one Uruguayan and a number of foreign airlines.

Social Welfare

Uruguay is noted for its advanced scheme of social welfare, which covers professional accidents, industrial diseases, sickness, old age, maternity and child welfare. Employment guarantees are in force and Government subsidies are available for workers. The pension age is low (30 years service, sometimes less); social charges faced by companies, however, are high (reaching 77½ per cent for the construction industry and more than 100 per cent in the wool industry and ports). There are also laws governing the protection of minors and women in employment, insurance against suspension from work, annual licences, redundancy payments, etc. Grants for families are provided by the Family Subsidies Fund.

Education

All education, including university education, is free and primary and the first stage of secondary schooling are compulsory. The programmes of instruction are the same in both public and private schools, but private schools are subject to certain state controls. According to the 1963 census, the rate of illiteracy was 8 per cent, but greater opportunities for education, distribution of books and increased school building are lessening that rate. There is one general and one technical university.

Tourism

The sandy beaches and lagoons on the coast and the forests of the interior with their variety of wild life and vegetation provide the main tourist attractions. Tourism is administered by the Ministry of Transport, Communications and Tourism.

Visas are not required to visit Uruguay for up to three months by nationals of Argentina, Austria, Belgium, Brazil, Canada, Chile, Denmark, Ecuador, Finland, France, German Federal Republic, Greece, Israel, Italy, Liechtenstein, Luxembourg, Netherlands, Norway, Paraguay, Spain, Sweden, Switzerland, United Kingdom and Dependent Territories and United States. Citizens of the American Republics do not, as a rule, need a visa when proceeding to Uruguay direct from their own country.

Sport

Football is the most popular sport (Uruguay has won various Olympic and World titles), the main centre being in the capital, but there are stadia throughout the country.

Basketball and horse racing are important and rowing is popular on the rivers Uruguay and Negro. Swimming, cycling, boxing, volley-ball, tennis, golf, yachting and fishing are also practised.

Public Holidays

1972: May 1 (Labour Day), May 18 (Battle of Las Piedras), June 19 (Birth of General Artigas), July 18 (Constitution Day), August 25 (National Independence Day), October 12 (Discovery of America), November 2 (All Souls' Day), December 8 (Blessing of the Waters), December 25 (Christmas Day).

1973: January 1 (New Year's Day), January 6 (Epiphany), March 7-8 (Carnival), April 16-22 (Holy Week), April 19 (Landing of the 33 patriots).

THE CONSTITUTION

The present constitution of Uruguay was ratified by plebiscite on November 27th, 1966, when the country voted to return to the presidential form of government after fifteen years of "collegiate" government. The main items of the Constitution are as follows:

General Provisions

Uruguay shall have a democratic republican form of Government, sovereignty being exercised directly by the Electoral Body in cases of election, by initiative or by referendum, and indirectly by representative powers established by the constitution, according to the rules set out therein.

There shall be freedom of religion; there is no state religion; property shall be inviolable; there shall be freedom of thought. Anyone may enter Uruguay. There are two forms of citizenship: natural, being persons born in Uruguay or of Uruguayan parents, and legal, being people established in Uruguay with at least three years' residence in the case of those with family, and five years' for those without of those with family, and five years' for those without of family. Every citizen has the right and obligation to vote.

Elections for both houses of the General Assembly, the President and Vice-President and for departmental governments shall take place every five years on the last Sunday in November, those elected to take office the following year.

Administration is by a central civil service, autonomous bodies and decentralized services.

Legislature

Legislative power is vested in the General Assembly, made up of two houses, which may act separately or together according to the dispositions of the constitution.

It is responsible for drawing up laws, establishing tribunals, arranging administration of justice and administrative litigation; expediting laws relating to the independence, security, peace and decorum of the Republic; laws relating to the protection of individual rights and development of agricultural, industrial and commercial life; it establishes fiscal contributions and the method of collection; it must approve accounts presented by the Executive Power, authorize the National Debt, regulate public credit; it may declare war and approve or reject, by absolute majority, peace treaties and all international agreements made by the Executive; it has jurisdiction

over the size of the armed force; it can create new Departments, by a two-thirds majority in each house; it can create or suppress public appointments; concede monopolies, by a two-thirds majority (absolute in the case of government departments).

It elects in joint session the members of the Supreme Court of Justice, of the Electoral Court, Tribunals, Administrative Litigation and the Accounts Tribunal.

Elections for both houses, the President and the Vice-President and the departmental governments shall take place every five years on the last Sunday in November; Sessions of the Assembly begin on March 15th each year and last until December 15th (October 15th in election years, in which case the new Assembly takes office on February 15th). Extraordinary sessions can only be called in cases of extreme urgency.

The Chamber of Representatives has 99 members elected by direct suffrage by the people according to the system of proportional representation, with at least two representatives to each Department. The number of representatives can be altered by law by a two-thirds majority in both houses. Their term of office is five years and they must be over 25 and natural citizens or legal citizens with 5 years' exercise of their citizenship. The members have the right to bring accusations against any member of the government or judiciary for violation of the Constitution or any other serious offence.

The Senate is made up of 30 members, elected directly by the people by proportional representation on the same lists as the representatives, for a term of 5 years. They must be natural citizens or legal citizens with seven years' exercise of their rights, and be over 30 years of age. The Senate is responsible for hearing any cases brought by the representatives and can deprive a guilty person of his post by a two-thirds majority.

The representatives and senators may not take any other paid state employment. The President and members of the Electoral Tribunal may not engage in party political activities. Any change in the civil or electoral registers requires a two-thirds majority in both Houses; any other changes require only a simple majority.

A permanent commission consisting of 4 senators and 7 representatives elected by proportional representation

shall be set up to watch over the observance of the Constitution and laws of the land.

The Executive

Executive power is exercised by the President and the Council of Ministers. There shall be a Vice-President, who shall also be President of the General Assembly and of the Senate. The President and Vice-President are elected by simple majority of the people by means of the system of double simultaneous vote, and remain in office for five years. They must be over 35 and natural citizens of Uruguay.

The Council of Ministers is made up of the office holders in the 11 ministries or their deputies, and is responsible for all acts of government and administration. It is presided over by the President of the Republic who has a vote.

Autonomous Bodies and Decentralized Services administer the industrial and commercial aspects of the country. A National Economy Council may be set up.

There shall be an Accounts Tribunal of 7 members, fulfilling the same qualifications as senators, designated by the General Assembly by a two-thirds majority. It shall be responsible to the General Assembly—both houses meeting together—for all matters connected with accounts of the State, Government Departments, Autonomous Bodies and Decentralized Services.

The Judiciary

Judicial Power shall be exercised by the Supreme Court of 5 members and by Tribunals and local courts; members of the Supreme Court must be over 40, natural citizens, or legal citizens with 10 years' exercise and 25 years'

residence, and must be lawyers of 10 years' standing, 8 of them in public or fiscal ministry or judiciary. Members serve for 10 years and can be re-elected after a break of 5 years. The Court nominates all other judges and judicial officials.

Administration

All government administration and services in the Departments except public security are in the hands of Departmental Juntas, consisting of 31 members, headed by a Municipal Intendant. Junta members must be over 23 years of age, natural citizens or legal with 3 years' exercise, and be a native of or resident in the Department for at least 3 years. They hold office for 5 years and election is by direct public vote. Intendants are elected under the same conditions as Senators and hold office for 5 years, and may be re-elected once more, provided they resign at least three months before the elections. The Intendant represents the Department in its relations with the state powers and with other Departmental governments.

There are also local Juntas, with five members, in towns outside the departmental capitals.

There shall be an Administrative Litigation Tribunal, made up of 5 members; its jurisdiction is over all definitive administrative acts emanating from state and government bodies.

There shall be an Electoral Court, with direct jurisdiction over all electoral matters. It is made up of 9 members, 5 designated by the General Assembly by a two-thirds majority and 4 designated by the General Assembly as representatives of parties, two each from the two most popular lists.

GENERAL ASSEMBLY

President of the General Assembly and of the Senate: Dr.
ALBERTO ABDALA.

ELECTIONS, NOVEMBER 28TH, 1971

PARTY	TOTAL VOTE	SEATS IN SENATE	SEATS IN CHAMBER
Partido Colorado .	681,624	14	41
Partido Nacional .	668,822	12	40
Frente Amplis .	304,275	5	18

POLITICAL PARTIES

The names of the two principal parties derive from the flags of the civil war of 1836, namely Blanco and Colorado. By tradition the Blanco Party is conservative and the Colorado Party more liberal.

Partido Colorado: The Party, which depends for its support largely on the urban area, controlled the executive for 94 years until the elections of 1958. It regained control in 1967 when Gen. GESTIDO became President under the new Constitution. In the elections of November 1971, there were two Colorado candidates. JUAN MARÍA BORDABERRY was the nominee of the outgoing President, JORGE PACHECO ARECO. JORGE BATLE IBANEZ, leader of the splinter group, *Unidad y Reforma*, obtained fewer votes than Sr. BORDABERRY and his votes were added to the BORDABERRY vote for the purposes of selecting the president.

Partido Nacional (Blanco): The Party, with its substantially rural support, won the 1958 and 1962 elections but lost in 1966. In 1971 the Party's presidential candidate was WILSON FERREIRA ALDUNATE who was narrowly defeated.

Frente Amplis: This coalition was formed to fight the 1971 election and represents all shades of left-wing opinion. Its candidate was LIBER SEREGNI.

Partido Demócrata Cristiano (PDC): formerly *Unión Cívica del Uruguay*; f. 1962; Pres. Arq. JUAN PABLO TERRA.

JUDICIAL SYSTEM

The *Supreme Court of Justice* has original jurisdiction in constitutional, international and admiralty cases and is the court of cassation for cases in which the decision has been altered or modified in lower appeal courts. It consists of five judges elected by the General Assembly. These hold office for ten years, and can be re-elected only after a five-year interval.

Supreme Court of Justice: Calle Ibicuy 1310, Montevideo; Pres. (1967) Dr. HAMLET REYES.

There are four *Courts of Appeal*, each with three judges.

In Montevideo there are 18 *Courts of the First Instance* (also dealing in commercial matters), 3 financial courts, 5 criminal instruction courts, 6 crime courts (formerly correctional courts), 2 juvenile courts and 1 customs court.

In the interior of the country there are Departmental Courts in the capitals of each of the 19 departments and also in other important towns; there are Justices of the Peace in each of the 226 judicial sections.

RELIGION

Under the Constitution, the Church and the State were declared separate and toleration for all forms of worship was proclaimed. Roman Catholicism predominates.

VENEZUELA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Venezuela, the sixth largest country in South America, lies on the north coast of South America and is bordered by Colombia to the west, Guyana to the east and Brazil to the south. The climate varies with altitude from tropical to temperate, the average temperature at Caracas being 69°F (21°C). The language is Spanish. There is no state religion, but most of the population are Roman Catholics. The flag consists of horizontal stripes of yellow, blue and red, the central blue stripe being charged with seven stars and the yellow stripe with the national coat of arms. The capital is Caracas.

Recent History

President Pérez Jiménez seized power in 1948 and remained in office until 1958 when he was overthrown by a military junta under Admiral Wolfgang Larrazabal. The next President, Rómulo Betancourt, was elected in the same year. His Government was greatly harassed and in 1960 there were serious left-wing riots. In 1961 the Constitution now in force was promulgated and in 1963 President Betancourt became the first Venezuelan President to complete his term of office when President Raúl Leoni was elected in December 1963. Venezuela was accepted as a member of the Latin American Free Trade Association (LAFTA) in 1965. Dr. Rafael Caldera was elected as President in December 1968; he has succeeded stabilizing the country politically and economically. Nevertheless, guerrilla activity continues and there has been much unrest in the universities in 1971. Colombia's decision to extend her territorial waters has led to a dispute between the two countries over the sovereignty of part of the Gulf of Venezuela. Presidential elections are due in December 1973.

Government

Venezuela is a Federal Republic consisting of 20 states, a Federal District and two Federal Territories, each under a Governor. Executive power is vested in the President who is elected for a five-year term by universal suffrage and has wide powers. The legislative organ is Congress, consisting of a Senate and House of Representatives. Both Houses of Congress are elected by universal suffrage.

Defence

Military service is compulsory for two years between eighteen and forty-five. The strength of the Army is about 15,000 men and there are a small Navy (including a body of Marines) and Air Force.

Economic Affairs

Oil, of which Venezuela is one of the world's leading producers, is the country's greatest asset. Average production in 1971 was 3.5 million barrels per day. The main oil-producing area is in and around Lake Maracaibo but exploration in other parts of the country is officially encouraged. In 1970 and 1971 the Venezuelan government enacted laws to increase Venezuelan participation in foreign banking enterprises, to nationalize the gas industry

and to assume ownership of foreign oil-companies' installations on the expiry of concessions in 1983. The government is also empowered to take over undeveloped oil-concessions within three years. However it is not government policy to discourage foreign investment and its attitude on this subject may cause difficulties in Venezuela's negotiations for closer economic links with the "Andean Group" of Lafta countries. Despite contributing about sixty per cent of the country's revenue, the oil industry employs only 22,000 people and with unemployment estimated at eight per cent, industrial diversification is a high government priority. Two liquified natural gas plants are planned and in 1971 an 859 million bolívares contract was signed with a Belgian-German consortium for the construction of a steel rolled-products plant. A petro-chemical complex has been established at El Tablazo on Lake Maracaibo with foreign participation. Other important minerals found in Venezuela are iron-ore, bauxite, gold, coal, manganese, diamonds and copper. In 1971 the *Programa Integral de Desarrollo Agrícola* was announced. It is designed to raise the living standards and output of 63,000 rural families at a cost of U.S. \$181.3 million. The chief crops are maize, coffee, cocoa, rice and cotton. Cattle farming is becoming increasingly important.

The first stage of the Guri dam project, begun in 1964, was completed in November 1968 and has an output of 525,000 kW. When the project is finally completed towards 1990, it will have an output of 6 million kW from 24 generators and will be one of the largest in the world; the cost is estimated at U.S.\$73 million.

Venezuela is a member of LAFTA, the OAS and OPEC. She is engaged in negotiations for closer links with the Andean Development Corporation.

Transport and Communications

The length of railway track is 291 miles and a 20-year National Railway Plan was inaugurated in 1950. There are 39,591 km. of all-weather roads. The river Orinoco is navigable for about 700 miles and there are steamer services on Lake Maracaibo. Internal air services are well-developed and international air transport is provided by four national and eleven foreign lines.

Social Welfare

Labour legislation protects workers and there are benefits for accidents, sickness and old age. A modified insurance scheme was introduced in 1967, entitling insured workers and their dependents to medical assistance, pensions etc., and granting aid to survivors.

Education

Primary education is free and compulsory between the ages of seven and fourteen. By 1970 there were 10,785 primary schools with 1,823,866 pupils. Secondary education, received by 497,769 pupils, lasts for four years with a further year for admission to higher education. There are six state and two private universities.

Tourism

The mountain peaks and the many forests and lakes form the main tourist attractions. Angel Waterfalls (3,212 feet) are reputed to be the highest in the world. In 1969 a state organization, CONAHOTU, was set up to promote tourism.

Visas are required by all visitors to Venezuela.

Sport

Football, tennis, golf, baseball and basketball are the most popular sports. Bullfighting also has a large following.

THE CONSTITUTION

(January 1961)

The Federal Republic of Venezuela is divided into States, a Federal District, Federal Territories and Federal Dependencies. The States are autonomous but must comply with the laws and constitution of the Republic.

The Legislative Power is exercised by Congress, divided into two Chambers: the Senate and the Chamber of Deputies.

Senators are elected by universal suffrage, two to represent each State, and two to represent the Federal District. There are in addition other Senators, their number being determined by law, who are selected on the principle of minority representation. Ex-Presidents of the Republic are also members of the Senate. Deputies are elected by universal suffrage, the number representing each State being at least two and for the Federal District one. Ordinary sessions of both Chambers shall commence on the second day of March of each year, and continue until the sixth day of the following July; thereafter, sessions are renewed from the first day of October to the thirtieth day of November, both dates inclusive. The Chamber of Deputies is empowered to initiate legislation. Congress also elects a Controller-General to preside over

the Audit Office (*Contraloría de la Nación*), which investigates Treasury income and expenditure, and the finances of the autonomous institutes.

The Executive Power is vested in a President of the Republic elected by universal suffrage every five years; he may not serve two consecutive terms. The President is empowered to discharge the Constitution and the laws, to nominate or remove Ministers, to take supreme command of the Armed Forces, to direct foreign relations of the State, to declare a state of emergency and withdraw the civil guarantees laid down in the Constitution, to convene extraordinary sessions of Congress, to administer national finance and to nominate and remove Governors of the Federal District and the Federal Territories. The President also appoints an Attorney General to act as a legal arbiter for the state.

The Judicial Power is exercised by the Supreme Court of Justice and by the Tribunals. The Supreme Court forms the highest Tribunal of the Republic and the Magistrates of the Supreme Court are elected by both Chambers in joint session.

A National Railway Plan was inaugurated in 1950 envisaging the construction of 1,515 miles of main line standard gauge in the first 10-year phase and 1,125 miles of branch line in the second:

Ferrocarril Puerto Cabello—Barquisimeto: Barquisimeto; 109 miles open; Superintendent Ing. VIRGILIO VIVAS.

Ferrocarril Guanta—Naricual: to serve Ciudad Bolívar.

Ferrocarril Encontrados—La Fría: 65 miles open; 3 ft. 6 in. gauge.

There are also two privately owned railways used to take iron ore to the Orinoco River ports.

Plans are under way for building an underground railway in Caracas. The first stage is to be completed by 1973.

ROADS

There are about 39,500 km. of highways which may be used at all seasons of the year. Approximately 14,000 km. of these are paved or improved. In addition, there is a fairly large network of roads which are open to traffic during the dry season.

Of the three great highways the first (600 miles) runs from Caracas to Ciudad Bolívar. The second, the Pan-American Highway (800 miles), runs from Caracas to the Colombian frontier and is continued as far as Cúcuta. A branch runs from Valencia to Puerto Cabello. The third highway runs southwards from Coro, through Trujillo and Mérida, to San Cristóbal, branching at Carora, through Barquisimeto, to join the National highway at Acarigua. This third highway has now been connected with La Ceiba, on the Lake of Maracaibo. In 1962 a 5½-mile bridge connecting the two shores of Lake Maracaibo was completed, thereby greatly improving communications between Caracas and Maracaibo. Nearly 200 million bolívares were spent on extensions to the road system of the industrial area of Guayana in 1963-64, and the area was linked with the rest of the country by the opening of the first bridge across the Orinoco river early in 1967; the four-lane bridge, more than a mile long, was built at a cost of U.S. \$37 million and cuts out the slow ferry crossing.

A new Marginal Highway is under construction along the western fringe of the Amazon Basin in Venezuela, the Colombia, Ecuador, Peru, Bolivia and Paraguay. The Venezuelan section now runs for 275 miles fully paved,

with 85 miles under construction; a bridge linking the Venezuelan and Colombian sections was opened by President Leoni in 1967. Other highway projects included the building of 2,320 miles of new highway to complete the major highway network in 1968. About 45 per cent of the country's roads are paved.

DEMOCRATIC REPUBLIC OF VIET-NAM

(NORTH VIET-NAM)

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Democratic Republic of Viet-Nam forms the northern part of the former state of Viet-Nam, previously an associate member of the French Union. The 17th parallel separates the Democratic Republic from the southern part, now called the Republic of Viet-Nam. To the north is China, to the west Laos and to the east the South China Sea. The climate is hot and wet with a monsoon season from May to October. The principal language is Vietnamese. The flag bears a yellow five-pointed star on a red background. The capital is Hanoi.

Recent History

Viet-Nam came under French colonial rule in the late nineteenth century and with Cambodia and Laos formed the Indochinese Union. During the Second World War the Japanese used Indochina for military purposes and in 1945 assumed direct authority over the colonies. With the surrender of the Japanese, the independent Democratic Republic of Viet-Nam was proclaimed in September 1945 and the communist Viet-Minh quickly became the dominant force in the provisional government. Negotiations with the returning French authorities broke down in 1946 and armed hostilities began. The Viet-Minh were successful in retaining control over the north and centre of the country, while in the south the French came to terms with anti-communist elements and in 1949 created the Associated State of Viet-Nam. The Geneva Agreements of 1954 brought the war to an end. Viet-Nam was partitioned into two military zones, with the communist forces regrouped north of 17° S. latitude and the non-communists south of it, pending a political settlement. The general elections throughout Viet-Nam, envisaged in the Geneva Agreements, have not taken place and the effect of the partition has been the continued existence of two governments in the country. From 1960 onwards the northern government has played an active part in the resistance movement in the south, greatly increasing this support after 1963. The U.S.A. intervened vigorously in the war in 1965, sending a large land-force to the south and bombing targets in the north. In November 1968 the bombing was halted and peace talks between the four participants in the war opened in Paris; the talks continued into the spring of 1972 without any major result. The aged President of the Democratic Republic, Ho Chi Minh, died in September 1969. In April 1971, 420 deputies were elected to the National Assembly. In April 1972, a major military offensive was launched against South Viet-Nam on several fronts but to date (May 1972) the outcome remains uncertain.

Government

Legislative power is vested in the National Assembly elected for a four-year term by universal adult suffrage. The Assembly elects the President of the Republic for a similar period. Executive power is exercised by the Council

of Ministers which is responsible to the National Assembly. There are seventeen provinces.

Defence

The defence forces consist of a strong army, an air force and a navy equipped with coastal patrol vessels. Total armed strength is estimated at about 450,000 men, with an additional 300,000 militia and security troops. Military service commences at 18 years of age, although 16-year-olds may be conscripted in war-time. Considerable military aid has been received both from China and the Soviet Union.

Economic Affairs

The economy is governed by a five-year plan. About 85 per cent of agriculture is collectivized. The chief crops are rice (the staple crop), wheat, maize, sugar, coffee, tea, fruit, tobacco, cotton, soya beans and jute. The vast forests yield bamboo and teak. There are coal deposits scattered over 750 square miles and producing about 2,500,000 tons annually, increasing to 3,200,000 in 1964. The most valuable deposit is the anthracite of Quang-Yen. Other minerals mined are tin, zinc, copper, chromium, iron, silver, mercury, gold and, most important, apatite (phosphate). The sea, rivers and lakes are rich in fish. Industries include iron and steel (at the Thai-Nguyen works), fertilizers, textiles, paper, food processing. Few statistics have been issued since the intensification of war in 1964.

Transport and Communications

There are 937 miles of railways based on Hanoi. Roads, badly damaged during hostilities, are being rebuilt and now extend for some 8,400 miles. Rivers are much used for transport. The first ship, a medium-sized sea-going vessel, *July 20*, was launched in 1965. The main port is Haiphong. There are internal air services and a direct line to Peking.

Social Welfare

The state operates a system of social security. Hospitals, dispensaries and sanatoria, number 373. Mobile medical teams treat trachoma, malaria and other diseases.

Education

There is compulsory education, where possible, for 10 years. Pupils number about 3,500,000. There is one university, at Hanoi.

Tourism

There are mountain and seaside resorts but few foreign visitors.

Sport

The state encourages team games and athletics.

Weights and Measures

The Metric System is in force.

REPUBLIC OF VIET-NAM

(SOUTH VIET-NAM)

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Republic of Viet-Nam is situated in the eastern part of south-east Asia with the Democratic Republic of Viet-Nam to the north of the 17th parallel and the Khmer Republic to the west. The China Sea lies to the east. The climate is warm and humid with a monsoon season from May to October. The language is Vietnamese. Buddhism is the religion of most of the population. There are sizeable groups of Cao-Daiists, Hoa-Hao, Confucians, Taoists and Roman Catholics. The flag is yellow with three horizontal red stripes. The capital is Saigon.

Recent History

Viet-Nam came under French colonial rule in the late nineteenth century and with Cambodia and Laos formed the Indochinese Union. Indochina was used for military purposes during the Second World War by the Japanese, who took over the colonial government in 1945. After the surrender of the Japanese, a communist-dominated front proclaimed the Democratic Republic of Viet-Nam. The independence of this government was not recognized by France and there followed an eight-year war between communist Viet-Minh and French forces. In 1949 France came to terms with non-communist elements and established the Associated State of Viet-Nam. The Geneva Agreements of 1954 brought hostilities to an end and partitioned the country into two military zones. The communists regrouped north of 17° S. latitude and the non-communists south of it, pending a political settlement. The general elections throughout Viet-Nam, envisaged by the Geneva Agreements, did not take place and the effect of the partition has been the continued existence of two governments, the Democratic Republic in the north and the Republic in the south. Ngo Dinh Diem became Prime Minister of the State of Viet-Nam in 1954 and, following a referendum, proclaimed himself President of the Republic of Viet-Nam in 1955. The authoritarian nature of the Diem regime provoked a serious resistance movement in the south. In November 1963 Diem was overthrown in a military coup, and a series of military governments held power between 1963 and 1967, when a new constitution was introduced and presidential and parliamentary elections held. The resistance movement in the south developed in the early 1960s into full-scale hostilities, and the Democratic Republic intervened to assist anti-government forces while the U.S.A. and allied powers have given enormous military and financial aid to the Republic. Preliminary talks between U.S. and North Vietnamese representatives opened in Paris in May 1968 and the talks were enlarged in November to include the Republic of Viet-Nam and the National Liberation Front. By April 1972 the talks having failed to achieve any important result and in response to large-scale Communist hostilities (see below), the U.S. postponed them indefinitely. In October 1971, President L. Thieu was re-elected, for a second term, unopposed.

In early April 1972, North Vietnamese forces launched a major military offensive against South Viet-Nam on

three fronts; in the north, in the central highlands and in the south. The U.S. resumed large-scale offensive bombing of North Viet-Nam and President Nixon announced a blockade and mining of all its ports. At the present time (May 1972) the outcome remains uncertain.

Government

Legislative authority is vested in the National Assembly, consisting of a House of Representatives elected for four years by universal suffrage, and a Senate whose members are elected by list voting for six years. Executive authority resides in the President, who is elected by universal suffrage for four years. The President appoints the Prime Minister and, on the latter's proposal, the members of the Government. There is a Supreme Court, whose functions include the interpretation of the Constitution.

Defence

South Vietnamese armed forces, commanded by Vietnamese officers and trained under U.S. supervision, include 374,000 ground troops, 33,000 airmen (including 1,200 pilots), 11,000 marines and 645,000 local militia and police. They are supported by U.S. forces totalling 69,000 men (April 1972) which are expected to be reduced to 39,000 by July 1st, 1972, and several thousand troops of other nationalities. Many of the villages have been fortified to resist guerrilla penetration. Vietcong forces are estimated at about 240,000.

Economic Affairs

The economy is dominated by agriculture. Rice is overwhelmingly the most important food crop, with about four-fifths of arable land under rice; maize, manioc and sweet potatoes are grown as a substitute for rice, while coffee and tea are also important. Rubber is the principal industrial crop, followed by sugar, coconut oil, copra and kenaf. Fishing provides a valuable supplement to the diet. Industry is confined to food processing, light machinery assembly, cement, paper, glass, beverages and textiles. As a result of the war situation the economy has declined; formerly the third largest exporter of rice in the world, Viet-Nam is now a rice-importer. Between 1966 and 1971, U.S. economic aid totalled about U.S. \$4,000 million. In 1966, the Plan for Revolutionary Development was inaugurated which aimed to rehabilitate the rural economy. In 1971 a programme of economic reform was begun—the Economic Revolution—which includes a 130 per cent devaluation of the piastre, abolition of austerity taxes on imported goods and pay increases for the civil service and the armed forces.

Transport and Communications

There are about 1,500 km. of railways and 20,027 km. of motorable roads. Inland waterways total 4,500 km., of which 2,200 km. are canals. Air Viet-Nam maintains internal services and flights to the Khmer Republic, Laos, Thailand, Hong Kong, Singapore, Taiwan and Malaysia. Saigon is one of the largest ports in Southeast Asia.

This recommendation is binding unless the President has special reasons for rejecting it. In the event of rejection, the National Assembly can override this by a three-quarters majority vote of total number of Representatives and Senators.

Representatives and Senators cannot be prosecuted, pursued, arrested or sentenced for any statement or vote in the National Assembly or its committees except in cases of flagrant violation of the law.

from among their members. The Government appoints two officials with the responsibility of assisting mayors, province chiefs, and village chiefs in administrative and security matters, as well as other administrative personnel. Members and heads of local government bodies may be dismissed by the President if they violate the Constitution, the law, or national policy.

THE JUDICIARY

The Judiciary is an independent branch of the Government, equal in status with the Executive and Legislative. Judicial power will be entrusted to judges and directed by the Supreme Court and lower courts; every court has to be established and organized according to law with an element which judges and an element which prosecutes. All courts are under the control of the Supreme Court.

The Supreme Court will consist of nine to fifteen judges, nine of them nominated by the High Judicial Council with the consent of the National Assembly and then appointed by the President; two will be nominated by the Senate and four by the House of Representatives for appointment by the President. The High Judicial Council will nominate 18 candidates for the Supreme Court, from which nine will be selected by the National Assembly. The members of the Supreme Court nominated by the High Judicial Council will hold office until they reach the statutory retirement age; those nominated by the Senate and the House of Representatives will serve for the same term as they would have in the respective houses. The President and Vice-President of the Supreme Court will be elected by its members.

The Supreme Court can review decisions by any lower court, but only in matters concerning the application of the law; it is empowered to decide on the validity of the Presidential and Vice-Presidential elections and proclaim their results. It will hold sessions to review the constitutionality of laws and decree laws, the constitutionality and legality of decrees and decisions issued by the Executive, to interpret the constitution in cases of conflict between Government agencies as to their responsibility and competence and to discuss the dissolution of a political organization.

The Supreme Court will have an autonomous budget and the right to determine its internal organization and procedures governing the management of the Judiciary; its organization and procedures will be determined by law.

The High Judicial Court will consist of one member of the Supreme Court, the Presiding Judges of the Courts of Appeal, one representative of the Ministry of Justice, the leader of the Association of Lawyers, and a number of elected members. The President and Vice-President will be elected by the Council's entire membership. It will have jurisdiction in promotions and disciplinary measures involving judges, the review of appointments and transfers of all judges, the nomination of certain judges for the Supreme Court, and advising the Government as well as the Supreme Court on all judicial matters.

The Judicial Council, which is elected by the judges from among their own number, proposes the appointment, promotion, transfer, and disciplining of judges, and advises the Supreme Court in matters relating to the judiciary.

SPECIAL INSTITUTIONS

Special Court: During each of its terms the National Assembly will elect five Senators and five Representatives to form a Special Court, chaired by the President of the Supreme Court; this Court will be empowered to judge the President and the Vice-President of the Republic, the Prime Minister, Ministers, Secretaries, Generals, members

of the Inspectorate and Justices of the Supreme Court when charges of treason or high crimes are brought against them. Charges will be brought by a motion signed by more than half of the total membership of both the Senate and the House of Representatives, and that motion must be approved by a two-thirds majority of the total membership of both houses. In the case of the President or Vice-President, the motion must be signed by two-thirds of the total number and approved by three-quarters. The Special Court is to decide removal from office by a three-fourths vote of its membership (four-fifths in the case of the President and Vice-President).

The **Inspectorate** includes from nine to eighteen inspectors, one-third designated by the National Assembly, one-third by the President, and one-third by the Supreme Court, and is empowered to investigate personnel of all public and private agencies on suspicion of being directly or indirectly engaged in corruption, speculation, influence-peddling, or acts harmful to the national interest; to inspect accounts of public agencies and corporations; and to audit the property of personnel of public agencies, including the President, Vice-President, Prime Minister, National Assembly members, and the President of the Supreme Court. In the case of the Chairman and members of the Inspectorate, the audit of personal property would be conducted by the Supreme Court. The Inspectorate announces publicly the results of its investigations, and proposes disciplinary action against guilty persons or requests prosecution by competent courts.

The **Armed Forces Council** advises the President on matters relating to the Armed Forces, especially promotion, transfer, and disciplining of military personnel of all ranks.

A **Culture and Education Council** assists and stimulates the Government in carrying out an educational policy in keeping with the criteria set out in the Constitution; one-third of the members will be appointed by the President and two-thirds will represent public and private cultural and educational organizations, parents and student associations and youth organizations from throughout the country; their term of office is six years, one-third of the membership being renewed every two years.

The **Economic and Social Council** has the mission of initiating and developing ideas on economic and social matters in order to establish a self-sufficient and prosperous economy. One-third of the members will be chosen by the President from among experts in the field of economics and sociology and two-thirds will be elected separately by economic, commercial and industrial organizations; their term of office is for four years.

The **Ethnic Minority Council**, representing the ethnic minorities living on Vietnamese territory, has the mission of advising the Government on all matters affecting ethnic minorities, with the purpose of helping them to develop politically, economically, culturally and socially. It is composed of one third members appointed by the President from people knowledgeable about minority affairs, and two thirds elected by ethnic minority groups; its term of office will be four years.

POLITICAL PARTIES AND OPPOSITION

Political parties can be freely established and operate openly in the spirit of the law and non-violence; they must respect the constitution, the law and national sovereignty. The State will facilitate their establishment and progress and encourage and assist progress towards a two-party system. The State recognizes the principle of formalizing political opposition.

REPUBLIC OF VIET-NAM—(THE CONSTITUTION, THE GOVERNMENT, DIPLOMATIC REPRESENTATION)

AMENDING THE CONSTITUTION

The President or an absolute majority of either the Senators or the Representatives may propose amendment of the constitution; no amendment may be made affecting the republican regime, the unity and the territorial integrity decided by the Constitution. A joint committee would study the proposed amendment and report to joint plenary sessions of the Assembly. A resolution to amend the Constitution must be approved by two-thirds of the total number of Representatives and Senators.

There will be a transitional period before the new constitution comes entirely into force; the Constituent Assembly elected in September 1966 will assume the legislative powers established by this constitution until a constitutional government and the first National Assembly have been established. NATIONAL ASSEMBLY

HOUSE OF REPRESENTATIVES

Election, 22 October 1967

One hundred and thirty-seven seats contested by 1,140 candidates; election on a personal, not a party, basis.

SENATE

Election, 30 August 1970

Forty-eight lists, comprising 10 candidates, stood for election for 30 seats, of which the Buddhists gained 10.

POLITICAL PARTIES

The Ministry of Interior reported in July 1968 that 47 legal and 80 illegal (non-registered) parties were permitted to operate in the Republic of Viet-Nam. None of these parties, however, were the broadly-based, national parties envisaged in the Constitution of April 1967, but derived their support from personal and regional loyalties or from special interests, e.g. nationalist middle-class groupings, such as *Dai-Viet* and *Vietnam-Quoc-Dan-Dang*, or religious parties, such as *Dan Xa* (the political offshoot of the Hoa Hao sect).

The Constitution of April 1967 sanctions the formation of political parties and encourages progress towards a two-party system. The Political Parties Bill, approved by the National Assembly in June 1968 and by the Senate in April 1969, stipulates that all parties must be officially recognized by the Ministry of the Interior but they have the right to oppose the government provided this right is "conducted publicly, legally, non-violently and within the framework of serving the country". The Bill also sanctions the dissolution of a party if its activities are considered to be against the regime, prohibits members of the armed forces from working for political parties, and lays down that offences against the law are punishable by five years' imprisonment.

In response to appeals from President Thieu for the formation of a two-party system, the following political groupings were formed during 1969:

Pro-Government Party

National Social Democratic Front: inaugurated 25 May 1969; brings together the six parties listed below:

Greater Viet-Nam Revolutionary Party: faction of the right-wing *Dai-Viet* (Greater Viet-Nam Party); Leader HA THUC KY.

People's Alliance for Social Reform: f. July 1968 as a regrouping of 28 politico-religious parties and organizations, including the Liberal and Democratic Front (f. March 1968) and the Workers' and Peasants' Party (party of the Confederation of Vietnamese Labour), aiming to build a solid common front in the face of communist aggression; Leader NGUYEN VAN HUONG.

Humanitarian Socialist Party: remnants of the *Can Lao*, the only legal party under the regime of Ngo Dinh Diem; Leader TRUONG CONG CUU.

Opposition Parties

National Salvation Front: f. February 1968 with the object of uniting pro- and anti-government parties in an anti-communist front; joined the People's Alliance for Social Reform (see above) in July 1968 but left the grouping in April 1969; Leader Gen. TRAN VAN DON.

Progressive Nationalist Movement: f. 1969; Sec.-Gen. Prof. NGUYEN NGOC HUY.

Progressive Forces Alliance: advocates a cease-fire and the formation of a "reconciliation" government, excluding the N.I.F., to prepare the way for elections.

Other groups in opposition to the government include the pacifist Buddhists, led by THICH TRI QUANG, moderate Catholics, the Cao Daiists and a section of the Hoa Hao.

Socialist Democratic Party: faction of the Hoa Hao sect.

Anti-Government Fronts

National Liberation Front (N.L.F.): Leader NGUYEN HUU THO. On 10 June 1969 the N.L.F. announced the formation of a "Provisional Revolutionary Government of the Republic of South Viet-Nam". The members are (with special responsibilities):

HUYNH TAN PHAT (Prime Minister); Prof. NGUYEN VAN KIET (Deputy Prime Minister, Education and Youth); NGUYEN DOAN (Deputy Prime Minister); Dr. PHUNG VAN CUNG (Deputy Prime Minister, Interior); TRAN BUU KIEM (Minister in Prime Minister's Office); TRAN NAM TRUNG (Defence); Mme NGUYEN THI BINH (Foreign Affairs); CAO VAN BON (Economy and Finance); LIEU HUU PHUOC (Information and Culture); Mme. DUONG QUYNH HOA (Health and Social Affairs); TRUONG NHU TANG (Justice).

Alliance of National, Democratic and Peace Forces: Formation announced February 1968; Chair. TRINH DINH THAO.

JUDICIAL SYSTEM

The judicial system is based on the Constitution of April 1st, 1967. The Judiciary consists of the Supreme Court, a Special Court, a Council of State, an Administrative Court, Courts of Appeal and Lower Courts:

The Supreme Court: consists of fifteen Justices, serving a six-year term, who when chosen by the National Assembly from thirty Jurists elected by the Associations of Judges, Prosecutors and the Bar, are appointed by the President. Chief Justice: TRAN MINH TIET.

The Special Court: Comprises the Chief Justice as presiding judge, five Senators and five associate judges; is empowered to remove from office the most high-ranking persons in the Republic, including the President, in cases of treason and other high crimes.

The Council of State: reviews all sentences ruled in the first instance by the Administrative Court. Appeals may be made to the Administrative Cassation of the Supreme Court. Chair. DO QUANG HUE.

The Administrative Court: settles disputes between citizens and the Government. President: HA NHU VINH.

There are two Courts of Appeal in Hue and Saigon which decide on civil and criminal cases rendered by the Lower Courts. Judgements can be retried by the Civil or Criminal Courts. Judgements of the Supreme Court. Presidents (Saigon): Cassation of the Supreme Court. Presidents (Saigon): DINH VAN HUAN. (Hue): PHAM VAN HIEN. The Lower Courts comprise eleven Courts of First Instance: twenty Courts of Peace with Extended Jurisdiction holding weekly and monthly circuit sessions in remote villages: eight Labour Courts; four Land Courts; four Juvenile Courts; eight Martial Courts, four in forward areas.

RELIGION

Buddhism: Became the official religion under the Ly dynasty (1009-1225). There are many sects.

Buddhist Unified Church: Saigon; f. 1963; Leader THICH TINH KHIET; split in 1966 into a militant faction (An Quang) from Central Viet-Nam, led by THICH TRI QUANG, the moderates, led by THICH TAM CHAU, comprising, since 1954, emigrants from the North and lastly, the non-political southerners.

Jetavana Vihara: 610 Phan-Dinh-Phung, Saigon; 10,000 mems.; Pres. Ven. NAGA MAHA THERA-BUU-CHON.

Caodaiism: Has attracted a substantial following since 1926 and (in 1969) claimed nearly 3 million adherents. Caodaiism is a synthesis of Buddhism, Confucianism, Taoism and Christianity, preaching that the principal founders of religion are the successive reincarnation of the Supreme God. Tay-Ninh at the foot of Mount Ba-Den is the principal shrine.

Hoa Hao: The Hoa Hao is a Buddhist sect which originated in 1919 in the village of Hoa Hao (Delta region). The sect was founded by HUYNH PHU SO.

Hoa Hao Buddhism numbers about 1.5 million adherents in the western part of the Republic of Viet-Nam.

Confucianism: Introduced from China during the era of Chinese domination.

Christianity: The first missionaries arrived in the sixteenth century. There are 1.7 million Catholics, many of whom emigrated from North Viet-Nam after the Geneva Agreement of 1954. 1,256 schools and 41 hospitals are operated by Catholics.

Archbishop of Saigon: Most Rev. PAUL NGUYEN VAN BINH (180 Phan-dinh-Phung, Saigon).

Archbishop of Hué: Most Rev. PHILIPPE NGUYEN KIM DIEN (6 Nguyen Truong To, Hué).

Taoism: The only indigenous religion of China. Initiated by LAO TSE (c. 500 B.C.) and developed by CHUANG TSE-TAO—the Way or the Path—is the true principle of life and is mystical and universal. Taoism later became associated with ritual and magic and consequently declined in importance.

WEST INDIES ASSOCIATED STATES

ANTIGUA

DOMINICA

GRENADA

ST. CHRISTOPHER*-NEVIS-ANGUILLA

ST. LUCIA

ST. VINCENT

A group of Caribbean islands sharing a common relationship with Britain and participating in regional co-operative organizations.

INTRODUCTION

Associate Status: During 1966 the British Government and each of the Windward and Leeward Islands, except Montserrat, concluded a number of agreements establishing a new non-colonial relationship between the United Kingdom and the following former colonies (dates of association in brackets): Antigua (February 27th, 1967), Dominica (March 1st, 1967), Grenada (March 3rd, 1967), St. Christopher-Nevis-Anguilla (February 27th, 1967), St. Lucia (March 1st, 1967), St. Vincent (October 27th, 1969). The association is free and voluntary and can be terminated unilaterally by either party.

On July 28th, 1971, the United Kingdom Government adopted legislation which had the effect of restoring direct British rule to Anguilla. The island will remain part of St. Christopher-Nevis-Anguilla, however, so long as the latter retains its status of association with the U.K.

Defence and External Affairs: The British Government retains responsibility for defence and external affairs and there is a British Government Representative for the islands to supervise this aspect of the arrangements. External affairs and defence policy are conducted in close consultation with the governments of the Associated States, to whom authority may be delegated in the following affairs: membership of international organizations of which the United Kingdom is a member, trade agreements, agreements of local concern negotiated with Caribbean members of the Commonwealth, agreements of a financial, cultural or scientific nature with any Commonwealth member or with the U.S.A., and agreements relating to migration. The Associated States are to provide any defence facilities that might be requested by the British Government.

British Government Representative: JOHN EWART MARNHAM, C.M.G., M.C., T.D. (resident in Castries, St. Lucia).

Internal Government: Each State exercises full internal self-government. The Queen is Head of State and is represented in each case by a Governor, who replaces the former Administrator. The structure of internal government is regulated by separate constitutions for each island. Dominica, St. Kitts, St. Lucia and St. Vincent have unicameral parliaments of 10, 10, 11 and 13 members

respectively, with three nominated members and one *ex-officio* member. Antigua and Grenada have bicameral legislatures, consisting of an Upper and a Lower House. The life of parliament is five years in each case. The Premier and Cabinet of each State are responsible to the parliament.

Constitutional Amendments: The association agreements may be terminated at any time, either by an Associated State, after necessary legislation has been passed, or by the British Government, which may declare the State independent. Legislation terminating the association requires a two-thirds majority in the Lower House and a two-thirds majority in a referendum, except if the association is terminated for the purpose of joining a federation, union or association with an independent Commonwealth country in the Caribbean. Constitutional amendments may take place only in the territory concerned. Amendments involving basic clauses of the Constitutions (e.g. fundamental freedoms) would require approval of two-thirds of the members of the parliament or of two-thirds of the electorate. In the case of Antigua, both provisions would need to be satisfied before such an amendment could be passed.

Judicial System: A Regional Supreme Court of Judicature has been established for the five Associated States and is composed of a High Court of Justice and a Court of Appeal, the latter replacing the Eastern Caribbean Court of Appeal. The jurisdiction of the High Court includes fundamental rights and freedoms, membership of the parliaments, and matters concerning the interpretation of the constitutions of the Associated States.

Citizenship: Citizens of the Associated States continue to be citizens of the United Kingdom and colonies. Should the association be terminated, separate citizenship for each State will become operative, and will apply to those born in the territory, those whose fathers were citizens of the territory, and women married to citizens of the territory.

Other Provisions: The association arrangements also provide for the establishment of Police and Public Service Commissions, entrenched constitutional clauses on Human Rights, the continuation of British policies on trade, aid and immigration in the Associated States, and the prospect of future regional co-operation in the Caribbean area.

* While this island is officially named St. Christopher as part of the state, it is almost invariably abbreviated to St. Kitts.

A Regional Development Bank was established in October 1969. Other recommendations include tourist development, the development and co-ordination of industry, agriculture and fisheries, the establishment of joint marketing boards and joint commercial bodies.

DOMINICA

Dominica is the most northerly of the Windward Islands, lying between Guadeloupe and Martinique. About one fourth of the total area of the island is under cultivation—exploitation being limited to the volcanic soils. The chief agricultural pursuit is the growing of bananas, followed closely by citrus fruit, particularly the lime, which besides producing edible fruit and juices, also yields various essential oils which are of value in pharmaceutical products. Oranges, cocoa, vanilla and coconuts are other crops. Production is mainly carried on from small holdings owned and worked by peasant farmers, who supply both home needs and an export trade.

St. Kitts (St. Christopher)

This island is about 65 sq. miles in extent, 28 miles long and 5 miles wide.

ANGUILLA

Some 35 sq. miles in extent, Anguilla lies 70 miles to the north of St. Kitts, and has an estimated population of 6,000 (1968).

A subsistence agrarian economy is practised and the island also derives income from the sale of postage stamps and salt. Approximately £15,000 per year is received from expatriate workers. The unit of currency is the East Caribbean dollar (EC\$).

CONSTITUTION

Anguilla was a British colony from 1650 until February 1967, when it became part of the Associated State of St. Kitts-Nevis-Anguilla. The island declared independence from St. Kitts in May 1967, and in a plebiscite held that month 1,813 votes were in favour of the move, 5 against. In January 1968 Mr. Anthony Lee was appointed British Commissioner for one year, to attempt a negotiated settlement. At the end of the year no settlement had been achieved, and Britain withdrew financial aid. In February 1969 Anguilla was declared an independent Republic with an American style Constitution. A plebiscite held that month endorsed this move by 1,739 votes to 4, after which Mr. Ronald Webster adopted the title of President. The Anguillians demanded the withdrawal of Mr. Lee and expelled all British citizens from the island. In March the British Government sent an invasion force of paratroopers and civilian police. Development aid was restored at the former level of £50,000 a year and measures have been taken to improve the island's infrastructure. By September, the paratroopers had been withdrawn, and it had been decided to set up a joint commission to decide the future of Anguilla. The commission was appointed in February 1970, and reported in November, recommending that Anguilla should remain part of the Associated State of St. Christopher-Nevis-Anguilla, but with greater control over its own affairs. The report was rejected by the

Anguillian leader, Mr. Ronald Webster, who opposed all links with St. Kitts, and by Mr. Robert Bradshaw, the Prime Minister of St. Kitts, who maintained that the British proposals contravened the constitution of the Associated State. However, in July 1971, the United Kingdom Government went ahead with a bill to restore direct British control over Anguilla, which would cease to be part of the Associated State of St. Kitts-Nevis-Anguilla if the Government of the Associated State were to terminate its status of association with the U.K. This was condemned by the St. Kitts House of Assembly, but was the cause of celebrations among the population of Anguilla. The future status of the island is to be determined by a referendum to be held within five years of the British legislation.

YEMEN ARAB REPUBLIC

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Yemen Arab Republic is situated in the south-west corner of the Arabian Peninsular, bounded to the north and east by Saudi Arabia, to the west by the Red Sea, and to the south and east by the People's Democratic Republic of Yemen (formerly Aden and the Federation of South Arabia). The climate in the semi-desert coastal strip is hot, with high humidity; inland, the climate is somewhat less hot, with heavy rainfall. The eastern plateau slopes into desert. The language is Arabic. The population is almost entirely Muslim, split between the Shafai and Zaidi sects. The flag of the Yemen Arab Republic consists of three black, white and red horizontal stripes, with a green star on the white stripe. The capital is Sana'a.

Recent History

Imam Ahmed of the Yemen died in September 1962. He was succeeded by his son, Imam Muhammad, but a week later, after a *coup d'état* by Colonel Abdullah Sallal, the Imam withdrew from the capital, rallying his supporters in the mountains to the north-east. The Imam's followers were supported by Saudi Arabia and those of Colonel (later Major-General and President) Sallal by the United Arab Republic. The Republican Government was recognized by the majority of countries and the United Nations. In the remoter parts of the country the Imam continued to rule and to fight against the Sana'a government. An agreement between President Nasser of the U.A.R. and King Faisal of Saudi Arabia at a conference in August 1967 resulted in the withdrawal of Egyptian troops from the Yemen by December. President Sallal was overthrown in a bloodless coup in November 1967 and a Presidential Council established. A major Royalist offensive besieged Sana'a for some time early in 1968, but a Republican recovery and dissension amongst the Imam's forces followed; during 1969 most leading Royalists were in exile and hostilities virtually ceased. In the spring of 1970 a number of Royalists returned to take up important positions in Sana'a, following an informal peace settlement between the Republic and Saudi Arabia. Full diplomatic relations with Riyadh and several Western countries followed later in the year, but relations with the left-wing government in Aden remained hostile. In July 1971 there were rumours of an attempt by senior army officers to overthrow the government, and several officers were dismissed. In September the Prime Minister, Lt.-Gen. Hasan al-Amri, went into exile after reportedly murdering a man in his office. Tension between Sana'a and Aden increased in March 1972, following a reported attempt at invasion of the People's Democratic Republic by mercenaries.

Government

The National Congress, meeting (without the participation of the Royalists) at Khamer in May, 1965, published an interim constitution, setting up a supreme Consultative Assembly with power to make laws, remove members of the Republican Council and nominate the President. A new constitution was promulgated in December 1970, and elections for a Consultative Council were held in 1971.

Defence

The Republican Government has set up a National Defence Council to control all defence matters. Military service is compulsory. All Egyptian armed forces withdrew at the end of 1967, but supplies of equipment from other Arab countries continue.

Economic Affairs

Agriculture is the principal activity. In the highlands the land is terraced and irrigated and quite fertile. The chief crops are millet, maize, sorghum and oats. Oranges, plums, apricots, apples, bananas, quinces and lemons are grown, and dates are produced in low lying areas. High quality Moka coffee is the principal export crop. There is a little light industry. Agriculture suffers from severe drought; a succession of dry years led to an extensive famine in 1970, though rains followed later in the year.

Transport and Communications

There are no railways in the Yemen. Roads are being developed with Chinese, American and Russian assistance. There are highways from Hodeida to Sana'a and from Moka to Taiz and Sana'a. Hodeida port has been considerably extended with Soviet aid. A direct road from Taiz to Sana'a was opened in January 1969, after being blocked by Royalist forces for more than a year. The Yemeni Airline Co. operates internal services and services to Cairo, and Sana'a airport is equipped for jet aircraft.

Social Welfare

Under the Imamate there was little provision for social welfare. The Republicans intend to bring about a social revolution on the lines of that achieved in Egypt.

Education

Education before the revolution was in private hands. The Republican Government is establishing new schools run by the state.

Tourism

Tourism is undeveloped.

Sport

The chief sports are football, hunting and hawking.

Public Holidays

1972: April 26 (Mouloud—Birth of Muhammad), September 26 (Proclamation of the Republic), November 8 (Id ul Fitr).

1973: January 17 (Id ul Adha), February 17 (Muslim New Year).

Weights and Measures

Local weight and measures are used, and vary according to location.

Currency and Exchange Rates

The principal unit of currency is the Yemeni riyal of 40 bagsha. The Indian Rupee also circulates.

Coins: $\frac{1}{2}$, 1, 2, 4, 5, 10, 20 bagshas.

Notes: 10, 20 baghas; 1, 5, 10 riyals.

Exchange rate: approx. 13 riyals = £1 sterling
4.69 riyals = U.S. \$1

PEOPLE'S DEMOCRATIC REPUBLIC OF YEMEN

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The People's Democratic Republic of Yemen (formerly Southern Yemen) comprises the strategic port of Aden and a large area of mainly desert territory (including the Hadhramaut) in South-Western Arabia. Her neighbours are Yemen Arab Republic to the north-west, Saudi Arabia to the north, and Oman to the east. The islands of Perim and Kamaran at the southern end of the Red Sea have opted to join the Republic. The climate is hot and dry. Arabic is spoken and most of the population are Muslims. At present the N.L.F. flag is being used but a new national standard will be designed. The capital, formerly known as Al Ittihad, has been renamed As Shaab (the People's City).

Recent History

The People's Republic of Southern Yemen is formed from the former states of Aden, a British colony since 1839, and the 27 Protectorate States, which entered into treaty relations with Britain between 1882 and 1914. The majority of these states were formerly members of the Federation of South Arabia, formed in 1959 among some of the Western Protectorate States, and subsequently joined by Aden and by many other of the Protectorate States. However, in 1967 nationalist groups took power in many of the states, and the authority of the Federal Government broke down in September. In negotiations at Geneva Britain reached agreement with the National Liberation Front, which had been pressing for immediate independence, and British forces were withdrawn in November 1967. The country achieved independence on November 26th, 1967, and Qahtan Muhammad as-Shaabi was named President; plans for unification with the Yemen Republic have not been put into effect. Since then sporadic fighting with both Yemeni Royalist forces and rival nationalist groups has continued in the hinterland; late in 1969 there was also a clash with Saudi Arabian armed forces. In June 1969 President as-Shaabi was replaced by a five-man Revolutionary Council headed by Salem Rubayyi. A new constitution and name for the republic were introduced in November 1970. Early in 1972 the Government reported that there had been fresh attempts to invade the country, using mercenaries.

Government

A 101-member Provisional Supreme People's Council exercises legislative power until a permanent Council can be elected. The country is divided into six Governates.

Defence

The Republic has an army of 9,000 men and is engaged in training a small Air Force. The U.S.S.R. is reported to be supplying military aid.

Economic Affairs

Before independence the economy of the area had depended to a considerable extent on revenues from Aden, an important free port which also benefited from the British forces expenditure. The political troubles brought

about a decline in tourism, and the closure of the Suez Canal greatly reduced shipping traffic generally. The major oil refinery in Aden also suffered initially, but has since recovered owing to demand from Egypt following the destruction of the Suez refinery. The economy has otherwise declined since independence; British aid ceased in summer 1968, but aid from several Communist and Arab countries continues on a limited scale. All important foreign business enterprises except the B.P. refinery were nationalized in November 1969. The hinterland depends on subsistence agriculture and fishing; the rich fishing grounds are so far largely unexploited. Some cotton is grown which constitutes the country's major export.

Transport and Communications

When the Suez Canal is open Aden is the principal port of call for traffic between Europe and the Persian Gulf, India and the Far East. There are also good international air services. Few roads exist inland, and transport is mainly by camel and donkey.

Social Welfare

There is one general hospital, fourteen rural hospitals and a number of clinics, medical units and dispensaries with a total of around 1,300 beds. Health services are also provided by the B.P. refinery and mission stations. No comprehensive system of social insurance yet exists.

Education

Educational facilities include nearly 400 primary schools, 83 secondary and intermediate schools, 6 teacher training colleges and a technical institute.

Tourism

Aden, a free port before independence, then attracted many visitors from shipping calling at the port, but there are no tourist facilities in the hinterland.

Public Holidays

1972: April 26 (Birth of the Prophet), September 8 (Ascension of the Prophet), October 14 (National Day), November 8 (Id ul Fitr), December 25 (Christmas).

1973: January 17 (Id ul Adha), February 6 (Muslim New Year), February 15 (Ashoura).

Weights and Measures

The Imperial System is generally used in Aden, while the rest of the country still employs a variety of local measures.

Currency and Exchange Rates

The currency unit is the South Arabian Dinar, which is divided into 1,000 fils. The currency was devalued by 14.3 per cent in November 1967.

Coins: 1, 5, 25 and 50 fils.

Notes: 250 fils, 500 fils, 1 Dinar and 5 Dinars.

Exchange rate: 1 South Arabian Dinar = £1 sterling.
0.38 South Arabian Dinar = U.S. \$1.

THE CONSTITUTION

Before the new constitution was drawn up existing ordinances and regulations remained in force, with Presidential authority replacing the powers of the British and Federal Governments. The National Liberation Front general command, which had 41 members, formed the interim legislative authority. The country is divided into six administrative Governates. The two-year term of

office granted to the National Liberation Front expired on November 30th, 1969, and was formally renewed for another year. Following the adoption of the new constitution on November 30th, 1970, a Provisional Supreme People's Council took over legislative powers. The 101 members were selected from the NLF, armed forces, professions, etc., with 15 workers elected by trade unions.

ZAIRE

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Republic of Zaire, until October 1971 known as the Democratic Republic of the Congo, is a vast territory in the heart of Central Africa bounded by the Congo Republic (Brazzaville) and the River Zaire to the north-west, by the Central African Republic and the Sudan to the north, by Uganda, Rwanda, Burundi and Tanzania to the east and by Zambia and Angola to the south. There is a short coastline at the outlet of the Zaire. The climate is tropical with an average temperature of 80°F (27°C) and an annual rainfall of 60 to 80 inches. French is the official language. Over 400 Sudanese and Bantu dialects are spoken, Swahili, Kiluba, Kikongo and Lingala being the most widespread. African religions are based on traditional beliefs. Christian missions have long been active. There are small Muslim and Jewish minorities. The flag is green and contains a central yellow disc in which a black hand holds a torch with a red flame. The capital is Kinshasa.

Recent History

The Congo regained independence from Belgium on June 30th, 1960. Five days later the *Force Publique* mutinied. Belgian actions during the disorder that followed and her support for the secession of Katanga were condemned in the UN and UN troops were sent to the Congo to maintain order. Disagreement between Patrice Lumumba, the Congo's Prime Minister, and Dag Hammarskjöld, the UN Secretary-General, on the role of UN troops in ending Katangan secession led to preparations by Lumumba, with Russian assistance, to send Congolese forces into Katanga. However, in September, the Head of State, Joseph Kasavubu, replaced Lumumba with Joseph Ileo, and the government later allied itself with Col. Joseph Mobutu's alternative régime of university-educated people, which he claimed would replace politicians. Lumumba was imprisoned by the government but his supporters set up a rival government in Stanleyville (Kisangani) which controlled Orientale, Kivu and northern parts of Kasai and Katanga.

In January 1961 Lumumba and two colleagues were murdered in Katanga. The strong reactions to this in Africa and the UN led to negotiations between Kasavubu and the followers of Lumumba which eventually produced a new government with Cyrille Adoula as Prime Minister. In September 1962, fighting broke out in Katanga between UN troops and the local gendarmerie, which included many Belgians and white mercenaries. Hammarskjöld was killed in a plane crash when flying to negotiate with Moïse Tshombe of Katanga. Katangan secession only ended in January 1963 after more fighting and with Tshombe going into exile.

During 1962 the Lumumbists left the government, which later assumed full powers, closing parliament, and arresting opposition elements. Early in 1964 revolt flared up in Kwilu under Pierre Mulele and fighting between his followers and the Congolese army spread to Orientale and Kivu. In July Kasavubu appointed Tshombe as an interim Prime Minister pending elections, and with American

and mercenary support Tshombe was able to push back the rebels. Early in 1965 the revolt crumbled. Elections were held in June but irregularities prevented the National Assembly meeting. The struggle between Tshombe and Kasavubu for the new post as President brought about the seizure of power by the army under Mobutu in November. In July 1966 and 1967 there were two further revolts, by pro-Tshombe mercenaries and Katangan soldiers. In September 1968 Mulele returned to Kinshasa from Brazzaville after being promised a pardon but was almost immediately tried secretly and executed. Congo (Brazzaville) broke off diplomatic relations with Kinshasa and tension between the two countries, periodically inflamed by mutual accusations of interference in each other's affairs, continues. The latest source of dispute has been the Kinshasa government's unilateral change of name of the Congo River to Zaire in October 1971. At the same time the Democratic Republic of the Congo became the Republic of Zaire.

In March 1968 the Congo formed an economic union with Chad and the Central African Republic, but the latter withdrew before the union became effective. Closer co-operation with Rwanda and Burundi began in 1969 and eventual economic union is planned.

In January 1972 a Nationality Law was introduced, under which all officials were required to take authentic Zairese names. President Joseph-Desiré Mobutu then became Mobutu Sese Seko.

Government

A new constitution, the second since independence, was adopted by an overwhelming majority in a referendum held in June 1967. It provides for a Presidential régime, with a single legislative chamber elected by universal suffrage, and wide powers for the head of state who will also head the government. There are eight Provinces. In 1966 the use of European names alongside Congolese names for some towns was abandoned: Léopoldville is Kinshasa, Elizabethville is Lubumbashi, Stanleyville is Kisangani, Albertville is Kalemie, Coquilhatville is Mbandaka, Paulis is Isiro and Banningville is Bandundu.

Defence

The Armed Forces, built up under Belgian rule as the Force Publique, are known as the Armée Nationale Congolaise and consist of troops, parachutists and air and sea forces. Military service is compulsory. Total armed forces: 30,000.

Economic Affairs

The economy has only recently begun to show signs of recovery from the troubled beginnings of the independent state, and substantial aid has been given by the United Nations, Belgium, the U.S.A. and other countries. By 1968 agreement had been reached with most countries covering the release of assets blocked since 1960, and tax-free repatriation of profits earned in the Congo. The country's chief riches lie in the Katanga copper mines.

ZAIRE—(INTRODUCTORY SURVEY)

Manganese, zinc, uranium and other minerals are also mined and there are rich diamond deposits in Kasai. By 1968 the Government had taken over all Union Minière operations. Minerals form more than two-thirds of exports by value. Agricultural products, which have declined since 1960, include palm-oil, rubber, coffee, timber, manioc and bananas. Industry is still undeveloped but bricks, cement, clothing and cigarettes are manufactured. There are large reserves of hydro-electric power, notably in the Inga region at the mouth of the River Congo, where work started in 1968 on the first stage of an eventual 300 mW. power scheme, and in Katanga at Koni and N'zilo, which are also to be developed with foreign assistance. In December 1966 the Union Minière was nationalized by governmental decree, and the Société Générale Congolaise des Minerais (GECOMIN) was set up in 1967 and nationalized in 1968. In March 1968 oil deposits were found in Central Congo province. Refineries are operated at Matadi and Moanda.

Transport and Communications

Transport flows for the most part along the River Zaire and its tributaries, Zairian rivers being navigable above the Inga rapids for more than 8,500 miles. The chief port is Matadi, which is the highest point on the Zaire accessible from the sea. Parts of the railways were badly damaged during the period of unrest following independence, but the main rail link between Kinshasa and Katanga was reopened in 1963 and most mineral exports from Katanga use this route to Matadi. Most roads are in poor condition owing to inadequate maintenance.

Social Welfare

There is an Institut National de la Sécurité Sociale guaranteeing insurance coverage for sickness, pensions and family allowances under an obligatory scheme of national insurance. In 1969 there were 496 doctors working in the Congo.

Education

There are primary, secondary, technical and agricultural schools. In 1965 there were 2.9 million children in subsidized schools. There are three universities and eleven colleges, with over 4,000 students. Compulsory civilian service for a two-year period was introduced in 1966 in order to enlist young intellectuals as teachers.

THE CONSTITUTION

A new constitution was adopted by national referendum in June 1967.

The Republic of Zaire is defined as a united, democratic and social state, composed of eight administrative provinces and the city of Kinshasa.

HEAD OF STATE

The President of the Republic is elected for a seven-year term by direct universal suffrage. Candidates must be natives of Zaire and aged over 40. Under the Constitution, the Head of State is also the Head of Government and acts as the chief executive, controls foreign policy and is Commander-in-Chief of the armed forces and the police.

EXECUTIVE POWER

The programme and decisions of the Government are determined by the President and carried out by the Ministers who are heads of their departments. The Government is dissolved at the end of each Presidential term, though it continues to function until a new Government is formed. The members of the Government are appointed or dismissed by the President.

LEGISLATURE

Parliament consists of a single Chamber, the National Assembly, elected for five years by direct, universal suffrage with a secret ballot. Elections were held in 1970. The National Assembly will consist of the President, two Vice-Presidents and four Secretaries. The members of the Government have the right, and if required the obligation to assist at the meetings of the National Assembly. It will meet twice yearly, from April to July, and from October to January.

POLITICAL PARTIES

In May 1970 it was resolved that the MPR should be Zaire's only party.

PROVINCIAL GOVERNMENTS

The governors of the eight provinces are appointed and dismissed by the President.

CONSTITUTIONAL COURT

The Constitutional Court consists of nine counsellors, three named by the President, three proposed by the National Assembly, and three proposed by the Supreme Court of Magistrates. The counsellors have the right to judge all matters of dispute concerning the present Constitution.

JUDICIARY

The judiciary is wholly independent of the legislature and the executive. It is responsible to the Courts and Tribunals which apply statute and common law. The chief organs of justice are the Supreme Court of Justice, the Courts of Appeal, Military Courts and Tribunals.

FUNDAMENTAL RIGHTS AND DUTIES

All citizens are equal before the law, irrespective of social class, religion, tribe, sex, birth or residence. Every person shall enjoy the rights of personal respect, protection of life and inviolability of person. No person may be arrested or detained except within the prescribed form of the law. All citizens are entitled to freedom of expression, conscience and religion. Military service is obligatory, but can be replaced by alternative forms of public service under the conditions fixed by law. All natives of Zaire have the right and duty to work, and can defend their rights by trade union action. The right to strike is recognized and is exercised according to laws.

ZAMBIA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Zambia, in southern central Africa, is divided from (Southern) Rhodesia by the Zambesi River and Lake Kariba. To the east lie Mozambique and Malawi, to the north Tanzania, and to the south and west Botswana and Angola, while the country is almost split in half by an arm of Zaire territory in the north-west. The climate is tropical, modified by altitude with average temperatures of 65° to 75°F (18°-24°C). The official language is English; the African peoples speak Bantu dialects. Many Africans follow traditional beliefs. Christians make up about 80 per cent of the population, including all Europeans, and are roughly divided between Protestants and Roman Catholics. Asians are mostly Moslems, with a few Hindus. The flag consists of orange, black and red vertical stripes on a green background with an eagle in the upper left hand corner. The capital is Lusaka.

Recent History

The Federation of Rhodesia and Nyasaland broke up in 1963 in the face of successful nationalist movements in Northern Rhodesia and Nyasaland, and Northern Rhodesia achieved independence as Zambia in October 1964. A state of emergency has existed since independence because of the activities of the white minorities in Rhodesia, Angola and Mozambique; the presence of refugees and southern African liberation movements in Zambia; and the problem of the Watch-Tower and Lumpa movements. President Kaunda has been prominent in the OAU and among the non-aligned nations (which met in Lusaka in September 1970) as an opponent of colonial and racist régimes and, in particular, as a critic of the British government's sale of arms to South Africa. He has also from 1969 onwards initiated various changes in the UNIP and state constitutions aimed at reducing the influence of tribal loyalties in political life.

Government

Zambia is an independent Republic within the Commonwealth. Executive power is vested in a President and a Cabinet, appointed by the President from among the members of the National Assembly. The National Assembly has 105 elected seats. In addition, the President may nominate up to five special members to the Assembly. An advisory House of Chiefs voices the interests of provincial chiefs. The former British Protectorate of Barotseland was incorporated within the Republic of Zambia at the assumption of independence in October 1964. In August 1969 Barotse Province, one of the seven making up Zambia, was renamed Western Province and Western Province became Copperbelt Province.

Defence

The Zambian Defence Force is centred on an Army Headquarters and a Brigade Headquarters; there are three regular infantry battalions and two territorial battalions, a battery of Artillery and squadrons of armoured cars and

Engineers. The Zambia Air Force Headquarters administers transport aircraft in close co-operation with the Army. The total strength of armed forces is just over 4,000.

Economic Affairs

Zambia has applied, as far as she has been able, the UN sanctions against Rhodesia, although this has involved reducing her imports from Rhodesia, which in 1965 made up 34 per cent of her total imports, to less than 10 per cent of the total, and has necessitated great expenditure on alternative transport and communication routes.

The basis of Zambian wealth is mining in the rich Copperbelt whose mines employ over 50,000 people. Zinc, cobalt, lead, manganese and substantial amounts of coal are also mined. Smelting and refining works have grown up around the mines and industry is developing swiftly. The majority of the population are still agriculturalists, however. The chief cash products are maize, cattle, groundnuts and tobacco. On the European farms tobacco is grown for export. Community development schemes are improving the quality of farming over most of the country. In 1966 a large coalfield was discovered at Siankandobo (the Maamba field), which is expected to make Zambia self-sufficient in coal for several years. The 1966-70 Development Plan aimed at increasing the G.D.P. by 11 per cent per year and the success of the plan is being assessed before a new one is drawn up. Work is in hand to build a dam and a hydro-electric scheme at Kafue, thus lessening Zambia's dependence on the Kariba system shared with Rhodesia. Since 1968 the important sectors of the economy have been put under the control of state corporations (INDECO, MINDECO, FINDECO, etc.). From the beginning of 1969 retail trade was restricted to Zambian ownership in suburban areas. Zambianization of the copper industry and transport services is also in hand. Zambia has applied for membership of the East African Community.

Transport and Communications

Zambia Railways connects Lusaka and the Copperbelt towns, Ndola and Kitwe, to Rhodesia and South African and Portuguese ports, to the Zaire rail system and the Benguela railway in Southern Angola, and (by lake service) with East African Railways. Since Rhodesia's declaration of independence, Zambia has sought to develop a transport and communication network outside the control of both Rhodesia and Portugal. The existing Great North Road to Dar es Salaam in Tanzania has been supplemented by a pipeline from Ndola to Dar, opened in August 1968; and construction of the Tan Zam railway began in 1970 with Chinese aid. A new international airport was opened at Lusaka in 1967 and work is in progress to extend other airports.

Social Welfare

The Department of Welfare and Probation services was established in 1952. It is responsible for relief of distress, care of the aged, protection of children, adoption and

ZAMBIA—(INTRODUCTORY SURVEY)

probation services. It gives grants for group welfare services including voluntary schemes. A form of pension is granted to aged residents with less than £300 annual income.

Education

In 1969-70 there were 621,500 pupils at primary schools and 48,000 at secondary schools. There are Teacher-Training Colleges and Technical Colleges and the University of Zambia accepted its first students in 1966. Agricultural research for Central Africa is centred at Mount Makulu near Lusaka, while veterinary research is carried on at Mazabuka Research Station. English is to become the medium of instruction in all schools.

Tourism

The numerous Lakes, Victoria Falls, Kafue and Luangwa Valley Game Reserves, to say nothing of the climate attract an ever-increasing tourist traffic. Game-watching, camping, fishing and water-sports are available, while there are a number of excellent hotels and motels.

Visas are not required to visit Zambia by nationals of *Commonwealth countries*.

Sport

There are facilities for almost every kind of sport in Zambia. Athletic and football events are the subject of

keen interest and competition. Many touring teams visit Lusaka.

Public Holidays

1972: May 1 (Labour Day), May 29 (Whit Monday), May 25 (Africa Freedom Day), May 27 (in lieu of Youth Sunday), July 1 (Heroes' Day), July 2 (Unity Day), October 24 (Independence), December 25 and 26 (Christmas).

1973: January 1 (New Year), April 20-23 (Easter).

Weights and Measures

The Imperial system is in use. Metrication was introduced in 1971 and is due to be completed in 1973.

Currency and Exchange Rates

The principal unit of currency is the Kwacha (K) which is divided into 100 ngwee (n).

Notes: 20n, 50n, K1, K2, K10.

Coins: 5n, 10n.

Exchange Rate: K1.86 = £1 sterling.

K0.71 = \$1 U.S.

The new currency was introduced in January 1968 to replace the pound (£Z), valued at K2. Notes and coins in the old denominations continue to circulate.

THE CONSTITUTION

In the late nineteenth century North-Western and North-Eastern Rhodesia were included in a Charter granted to the British South Africa Company, whose administration was officially recognized by two Orders-in-Council in 1899 and 1900. In 1911 the two territories were amalgamated under the name of Northern Rhodesia, which continued to be administered by the Company until 1924, when it was taken over by the Crown. In the same year Orders-in-Council created the office of Governor of Northern Rhodesia, constituted an Executive Council, and made provision for the constitution of a Legislative Council. In 1935 the capital was moved from Livingstone to Lusaka.

In 1953 Northern Rhodesia became part of the Federation of Rhodesia and Nyasaland, but its Protectorate status and separate government were preserved and retained. Following the Victoria Falls Conference of July 1963, at which the dissolution of the Federation was agreed, a new constitution came into effect on January 3rd, 1964, immediately after the dissolution of the Federation on December 31st, 1963.

In October 1964, Northern Rhodesia became an independent Republic within the Commonwealth and adopted the name of Zambia. The Constitution of January 1964, was amended to include the following provisions:

The President: The President of the Republic of Zambia will be Head of State and Commander-in-Chief of the Armed Forces. A candidate for the Presidency must be a Zambian citizen, a qualified voter, and at least thirty years old. Election of the President will take place at the same time as that of members to the National Assembly. Each candidate for election to the National Assembly will declare in advance which presidential candidate he supports. Each voter will this simultaneously vote for parliamentary and presidential candidates.

The Vice-President: Appointment will be by the President;

the Vice-President will be leader of the National Assembly.

The Cabinet: The Chairman will normally be the President. The Cabinet will also include the Vice-President and not more than 14 members, appointed by the President from among the members of the National Assembly and removable by the President.

Legislature: Parliament will consist of the President and a National Assembly of 105* elected members. The President will have power to nominate up to five additional persons as special members of the National Assembly. Though not a member of the National Assembly, the President will have power to address it at any time. The normal life of Parliament is five years, though the National Assembly has power to vary this in special circumstances. To become law, a Bill will require presidential assent. If the President returns a Bill, it shall not again be presented for assent within six months unless it has the support of two-thirds of all members. If this occurs the President shall either dissolve Parliament or give his assent within 21 days.

The Judiciary: The Chief Justice and all other Judges will be appointed by the President.

House of Chiefs: The Constitution provides for a House of Chiefs numbering 26 provincial chiefs. The President will assume the powers, formerly vested in the Governor.

Citizenship: Automatic citizenship shall be granted to people born in Zambia and to former British-protected persons who were born in Zambia immediately before independence day. Commonwealth or Irish Republic citizens, or citizens of African countries which grant citizenship by a comparable process to Zambians may become citizens by registration.

Bill of Rights: A Bill of Rights will safeguard the rights of individuals and the interests of minorities.

FINANCE

Originally, in November 1970, it was announced that the Zambian Government was to take a majority interest in all banks operating in Zambia, and was to take over completely building society and insurance operations. However, the banking proposals were later modified, so that only the already state-owned National Commercial Bank Ltd., together with the Commercial Bank of Zambia Ltd., have the Government as majority shareholder, through FINDECO. The foreign-owned banks have had to become incorporated in Zambia, as from January 1st, 1972. In addition, capitalization of banks has to consist of not less

than K500,000 in the case of any commercial bank wholly or partly owned by the Government and not less than K2 million in the case of any other commercial bank. Furthermore, at least half the directors of these latter banks have to be established residents of Zambia.
